In this issue is published a complete set of the "Definition of Terms and Rules and Regulations" of the Australian Clay Pigeon Trap Shooting Association. In future same will be published once each calendar year. Those interested in the Rules will then have a regular copy for perusal at any time. This direction was one of the decisions reached at the 19th Annual Meeting of affiliated club delegates held on March 13 last.

South and Western Australian Representation on Executive Committee. The meeting decided to include one representative from the States of South and Western Australia on the governing Executive of the Association. This will mean that the State representation will comprise: Queensland three members, New South Wales four, Victoria four, Tasmania two, South Australia one, Western Australia one. Messrs. J. Woodrow of Milang, and C. Ferguson of Dalkeith, were appointed to represent South and Western Australia respectively.

Election of Office-bearers. The following were appointed for the ensuing 12 months as members of the Executive Committee: Queensland, Messrs. F. Blackman, F. H. Claussen and D. M. Pack; New South Wales, Messrs. J. Houston, S. E. Lamb, W. F. Robertson and K. Soames Snr.; Victoria, Messrs. G. Biggs, L. Doyle, J. Headland and T. R. Wightman; Tasmania, Messrs. J. M. Tyquin and W. E. H. Rainbird, together with the two already mentioned from South and Western Australia. The President, Mr. J. M. Wilson, was re-elected unopposed.

State Associations. It was decided to rescind the motion, passed at the 1954 Annual Meeting, in regard to the formation of State Associations.

Handicapping Board. Messrs. E. G. Biggs, L. Doyle, with the secretary co-opted, were appointed as a Handicapping Panel for the Association. In this connection it

was also agreed upon that the following new rule be included in the Rules, that "Club handicaps be not less than Association handicaps". By this Rule it is meant that where a shooter's club handicap is less than the published Association mark, the shooter must shoot from the Association handicap. This Rule comes into effect immediately and should be observed by all affiliated clubs forthwith. A formula for handicapping, similar to that already published, will shortly be published for the information and guidance of all clubs. It was also agreed upon that a handicap return, or in other words, handicap recommendations, be forwarded to the Association headquarters at least once in every three months.

Club Affiliation. From January 1, 1956, club affiliation with the Association has been fixed at £5 per annum. It was pointed out that the original fee of £1/1/- was fixed as far back as 1936, when the Association was first formed and that under present values the fee was out of concept with costs.

Open Championships. A suggestion was put forward that too many championships were being held throughout the Commonwealth. After lengthy consideration and taking into account the importance many country centres attach to district championships, it was decided to take no action.

Shells used in Championships. A proposal that heavier load shells be permitted in open championships,

was defeated. The Rule remains as formerly, that 2½" shells containing 1½ oz. of shot must be used in all open championships approved by the A.C.P.T.S.A.

W.A. Referee Examiner. Mr. R. Alexander, of 111 Beaufort Street, Perth, W.A., was appointed an official Referee Examiner for the State of Western Australia.

Recently in the metropolitan area of Melbourne a shooter, who holds official referee recognition, was observed using "snap caps" or dummy cartridges in a single-barrel competition. This is not permitted and referees should take particular notice of any infringement of this regulation. The Rule governing single-barrel competition is No. 12 (d), which states, "In single-barrel shooting the competitor shall load only one cartridge and no competitor shall be permitted to load an empty shell or dummy cartridge."

Despite many advices in this matter, some club officials persist in claiming break badges for breaks completed over two or three days, and also fail to submit score sheets of any breaks completed. Club officials should note that breaks can only be recognised if completed in one day, or over two days where a club is shooting on successive days, and providing the shooter does not shoot in any other than double or single-barrel events throughout. To shoot in any other form of competition terminates the break.

Another query which has come forward during the past month is one which concerns "walk-up" competition. A club has written stating that there is some doubt as to whether this form of competition is shot five track or centre track and also requesting information as to the means of determining each rise, asking if this is decided by the referee or puller? The conditions of walk-up championships are quite clear on the point. They read, "The competitor shall load his gun on the 22-yard mark. When ready in this position he commences and continues to walk at a normal walking pace.

To walk slowly or shuffle constitutes a 'no bird'. The puller will release the 'pigeon' between the 20 and 15 yards mark, the mark to be unknown to the competitor, being predetermined by an indicator or dice arrangement. Each competitor shoots from the centre track." If a club is unable to secure a spinning indicator for this class of competition, it is quite a simple matter for small pieces of thick paper or board to be cut, each piece carrying one of the numbers between 20 and 15. The competitor could then draw from a hat or similar enclosure, without looking at the figure he has drawn and hand same to the puller. If using this system it is necessary to ensure complete fairness by arranging for the hat containing the numbers to be held high so that no one other than the puller and/or the referee sees the numeral.

"Tips" and "Tails"

The appearance of foxes close to the centre of London (England) may appear almost absurd to those who know their London. However, English reports of late indicate that foxes have been in action at Beckenham, Shortlands

and Park Langley, all areas within 10 miles of Charing Cross. The foxes have been attacking poultry to such an extent that formation of clubs for the eradication of vermin have been under discussion. The trouble of dealing with the vermin is quite a big problem in such a thickly settled area as London. Up to the present a losing battle is being waged against the cunning old bushy tail.

A new club has been formed at Bracknell in Tasmania. The new formation is already affiliated with the A.C.P.T.S.A. Secretary is V. W. Frankcombe, Enfield Hotel, Bracknell, Tas.

Condobolin Club (N.S.W.) will shoot on Queen's Birthday holiday, June 13. Main event will be a £50 Handicap. The Hudson Shield will also be shot for. Enquiries to L. F. Fay (secretary), Box 22, Condobolin (Phone 196). Details are advertised.

L. D. Argall has taken over the secretaryship of the Kiata Club (near Nhill) in the Victorian Wimmera district. He succeeds H. B. Carey.

The Brisbane Metropolitan Gun Club is a new formation in Queensland and is already affiliated with the A.C.P.T.S.A. The club is in process of obtaining suitable shooting grounds at present. The secretary is P. Woulfe, of Little Roma Street, Brisbane, Qld.

The Cressy R.S.L.G.C. has been formed and has also affiliated with

the A.C.P.T.S.A. Secretary is R. H. Bath, Cressy, V. This club is not to be confused with the Cressy Gun Club in Tasmania, which is long established and has a lengthy record of affiliation with the A.C.P.T.S.A.

At the recent annual meeting of the Casterton Club in Western Victoria the prominent racing sportsman, L. G. Koch, of "Wando Vale", Casterton, was appointed President. Secretary is J. R. Hallam, Box 210, Casterton, and Treasurer, W. C. Koch, also of "Wando Vale", Casterton. Casterton Club is now going in extensively for clay pigeon shooting and it looks to have a bright future.

An American publication recently published the following, dealing with questions on scientific matters, "Thermo-nuclear bombs come in three sizes, small size, medium size, and where's everybody!"

Longreach Club in Queensland reports that its lighting arrangements are just about ready for operation and extensive night shooting. The club has not had many shoots in recent months on account of the extremely hot weather which prevails over that portion of the Commonwealth during the summer months. It is expected that night shooting will replace the summer day shooting lull. As one Longreach shooter writes, "Lighting will be great for the summer months out here, when the flies and heat take all the pleasure out of shooting."

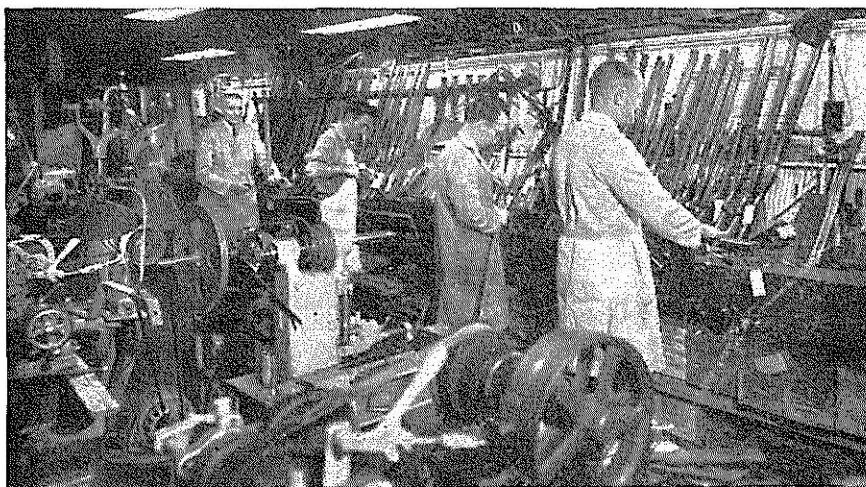

Beaufort, in mid-Western Victoria, is contemplating formation of a new club. Enthusiasts have already made enquiries in regard to lay-out and club formation.

Shooters generally will regret to learn that Fred Blackman, popular secretary of the Townsville Club in North Queensland, and member of the Executive Committee of the Association, has been indisposed for some time, and away at Magnetic Island on sick leave. O. W. Crother has been acting secretary at Townsville during Fred's illness. All hope Fred will soon recover.

Jack Page, well known on Melbourne tracks, has been re-elected President of the Atherton Club in North Queensland. Secretary at Atherton is A. Moses, Box 105, Atherton.

The Warren Club in Western New South Wales will shoot on Queen's Birthday, June 13, when the Lower Macquarie D.B. title will be main event. £100 in prize money is also offered on the same programme. The Hay Club's (N.S.W.) Easter shoot this year lived up to its high reputation for good shooting and first-class entertainment of competitors and visitors by the club. A good civic point was the fact that the Mayor of Hay (Ald. O. J. Smith) attended the series and on the opening day made a brief speech of welcome to all visitors. Civic interest in any club is a big factor in its success and Hay is indeed fortunate that the Mayor should take time off his regular duties to attend. The meeting was highly successful.

The Shoalhaven Club at Nowra, N.S.W., will conduct its official opening shoot on Queen's Birthday, June 13, on the club's spacious location at Brown's Hill, Nowra. Main events are a 10-bird trophy contest and a £50 Handicap. Full details are as advertised. W. C. Hill has relinquished the secretaryship of the club and this office has now been taken over by M. C. A £25 Handicap will be decided together with the special Queen's Birthday Handicap, for which trophies valued at £100 will be available. Secretary is T. Gore, 3 Yardley Street, Maidstone, to whom all enquiries should be directed. (Phone: MW 1572.)

The Myer's Flat Club, adjacent of the big inland centre of Bendigo in Victoria, is conducting a double-championship during the day and a night title on Saturday, June 18. The events are: (day), Loddon Valley D.B. and S.B. and also Siverton S.B. Night title. Good trophies are assured. Enquiries should be directed to W. A. On the Sunday several big events are included, among which is a £100 Handicap, at 40 targets under points system of scoring. Ninety targets per man will be disposed of each day. A recent report from Hon. Association Vice-President, Rex Miles, at Spokane, U.S.A., reveals that the famous American trapshot, Arnold Reigger, was selected as "the man of the year" in sports for the State of Washington. Reigger gained his high honour from among 20 outstanding personalities in the world of sport in the Washington State. It is reported that the appointment is unique and a tribute to the sport of clay trapshooting.

At the Annual General Meeting of Katanning G.C. (W.A.), held in March, the following were elected as office-bearers for the 1955 season: President, E. A. Clegg; Vice-Presidents, N. A. Beeck, J. D. R. Robinson, C. Kowald; Captain, D. K. Norrish; Vice-Captain, A. Jury; Secretary, D. G. Anderson; Treasurer, D. Hilton; Handicapper, D. K. Nor-

A New South Wales shooter, apologising for late payment of registration fee, writes the following: "A feller may as well grease the gun for storage in this area now. Game was never so scarce. I would like to shoot another rabbit to show the kids what they were like, before they become extinct. The myxomatosis has done a colossal job around here, aided by two savage inspectors." The writer concludes by wishing the Association well and good fortune in the future and also adds his hopes that the International score will be in Australia's favour.

CLAY PIGEON SHOOTING

Definition of Terms

COMPETITION.

Wheresoever the word "competition" may be used in the following rules, it is to be understood to refer to have reference to one particular event, and must at all times be so construed by the management, in whose charge the carrying out of such "competition" has been entrusted.

BROKEN PIGEONS.

A broken pigeon is one which has at least a visible piece or pieces, or the centre section, broken from it, or which is completely reduced to dust, or which has a visible section broken from it, even though such section is broken into dust by the competitor's shot. (See Rule 6.)

DUSTED PIGEONS.

A dusted pigeon is one from which more or less dust is detached by the competitor's shot, but which shows no visible diminution in size therefrom. A dusted pigeon is not a broken pigeon, and is "lost."

DOUBLE PIGEONS.

A competitor in double pigeon shooting shall shoot only once at a pigeon. To shoot twice at the same pigeon is simply single pigeon shooting with the use of two shots, and when this occurs the referee should declare "both birds lost."

DULY NOTIFIED.

A competitor is duly notified to compete when his name is called out by a referee, scorer, or other person authorised to do so by the management, or when his name appears on the score board. If a "squad hustler" is furnished, it is a matter of courtesy only, and does not in the least relieve the competitor from responsibility. It is the duty of each and every competitor to be promptly on hand to compete when called upon to do so.

BALK.

Any extraneous occurrence which, in the opinion of the referee, materi-

ally interferes with the equity of the competitor after he calls, "Pull," constitutes a balk if it deters him from shooting, or if it coincidentally interferes with him when he actually shoots. If he shoots after the balk occurs, he must abide by the result. Misfires (under certain limitations as set forth in the rules), etc., are balks. Only the competitor directly interested can claim a balk, which, when allowed, restores him another pigeon.

DISQUALIFICATION.

Disqualification carries with it a forfeiture of all entrance money and rights in the competition to which it relates.

JARRING BACK.

In double pigeon shooting, jarring back denotes that from the concussion of the first shot the safety has been slipped back to "safe." Whatever may be the cause of slipping the safety back to "safe," the competitor must abide by the result.

SIMULTANEOUS DISCHARGE.

Simultaneous discharge is one wherein, from any cause, both barrels are discharged together or nearly together, and constitute a "no bird."

NO BIRD.

After a referee declares a "no bird," it is thereafter no part of the competition, and is irrelevant to it.

WIDELY DIFFERENT ANGLE.

When a pigeon varies more than 70 degrees either way outside the prescribed limit of the angles and height in single pigeon shooting, as defined in Rule 13, Section 5(b), it shall be deemed to be thrown at a widely different angle.

MAGAZINE GUN.

The term "magazine gun" applies alike to automatic guns, pump guns (so called) and other guns not directly dependent on hand loading.

OFFICIAL SCORE.

The official score is the record kept by the scorer, or scorers, and shall

show in detail the scores made in the event, or events. (See Rule 3, Section 1.) By the official score is meant the score sheet.

SHOOTING FOR PIGEONS ONLY.

"Shooting for pigeons only" is a term which shall be held to define the status of a competitor in any given event, or events, or in an entire tournament programme, and shall signify that a competitor who is "shooting for pigeons only" has no interest in any trophy, or trophies (unless he is entitled to do so by a specific announcement in the pro-

gramme), nor any interest in any money, or moneys, the division of which depends on the scores made in said event, or events, or in the entire tournament programme.

HIGH GUNS AND HIGH SCORES.

High guns and high scores signify that the competitors who make the highest score take, in the order of superiority, all the cash or prizes in such ratios as are set forth in the conditions governing the competition. In case of ties, the high guns are determined by shooting off. (See Rule 17.)

Rules and Regulations

Rule 1.—THE MANAGEMENT.

Section 1.—The management of any club holding a tournament, or other competition, under these rules has the authority to reject any entry in the said tournament, or other competition, without giving any reason therefor, and to disqualify, in whole or in part, any competitor who acts in an ungentlemanly or disorderly manner, or who handles his gun dangerously.

Rule 2.—THE REFEREE.

The Referee's Decision is Final

Section 1.—Besides attending to the special duties as set forth hereinafter, the Referee shall adjudicate the competition. He shall **DISTINCTLY** and **LOUDLY** announce the result of each shot by calling out "Kill" when the pigeon is broken, and "Lost" when the pigeon is unbroken. He shall decide all other issues which arise in relation to the direct competition.

Section 2.—It shall be particularly the duty of the Referee to see that the competitor, when firing at a pigeon, is standing within the limits prescribed in Rule 5, Section 4.

Section 3.—The Referee's decision in all cases coming under his jurisdiction as set forth in these rules, shall be final.

Section 4.—If the Referee is negligent or inefficient, impairing thereby the equity of the competition, the management may forthwith remove him. This rule applies also to scorers,

pullers, trappers and any other of the staff.

Section 5.—The Referee is empowered to challenge the ammunition used by any competitor.

Section 6.—The Referee shall insist that no competitor is permitted to shoot from other than his allotted handicap.

Section 7.—The Referee has power to alter his decision.

Section 8.—To preserve the equity of the competition, and to avoid, as far as possible, the balking of any competitor, no member of a squad shall move to his next firing point until the whole squad moves.

Section 9.—The members of any squad shall remain at the firing point until the last shot of the squad is fired.

Rule 3.—THE SCORER.

Section 1.—The Scorer shall keep an accurate record of each shot. Accordingly, the Referee calls "Kill" or "Lost." He shall mark the figure 1 for "kill" and 0 for "lost," or, if so desired by the management of the competition, he may use any other symbol or symbols which will clearly indicate on the score sheet whether each pigeon as scored is "kill" or "lost."

Rule 4.—THE PULLER.

Section 1.—The Puller shall pull the trap, or traps, instantly in response to the competitor's call of "Pull."

Section 2.—The Puller shall have an unobstructed view of the competitors at the firing points.

Rule 5.—COMPETITOR.

Section 1.—A competitor shall hold his gun in any position of safety unless otherwise provided for by the rules of a competition.

Section 2.—A competitor shall load his gun only when at the firing point facing the traps. He shall place the cartridge or cartridges in his gun, and must remove them or the empty cases before turning from the firing point. The Referee or management may disqualify a competitor for violation of this rule.

Section 3.—When at the firing point ready for competition, the competitor shall distinctly give the command, "Pull," to the Puller, and thereafter such competitor is in the competition.

Section 4.—When firing, the competitor's feet must be behind the firing mark assigned to him, and he must stand within eighteen (18) inches on either side of this mark. Should the competitor fail to observe the above rule, a "no bird" will be declared.

Section 5.—A competitor must be at the firing point within **THREE MINUTES** after having been duly notified (see definition) to contest. Failing therein, unless he can show important cause for the delay, he may be disqualified.

Section 6.—Shooting on the grounds at any place other than the firing points is prohibited.

Section 7.—No competitor shall make, negotiate or discuss any bet (either on his own shooting or that of any other competitor) while he is at the firing point or shooting tracks, nor shall he leave the firing point or shooting tracks for the purpose of making, negotiating or discussing any bet. If any competitor infringes this section, he may be disqualified by the Referee.

Rule 6.—BROKEN PIGEON.

The Referee shall declare a "kill" where the pigeon is broken in the air under the conditions prescribed by these rules. Shot marks in a "pick-up" shall not be considered as evidence of a broken pigeon. (See definition.)

Rule 7.—THE OFFICIAL SCORE.

Section 1.—The official score (see definition) must be kept on a score sheet and be available for inspection by the competitor.

Section 2.—Every competitor in a squad shall be permitted to examine his score sheet before the score sheet is sent to the Secretary's office, and whenever possible the individual scores shall be totalled on the several score sheets before being placed on the score boards.

Section 3.—It shall be the responsibility of the competitor to check his score with the score sheet before leaving the shooting track. Any protest must be lodged with the Referee immediately, i.e., before leaving the shooting track. All protests must be confirmed in writing.

Rule 8.—CHALLENGE AND PROTEST.

Section 1.—A competitor may challenge the load of any other competitor, under Rule 12 (b). On receipt of a written challenge, with £1 forfeit, the management shall obtain a cartridge from the challengee, and if, after public examination of it, the management finds the challengee has violated Rule 12 (b), he may be disqualified or not, accordingly as the offence was wilfully committed or otherwise. In case the challengee is wholly innocent, the forfeit shall be paid to him, otherwise it shall be returned to the challenger. The management of any club, or of any tournament, has the power to examine any competitor's cartridges at their discretion, without involving themselves in any penalty.

Rule 9.—LOST PIGEON.

Except in the cases otherwise provided in these rules, the Referee shall declare the pigeon "lost" respectively—

(a) When the competitor fails to break the pigeon.

(b) When the competitor fails to shoot because his gun was unloaded or cocked, or because the safety was faultily adjusted or jarred back, whether from his own oversight or not, or because of any other cause chargeable to his own oversight or neglect. (See Rule 12.)

(c) If a competitor has a misfire or apparent misfire, he, without re-

moving the cartridge or cartridges, shall forthwith call the Referee for his decision, otherwise the Referee may declare it a "lost" pigeon. The competitor must not turn round, must not open his gun, and must keep his gun pointing in the direction of the traps.

Rule 10.—NO BIRD.

It is a "no bird," and the Referee shall allow another pigeon, respectively:—

(a) When a competitor shoots out of turn, from his wrong handicap mark or from the wrong track.

(b) When two competitors, or when a competitor and a non-competitor, shoot at the same pigeon.

(c) When there is a misfire, in either barrel, caused by the competitor's gun, or a misfire of the cartridge, except as provided in Rule 9 (b), and Rule 12 (c).

In the event of a misfire with the second barrel, the competitor must fire a live cartridge in the general direction of the target, and is permitted to score with the second barrel only.

(A competitor will not be allowed the full use of two barrels at a new target given following a misfire in his second barrel.)

(d) When (whether shot at or not) a broken pigeon is thrown.

(e) When a competitor is balked. (See definition.)

(f) When there is any other reason not provided for in these rules, if, in the opinion of the Referee, it materially affects the equity of the competition.

Rule 11.—NO BIRD, IF REFUSED.

In any of the instances herewith specified, the Referee shall declare a "no bird":—

(a) When a trap is sprung at a material interval of time before or after the call of "Pull."

(b) When the trap is sprung without any call of "Pull."

(c) When, in single pigeon shooting, two pigeons are thrown at the same time.

(d) When the pigeon is thrown at a widely different angle (see definition), whether wide or high, provided that where the flight of the pigeon is affected by wind or weather con-

ditions, the Referee may, in his discretion, declare a "no bird."

Rule 12.—GUNS AND LOADS.

A competitor shall not use, respectively:—

(a) A gun whose bore is LARGER than a twelve gauge.

(b) A load of shot greater than one and one-quarter ounce weight, struck measure, nor may a larger size of shot than No. 6 (English) be used.

(c) A reloaded cartridge or a cartridge after it has once misfired in the competition, or a gun after it has twice misfired in the competition, the competitor must thereafter abide by the result if he uses such. (See Rule 9 (b)).

(d) In single barrel shooting the competitor shall load only one cartridge and no competitor shall be permitted to load an empty shell or dummy cartridge.

Rule 13.—PIGEONS, TRAPS, FLIGHTS AND ANGLES, PITS AND SCREENS, FIRING POINTS.

Section 1.—No pigeon shall measure more than four and five-sixteenths ($4\frac{5}{16}$) inches in diameter, nor more than one and one-eighth ($1\frac{1}{8}$) inches in height.

Section 2.—An automatic trap, or three traps, Sergeant System, may be used.

Section 3.—The automatic trap. (See Diagram 1.)

SERGEANT SYSTEM.

Section 4.—Three single traps, four feet apart, constitute the Sergeant System. The pigeons are thrown from unknown traps, at unknown angles.

FLIGHTS AND ANGLES.

Section 5.—(a) Pigeons, whether singles or doubles, shall be thrown not less than 45 yards, nor more than 55 yards, with a flight of 9 feet high at a point 10 yards from the trap, with a margin of tolerance of not more than 18 inches, above or below. Except in double pigeon shooting, the flight of pigeons shall be at unknown angles, thrown within an area of 45 degrees right and left of an imaginary straight line drawn through the centre of number three firing point and prolonged through the centre of the central trap, or

through the centre of the single trap when only one trap is used.

(b) To arrive at the proper height at which pigeons should be thrown as set forth in (a) of this section, due allowances should be made according as the ground in front of the trap rises or falls away, and the flight of the pigeons 9 feet high at a point 10 yards from the trap is judged to be from an imaginary horizontal straight line drawn through No. 3 firing point through the single trap, or through the centre trap if the Sergeant System be used, and prolonged indefinitely.

(c) In single pigeon shooting, to aid in distinguishing between pigeons within and without bounds, four stakes (see Diagram II) not less than 3 feet in height, shall be placed in the arc of a circle whose radii are 50 yards and whose centre is the centre of the single trap, or the centre of the central trap when three are used. Respectively, right and left of the aforementioned imaginary straight line, two of the stakes shall be placed upright, one at 45 degrees and one at 65 degrees in said arc. (See definition of "Widely Different Angle" and Diagram II.)

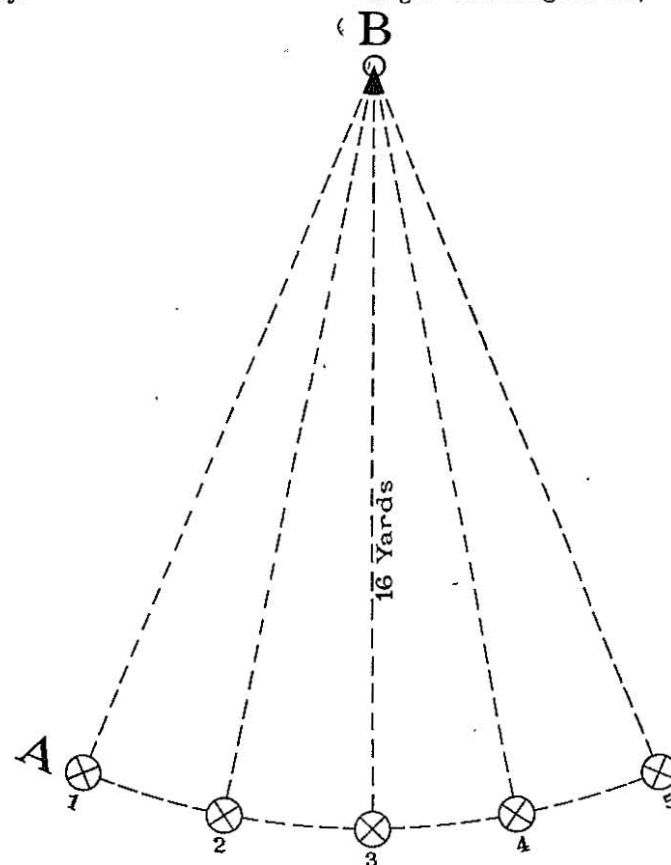

DIAGRAM I. STANDARD FIRING POINT LAYOUT.

This shows the standard layout for the Automatic Angle Trap. The trap is located at point B and directly behind it at a distance of 16 yards

is firing point No. 3. Points 1, 2, 4 and 5 are also 16 yards from the trap, whilst the distance between adjacent points is 3 yards.

B. The trap.

C. A point 50 yards directly in front of the trap.

D. Stakes placed as markers.

DCDB. This shaded portion shows the area within which the targets must be thrown.

PITS AND SCREENS.

Section 6.—Pits and screens shall be used to afford proper protection for the trappers. The screens shall not be higher than is necessary for such protection.

FIRING POINTS.

Section 7.—The firing points shall be three yards apart in the circumference of a circle whose radii are 16 yards. (See Diagram I.)

Rule 14.—DISTANCE HANDICAPS.

The distance handicaps, when used, shall be on prolongations of the lines

given in Diagram I., commonly known as "fanshaped." The distance between the firing points at 16 yards shall then be three yards. (See Diagram III.)

Rule 15.—SQUADS.

Section 1.—Competitors shall shoot in squads of five, except respectively:

(a) When there are less than five competitors available for the last squad of any programme event.

(b) When there are withdrawals from a squad or squads after the competition has begun.

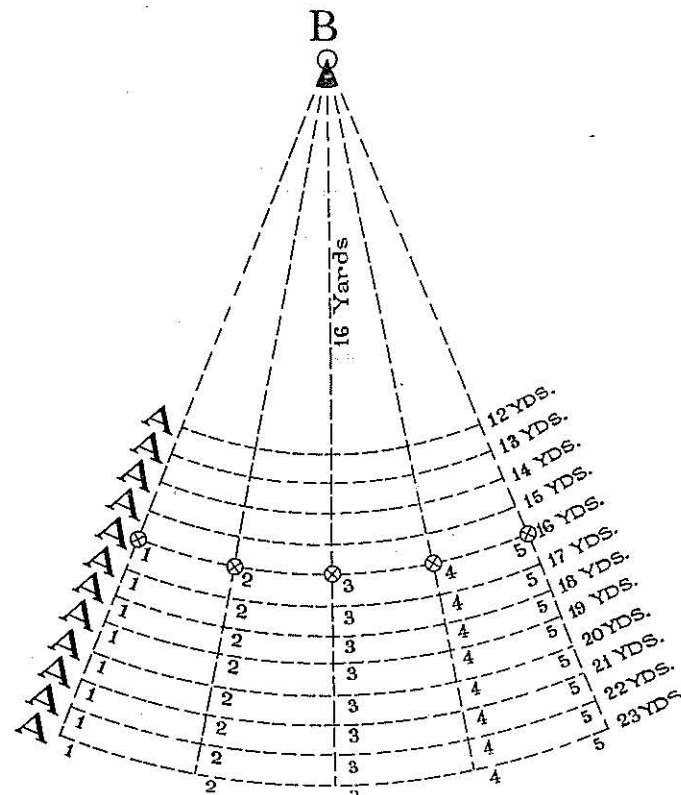

DIAGRAM III. DISTANCE HANDICAPS.

This shows the layout of the "fanshaped" tracks used for distance handicap shooting. The 16-yard marks are 3 yards apart as in Diagram I, whilst the other marks are

at one yard intervals along the tracks.

Section 2.—The competition (except in handicap events) shall begin with not less than five competitors in the first squad of the first event.

Rule 16.—DOUBLE PIGEONS, MISFIRE, MAGAZINE GUN.

Section 1.—In double pigeon shooting there shall be squads of five at 16 yards, except as provided in Rule 15, Section 1 (a) and (b).

Section 2.—Each double shall be thrown as a right and left quarterer, whose flights shall be limited to DDB (Diagram IV) right and left of an imaginary straight line drawn through the centre of No. 3 firing point and prolonged through the centre of the central trap, or through the centre of the single trap when only one trap is used. To aid in distinguishing between pigeons within and without bounds, four stakes not less than 3 feet in height shall be placed in the arc of a circle whose radii are 50 yards, and whose centre is the centre of the central trap, or the centre of the single trap, when only one trap is used. Respectively, right and left of the aforementioned imaginary straight line, two of the stakes shall be placed upright, one at 20 degrees and one at 65 degrees in said arc. (See Rule 13, Section 5 (a), Section 5 (b), and Diagram IV.)

Section 3.—If the competitor has a misfire or apparent misfire, he, without opening his gun or removing the cartridge or cartridges, shall forthwith hand his gun to the Referee for decision. (See Rule 9 (c) and Rule 12 (c).)

Section 4.—The Referee shall declare "no birds" respectively:—

(a) When only one pigeon is thrown.

(b) When both pigeons are broken by one shot.

(c) When one pigeon is a broken pigeon or both pigeons are broken pigeons when thrown from the trap or traps.

(d) When both barrels of the competitor's gun are discharged simultaneously.

(e) When there is a misfire with either barrel (except as provided in Rule 9 (b) and Rule 12 (c)). (See Section 3 of this Rule.)

Section 5.—In case the competitor does not shoot, the Referee shall declare "no birds":—

(a) When one pigeon follows the other after a material interval of time, instead of the two pigeons taking flight simultaneously.

(b) When one pigeon or both pigeons are thrown at a wider or narrower angle or angles or higher or lower than is set forth in Section 2 of this Rule.

Section 6.—In case of a magazine gun (see Definition), it is "no birds," and the Referee (except as provided in Rule 9 (b) and (c)), shall allow another pair, respectively:—

(a) When, in ejection, the head of the empty shell is pulled off, if it thereby prevents re-loading for the second shot. (This also applies to single rise shooting when two barrels are allowed.)

(b) When, if the gun is opened properly, the extractor fails to extract the empty shell of the first shot.

(c) When the empty shell, although it be extracted from the chamber after the first shot, is not ejected, thereby preventing the re-loading of the gun for the second shot. (A competitor must abide by the results of such failures thereafter.)

Section 7.—In the case of a magazine gun, it is "no birds" and the Referee shall allow another pair where there is any failure to shoot caused by a cartridge which is too thick or too long, or any failure whatsoever caused by a reloaded cartridge or a second failure to eject.

Section 8.—When the Referee declares "no birds," the competitor shall have a new inning with the use of two shots.

Rule 17.—TIES.

Section 1.—All ties shall, whenever possible, be shot off, and in such manner as the management of the competition may deem best fitted to preserve the equity of the said competition:

(NOTE.—It is always to be desired that ties in competitions of fifty or more pigeons be shot off in strings of not less than twenty pigeons, nor more than twenty-five pigeons per man.)

Section 2.—If, however, the management decides that the ties shall be shot off "Miss and Out," the

method of procedure shall be as follows: All those in the tie shall shoot in the order in which they finished in the competition at a single pigeon from No. 3 firing point. The next pigeon shall be shot at from No. 4 firing point, and the following pigeon from Nos. 5, 1 and 2 firing points, respectively, and so on until a decision is arrived at. Any competitor missing a pigeon is at once out of the competition, unless it should happen that all the competitors remaining in the competition should miss a pigeon in the same round, in which case they shall continue the competition just as if they had all broken said pigeon.

Section 3.—Ties in double pigeon events are best shot off at either five (5) pairs per man, one pair from each firing point, or at ten (10) pairs per man, two pairs from each firing point. If, however, it is decided to shoot off the tie "Miss and Out," the procedure is the same as in Section 2 of this Rule, with the exception that a pair of pigeons will be shot at from the several firing points instead of single pigeons, the competition being continued until a decision is arrived at.

Rule 18.—UNFINISHED COMPETITION.

Should darkness, bad weather, or other cause, interfere with the competition, the management may publicly postpone the competition to a date not later than two weeks. Any competitor who defaults in respect of such postponed competition forfeits all his rights and standing therein.

Rule 19.—OFFICIAL DECISIONS.

Every person entering competitions agrees to accept all official decisions, and to abide by the Rules controlling the Competition.

SWEEPSTAKE DEDUCTIONS.

Permissible deduction from sweepstakes by clubs, in club contests, shall be not more than 50 per cent. (inclusive of targets).

ALTERATION TO TRAP.

Any member of the Executive Committee of the Association or official Referee attending any shoot under A.C.P.T.S.A. Rules, shall have

authority to adjust any trap, should it not be throwing regulation birds, at the completion of a round. Immediately any such alteration has been made a bird to be thrown and shoot to continue.

STANDARD EQUIPMENT.

Concrete blocks and measuring sticks for measuring height of targets are required to be standard equipment for all clubs.

HANDICAPS.

Club Handicaps must be not less than Association Handicaps.

FORMATION OF A CLUB.

The actual formation of a clay target shooting club is not difficult if local conditions are right. What usually happens is that a few keen sportsmen get together and approach their local gunmaker with a view to sounding his other customers as to the probability of joining such a club if formed. The next stage is to hold a preliminary open meeting, inviting all and sundry, get some prizes put up by local and interested people, and choose some opportune moment during the meeting to announce the object of forming a club; then follow this by a general meeting at some public hall. Much, of course, depends on local conditions and enterprise, but a certain amount of guidance may be obtained from the following skeleton form of rules and regulations, which, though formidable in length, will make for easier running of a club, especially, as often happens, where a club starts with a few members, it becomes popular and increases its membership threefold.

SUGGESTED RULES FOR GUN CLUBS.

The Club.
Headquarters

RULES.

1. The title of the Club shall be
2. The headquarters of the Club shall be at
3. The object and aims of the Club shall be to foster and encourage the sport of clay target shooting, to

arrange and organise practice shoots, to arrange matches and competitions, both among members and affiliated clubs, and to improve the standard of shooting among members.

4. The management of the Club shall be vested in a chairman, and in a committee of five, three of whom shall form a quorum, who shall be elected annually from the members of the Club at the annual general meeting; the retiring members shall be eligible for re-election.

5. A president and vice-president shall be elected annually from the members of the Club at the annual general meeting, and retiring presidents and vice-presidents shall be eligible for re-election. The committee shall have power to add to the number of vice-presidents for the current year.

6. An honorary treasurer, honorary secretary and honorary armorer shall be elected from the members annually at the annual general meeting, and the retiring hon. treasurer, hon. secretary and hon. armorer shall be eligible for re-election.

7. The committee shall have power to fill any vacancies during the current year, and shall have power to form sub-committees as may be required for special purposes.

8. The president, vice-presidents and captain shall be ex-officio members of the committee, but the vice-presidents shall not have voting powers. The hon. treasurer, hon. secretary and hon. armorer shall be ex-officio members of all committees, with full voting powers.

9. The annual subscription of the Club shall be per annum, with an entrance fee of (the total sum from entrance fees should be sufficient to cover the initial cost of equipment, etc.) for the first year. The financial year of the Club shall be from to the following year. Members joining after shall pay one-half the annual subscription.

10. The Club shall be affiliated to the A.C.P.T.S. Association, and shall be governed by

all regulations made by that Association in connection with all shoots and matches.

11. The annual general meeting of the Club shall be held on or after the last week in* in each year, and fourteen days' notice shall be given to all members. Resolutions to be proposed at the meeting shall be given in writing to the hon. secretary seven clear days before the date of the meeting.

12. On a petition, signed by at least one-third of the members of the Club, being presented in writing to the hon. secretary, a special general meeting shall be called within fourteen days of the date of presentation of the petition to consider the matter contained therein.

13. The committee shall have power to form such by-laws as they may consider will be conducive to the good of the Club and to the encouragement of the sport.

14. These Rules shall be subjected to revision during the first year of the Club by the committee, but after the first year no alteration shall be made except by resolution at the annual general meeting.

The above Rules were approved by the committee of the Club at a general committee held on

GROUND SELECTION.

When selecting a site for a clay pigeon shooting ground the first and most important consideration is the background. It is difficult to follow the flight of a target thrown in the direction of trees or buildings; therefore, avoid doing so, if at all possible. A flat open field with the trap set pointing to avoid sun-ray interference, provides the ideal setting for down-the-line shooting, with a minimum "danger zone" of 250 yards in front of trap or traps.

A slightly larger area is needed—300 x 600 yards—to meet the requirements of a "Skeet" lay-out, but where the two forms of shooting are to be incorporated, the installation of the automatic trap midway between the two "Skeet" trap houses makes an ideal and neat setting. The ground should be as level as possible,

with the firing marks raised a few inches to allow for drainage.

For standard down-the-line shooting the five firing positions should be set on a 16-yard radius from the trap, three yards apart, with the centre or No. 3 mark in a direct line between trap and firing stand. Distance handicap positions should be set up at one-yard intervals in a direct line from the trap houses through No. 3 firing mark, extending from 12 to 25 yards.

Where more than one automatic trap is laid down, they should be placed not less than 40 yards apart.

The club house or marquee should be placed directly behind the pull stand, but at a distance sufficient to avoid conversation disconcerting the puller.

A very gentle Quaker, discovering a burglar at work in his house, grabbed his gun and stood quietly in the doorway.

"Friend," he remarked, "I would do thee no harm, but thou standest just where I am about to shoot."

Considering the inclement weather elsewhere, we had a very representative gathering. Shooters coming from Kyabram, Shepparton, Echuca, Barham, Swan Hill, Harcourt, Melbourne. We appreciate the support of these shooters who travel long distance to attend our shoots. A most satisfying turn-up of shooters for the main event of the day, the President's Trophy. Mr. Forbes, the club president for this year and a very keen worker and follower of the sport, donated the whole of the trophies for this shoot. Les Sheringham, one of our most regular attenders, had a most successful day in taking away the two main trophies of the day, the President's Trophy and the Double Rise District Championship. Visitors from Queensland and New South Wales were present. W. Chandler, the Queenslander, took home the second prize in the main event.

The shoot on Sunday once again opened the season of this grand sport, and it was very pleasing to see that the shooters seemed even more keen this year than in the past. However, due to the shearing, many keen shooters were disappointed in being unable to attend. This shoot was one of the brightest on record, and the shooting was of a very high standard. Our congratulations go to Dave Webster, who for the second time exceeded his 100 break. A most enjoyable day for all; hope the season continues in this spirit.

The popularity of Skeet waxes and wanes with unfailing irregularity. A major handicap appears to be the loss of time due to the rule of one cartridge in the gun, compared with the American system permitting two. Many hesitant new-comers to Skeet, hard to get started, obviously enjoy it after a round or two. Welcome visitors included J. Huntington (Wodonga, V.), G. D. Secombe (Coffs Harbour) and J. A. Squires (Quirindi).

After a deal of heavy rain a spot of sun shone through and as a result, shoot was held, although showers fell all the afternoon and as a result shooters were at a big disadvantage, but shooting was good, Neil Mitchell getting a 54 break—a very good effort, as it is the first occasion a break of over 50 has been obtained at our grounds.

Good roll-up of shooters, but unfortunately clays which we had ordered did not arrive and as a result only three events could be held, and it was very nice to see veteran shooters like Hoare in form, although beaten by R. Morton — shoot-off for B. Moyle's Trophy.

(David Anderson, Hon. Sec.)

BALMORAL (V.). — Balmoral Gun Club conducted a shoot on Saturday, April 23. Visiting shooters were present from Hamilton, Cavendish, McArthur and Edenhope. Mayfield and H. Vaughan, 14/15, shot off for Trophies, and after a good shoot-off the young Cavendish shooter Don Mayfield took first trophy, 29/30; J. Arnold (Hamilton), 2nd trophy, 28/30.

Good attendance for very wet weather. Club intends shifting trap back to give a skyline background, which should make better shooting in dull weather. Shooters from Newcastle, Abermain, Coffs Harbour, Kempsey, Port Macquarie attended the shoot.

(A. J. Tufrey, Hon. Sec.)

COBURG (V.). — The shoot on Easter Sunday was most enjoyable. The weather was perfect and conditions ideal. Because of the holiday, attendances fell off slightly, but was better than anticipated.

A start was made with the usual 10 birds Points Decision. Cliff Ingbritsen and Ray Garonne cut 1st and 2nd money with 29/30 points each, whilst four others participated in the remainder.

The £100 D.B. Handicap over 30 releases was the principal attraction. As is the policy of the club, come hell or high water, all stakes are paid in full.

The event was shot in three visits of 10 birds each. At the end of 20 birds only Keith Styles and Ray Hering had clean scores. In the last 10, Keith got the lot, and interest was in whether Ray could tie with him. However, it was not to be. Ray dropped a bird and Keith was the outright winner with 30/30 and was £60 richer.

Keith Styles is a young shooter who will go a long way in the game.

Ray Hering collected £30 for his 29/30 and seven others with 28/30 tied for the remaining "tenner". It was shot out until three were left. They were Cliff Ingbritsen, Frank Marion and Noel McFarlane, and they split it up.

A 20-birder followed and the shooting in this was very good. The possibles shot on and the prize was eventually cut by Cliff Ingbritsen, Frank Marion and Tup Pedersen (Drouin) with 31/31.

The usual 10 birds Points commenced the programme on April 23. Both weather and conditions were ideal. Ben Whiley and Tom Spence scored 30 points and cut, Noel McFarlane, Cliff Ingbritsen and Les Turner each missed one point and shared what was left.

The 20 birds D.B. drew a smart field. Clem Mudford, Ray Hering, Harry Belmore, Cliff Ingbritsen, Ben Whiley, Noel McFarlane and Billy Scott scored the possible, and a mighty shoot-off was anticipated.

Ray Hering, however, missed his first bird. Three releases later Noel McFarlane surrendered. The fifth bird claimed Clem Mudford and allowed him to go home and feed his chooks. "Ingi" survived until the ninth bird.

That left Harry Belmore, Ben Whiley and Billy Scott on their own. The 17th release claimed Ben. Harry and Bill shot on strongly, but disaster overtook Billy at the 24th. He and his gun had an argument, and on inspection by the referee, the decision went against him, and Harry Belmore was the winner with the good score of 44/44.

Mrs. V. ("Tim"). Jones thoroughly deserved the 12/13 yds. trophy with a well shot 19/20.

A five-pair Auto and Driven proved popular. Pairs only counted and they proved elusive to most. There were a number of possibles, however. They included Ben Whiley (who is shooting well), Harry Belmore (always hard to beat), Tom Spence, Warrick McGregor, Noel McFarlane (improving) and Ray Hering.

In the shoot-off Spence and McGregor were out early. McFarlane was next to go, followed by Ray Hering. Ben Whiley went on to down Harry Belmore with a score of 13 pair — a very creditable performance. K. Waring (a visitor from Willaura) took the 12/13 yd. trophy.

Watch for some attractive features in the near future.

ALEXANDER (V.), — An absolutely perfect day and a good attendance made the shoot on April 16th very pleasant from all aspects. Visitors were welcomed from Shepparton, Yea and Mansfield. It was most pleasing to have several new shooters from Mansfield, where a club has recently been formed. All showed more than average ability at their first attempt, and it would seem that as experience is gained, some tough opposition can be expected from these enthusiasts. The ideal weather conditions were reflected in the scores throughout the day. Fifteen years old Denis Doyle shot a fine break of 64 straight and 16 years old Rob Cumming put together 30 straight. A special beginners' trophy was won by Noel Adams (Mansfield) after a tie shoot with R. Brown (Mansfield). Club thanks to the ladies for their usual splendid assistance.

Results: Event 1, 5 birds D.B.: div. G. Cookson, G. McLeod (Shepparton), Denis Doyle, W. Yeomans (Mansfield), H. Peters (Mansfield), G. S. Cumming, Luke Doyle, 5/5. Event 2, 10 birds D.B. Good support was given by Warracknabeal club in particular, also Walpeup, Sea Lake, Underbool, Hopetoun and Quambatook. We thank these shooters for attendance. An enjoyable afternoon tea was served by the ladies.

(S. J. Schack, Hon. Sec.)

The school orchestra was rehearsing a composition by the director to be played at the concert. After going over the composition six times the director seemed satisfied. "Thank you," he said to the weary musicians, "at last you have given me a true interpretation of my work."

"Gee!" whispered the boy with the trombone, "that's queer, I've got two pages to play yet."
