# Editor's Notes

The 1976 Annual General Meeting of affiliated club delegates and representatives was to be held in the Conference Room of the Rivervale Hotel, Perth, Western Australia, commencing 8.00 p.m. on Friday, February 27, 1976.

The secretary would be available with the registers from 7.30 p.m. for delegate attendance recording.

Scrutineers to check each member club delegate before they sign the attendance register for their respective clubs.

As each delegate signs the register, the scrutineers issue him a set of serially numbered ballot forms for:

(a) National President;

(b) Executive Committee for his particular State in accordance with the Articles.

Delegates then proceeded to the places for completion of the voting forms by secret balloting procedure, thence lodged the forms in the ballot boxes provided for each State.

**AGENDA ITEMS** included:

1. A recommendation from the Executive Committee that shooter annual registration fees be \$15.00 per shooter as from 1-1-1977 (as provided in Article 49 (a)).

2. Motion from Australian Gun Club (Vic.) — "That the monies, as held in ACTA Travel Fund, be transferred to a building fund and the one dollar from the annual shooter's subscription fee be also placed in such fund.

3. The election of seats on the Executive Committee from nominations received by the ACTA Secretary as provided for in the Articles of the Association.

The following nominations had been received by the ACTA Secretary for the Executive Committee for the 1976 period:—

## **President:**

A. Pedersen  
(One to be elected)

## **Queensland:**

M. G. Champney  
A. R. Kenna  
N. W. Massey  
(Two to be elected)

## **New South Wales:**

P. L. Papps  
A. N. Rowe  
K. H. Sim  
(Two to be elected)

## **Victoria:**

R. F. Buchan  
D. H. J. Williamson  
(Two to be elected)

## **South Australia:**

R. C. Mules  
(One to be elected)

## **Western Australia:**

R. M. Holtfreter  
(One to be elected)

## **Tasmania:**

L. Toyne  
(One to be elected)

Affiliated units of the ACTA are reminded that they are entitled to one delegate (Article 15) to represent their interests at the Annual Meeting. However, delegates can only be accepted providing the Association "Articles of Association" are complied with. This involves the completion of the necessary forms, namely "Acceptance of Membership" (Article 5 (a)), "Nomination of Representative" (Article 21) (in the case of a corporate club), or "Nomination of Delegate" (Articles 5 (c) and 16) (in case of an unincorporated club), followed finally by "Notice of Acceptance of Delegates". Official printed forms as applicable are obtainable from the ACTA office. It should be noted that nomination of a representative or member delegate can only be accepted providing all subscriptions and monies due by either the nominee or the club, to the Association, have been paid as provided for in Article 49.

It is also pointed out that where a representative or delegate has been appointed previously, and this has not been officially rescinded, the appointment as previously made will stand, until the Association is

advised or instructed otherwise. In accordance with the Articles of Association, clubs cannot appoint a delegate other than on the prescribed form (letters are unacceptable).

It is suggested, and recommended that all shooters complete and sign the "Schedule A" amateur declaration — two copies were in the November publication, one for personal record to be retained by each shooter, the other is perforated for easy removal. It is preferable that this copy, which is required for ACTA records, is forwarded by your club secretary, with your registration fee.

Forms must be written in ink to be acceptable.

ACTA central records have now been updated and all shooters have been allocated a permanent five digit number which appears on his 1976 handicap/registration card with his name and address. This number will remain permanently to that shooter and clubs are asked, when forwarding any information on handicapping, class shooting or change of address, to show the number with the shooter's name.

1976 Handicap/Registration cards contain an extra fold this year to provide for ISU Trench and ISU Skeet shooting.

Each shooter, when registering each year should physically show to the club secretary his current state firearms or shooting licence and this licence number should appear on his club renewal form (ACTA form 60 which is retained by the club) each year. This is a

request for co-operation from senior police officers and will safeguard all club managements. The action of obtaining a shooting licence is a shooter's own responsibility.

The programme for the Australian National Clay Target Championships for 1976 being conducted at the Perth Gun Club was fully published in December, 1975 ACTA Shooting News with the events to be conducted in the sequence of:

Wednesday, February 25 — Skeet over 5 layouts.

Thursday, February 26 — Double Rise.

Friday, February 27 — Grand Handicap.

Saturday, February 28 — Double Barrel.

Sunday, February 29 — Single Barrel.

Monday, March 1 — ANZ Points.

Tuesday, March 2 — International Trap Teams' Match and Champion of Champions.

TO BE NOTED by all concerned that the firearms laws of Western Australia provide that all firearms coming into the State must be registered — Visitors' Permits 50 cents — preferably on contacting the first police station on entry. Those seeking to shoot game would need a West Australian Game licence and juniors of 14 years are acceptable.

Meetings in Perth during the "Nationals".

1. ACTA Executive Committee Meeting on Monday, February 23, 1976, at 4.00 p.m. at the Rivervale Hotel, Perth.

2. A "get-together" during the evening of Tuesday, February 24, at a place to be determined. Reservations for 150 to 200 attendance for a maximum charge of \$3.00 per person.

3. 40th Annual General Meeting of the Australian Clay Target Association was held on Friday, February 27, 1976 in the Conference Room of the Rivervale Hotel at NO COST to the ACTA and delegates assembled from 7.30 p.m. for 8.00 p.m. start. No refreshments were provided by ACTA.

4. Nationals Trophy presentation Night, Tuesday, March 2 at the Perth Gun Club after a FREE BARBECUE.

Daily Jury of three arranged by the ACTA Secretary from members of the Executive Committee.

Mr Elgin Gates of California (our adopted US liaison officer) was unable to attend our 1976 National Championships because of unforeseen business commitments. Elgin has, since 1971, kindly donated a silver commemorative belt buckle to each national trap event winner and, as these are personal donations, he understandably asked that he may withdraw this offer for 1976.

The association is most grateful for donations received for the 1976 National Championships as follows:

1. Special Browning U/O shotgun by Fabrique

The Australian Clay Target Shooting Rules as prescribed for competition within Australia by the

AUSTRALIAN CLAY TARGET SHOOTING NEWS

Australian Clay Target Association were contained within the November, 1975 publication of ACTA Shooting News.

A pocket-size handbook containing the Australian Clay Target Shooting Rules and the International Shooting Rules (updated) is available on demand by member clubs for their shooters for \$2.00 per copy. A gratis copy is being mailed to all member clubs.

Within the ISU rules section and for those to whom the headings are not completely clear, the principal language within the International Shooting Union is the English language and the words International Shooting Union (ISU) are derived from Union Internationale de Tir (UIT).

Separately within this publication are the results of the final eliminations at the Melbourne Gun Club on February 2nd to achieve the two trench and two skeet shotgun shooters who will represent Australia at the 1976 Olympic Games at Montreal, Canada. The information so published is all that is available at the time of going to press. Subsequently as further information is received from the Australian Olympic Federation, this will also be made available. Fares, uniforms, cartridges and accommodation of Australian Olympic contestants are usually provided by donations to the AOF plus grants from the Commonwealth Government.

The 1976 New Zealand National Championships are scheduled to be conducted at Christchurch during March 20-27, with the programme in the following sequence:

March 20 — Open shoot.

March 21 — \$2,000 Trophy Match.

March 22 — Single Barrel Championship.

March 23 — Single Rise Championship (as for Double Barrel).

March 24 — Mackintosh Qualifying Matches and Glenn Cup.

March 25 — Mackintosh Teams' Match and Sparrow Championship.

March 26 — Double Rise Championship and commence Skeet.

March 27 — Finish Skeet and shoot Australia v. New Zealand Skeet Teams' Match.

On February 10 it was announced by both the Victorian and New South Wales Governments that they each have changed the opening date of the 1976 Open Season for Wild Ducks to read March 13, repeat March 13 and the season will then remain open until probably May 31.

The change of opening date occurred because it clashed with the newly proclaimed Victorian State Election polling date as March 20.

Melbourne, Victoria, 3001

PO Box 1090  
Mount Isa, Qld., 4825  
January 26, 1976

Dear Mr Berry,

This year sees the Mount Isa Gun Club as hosts for the Queensland section of the 1976 Interstate Trap Teams' Match.

Mount Isa, for those who have not been there, is a city of some 32,000 population and is located approximately 1200 road miles north-west of Brisbane and approximately 600 miles west of Townsville. It is a city with a high standard of living and amenities, the equal of any similarly sized coastal city.

Accommodation for the visitor is first class, with a wide range of hotels, motels and caravan parks. Tourists enjoying staying in the "Isa". Some 73,400 people came through Mount Isa's airport in 1974 and there are approximately 25,000 visitors per year to the Mount Isa Mine.

Mount Isa Mines Limited is the free world's largest single-mine producer of lead, and the second largest producer of silver. It ranks sixth in zinc production and is among the top ten world producers of copper. The mine is one of the most highly mechanised in the

world and has also one of the best safety records of the world.

Visitors may tour the surface operations of Mount Isa Mines Limited twice daily on week days and special permission has been obtained by the club for shooters and their wives to tour underground at the mine before and after the Teams' Shoot. Because of the work involved, the Company has set a date of April 1 for nomination for the underground tour only.

The club has two Damo and one Winchester electric traps and has been in operation since 1968. Some caravan accommodation is available on the gun club grounds.

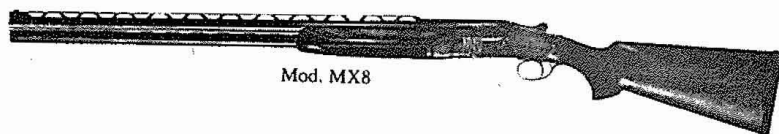

We look forward to hosting the Queensland Section of the 1976 Interstate Teams' Match and extend an invitation to all shooters and their wives to visit Mount Isa in June 1976.

Yours faithfully,

For and on behalf of Mount Isa Gun Club  
H. J. Smith  
Hon. Secretary

(Editor's Note: The club has overlooked the information that Mount Isa G.C. will conduct the Queensland Section of the 1976 Interstate Trap Teams' Match on June 12/13, 1976.)

### Attention all Victorian and New South Wales shooters

As the Victorian State Parliamentary Elections are to be held on March 20, the OPEN SEASON for WILD DUCKS in both States has been amended to read March 13 with the closing date probably May 31.

Victorian Quail 6-27 March and May 1 to June 30.

At such short notice when going to press, clay target competitive shooting at a number of clubs, especially within Victoria, have had to change their shoot dates.

Consequently, shooters are asked to read and act upon the respective shoot dates as now published herein. The most pressing of these changes in Victoria are:

*Victorian Gun Club:* managed to merely switch programmes within their advertisement.

*Shepparton Gun Club:* switched from March 13/14, club events shoot to March 20/21.

*Kyneton Gun Club:* withdrew their March 14 shoot until April 11.

*Metropolitan Gun Club:* now reads March 13 — no shoot — duck opening. March 20 — day shoot for practice and novices. March 20 — night shoot as advertised herein.

*Melbourne Gun Club* — now reads March 13 — no shoot — duck opening day. March 20 — normal shoot as listed herein.

*Werribee Gun Club* — March 14 shoot altered to March 28.

# Final eliminations for Montreal Olympics

**FINAL ELIMINATION** for the selection of 2 Trench and 2 Skeet shotgunners for submission to the Australian Olympic Federation for acceptance into the Australian team for the 1976 Olympic Games at Montreal, Canada.

The weekend of January 31st and February 1st and 2nd saw the completion of final eliminations for the Montreal Olympic Games; the venue being the Melbourne Gun Club at Lilydale, Victoria. The weather, as is usual for Melbourne, was a little of all four seasons over the three days ranging from near 100° to a quite wintry morning on Monday, the 2nd of February.

It was encouraging to see the increase in qualified shooters from all parts of Australia at this particular elimination and indicates the growing interest in European International shooting by the country's shotgunners. This applies particularly to the younger shooters of whom many attended, for it is this group that Australia must depend on, in the years to come, to secure those very precious gold medals.

It may take some time before we are successful overseas because experience must be gained under difficult conditions; confidence must be gained through competing and a strict regard must be paid to both mental and physical fitness. All of this leads to the final requirement where a shooter knows he can cope with any conditions, and his mental attitude and physical ability are such that he reaches the desired state of mental-physical equilibrium which he must have to win.

A highlight of the 1st day was 100/100 by Jim Ellis from West Australia, a very fine effort and it was a pity he could not maintain this standard for the rest of the event.

Steady shooting by J. Porter of Queensland resulted in a tie for 1st place with that old experienced shooter Peter Wray of Melbourne and it was only after a shoot-off which ran to 50 targets that Peter finally edged in front. We are going to hear a lot more of this young shooter from the land of the pineapples.

The ISU Skeet elimination brought forth young John Summers Junior of Melbourne as an up and coming Skeet shooter of international standard and he finished up with the highest score of 283:300 for the whole event. Mark Little, also of Melbourne, shot well to come into second place.

Finally, those who may be interested to compete in the future should remember that shooting 300 targets over three days is both physically and mentally exhausting and the fittest man in both departments will be the winner.

31st January and February 1 and 2*

# Beretta 58

the newest in a range you already know hits the right spot (and clays!)

Beretta introduces its brand-new 58 — with all the durability and performance characteristics you already know to be a Beretta trademark—plus new features to make it an even better Beretta!

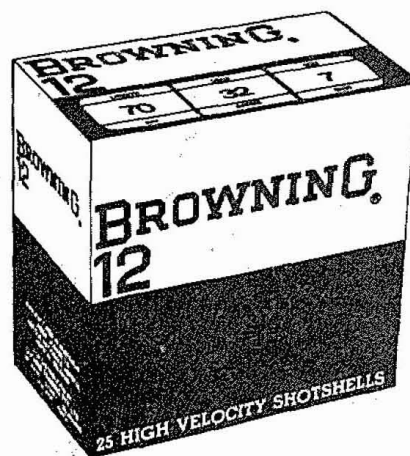

- \* Re-designed medium-wide ventilated rib, coupled with heavier barrels.
- \* New stock design along the lines of Beretta's world-championship winning gun. Proving again that, in the long run, you're better off with Beretta.

GET THE FEEL OF A NEW 58. SEE HOW IN THE LONG RUN, YOU'RE BETTER OFF WITH A BERETTA.

## a new colour for the Nationals!

At the National Championships in Perth this year, you'll see a new colour in the shot-shell line-up. Dominated by the blues and the boys from the wild west, for some time, the Nationals are now going to see the purples . . . Browning's new range of top-performing shotshells.

Now officially ACTA-recognised . . . you're going to see a lot of **BROWNING**

get a load of the purples!

Warracknabeal Gun Club wishes to express thanks to Ron Newell, donor of the Winchester Auto, and Ken Baldock, for the donation of trophies for the Championship. This shoot marred by wind and rain and 4½ inches of rain during the month made conditions very bad, however, 85 shooters braved the conditions and turned up. Only 7 possibles shot in the Graded event and one in the Championship indicates the conditions.

# The new Franchi 520 gas operated auto... design, performance and value for money-probably one of the best I've ever seen.

**Pat Browne**  
Leading Australian  
shotgun expert.

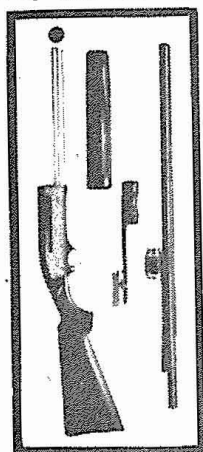

## Let's look over this gas operated auto and see why it's so good.

First impressions are important with any gun and the Franchi 520 really does have a nice feel about it—trim, well balanced and easy to operate. It just seemed to fit so nicely and I shot particularly well with it. When you try it you'll probably shoot well with it too.

The gun itself is made by Luigi Franchi S.P.A. who have been making shotguns almost since Michelangelo was a boy. And, probably the thing I like most is its simplicity.

**Easy take down.** One of the troubles with most auto shotguns is that there are too many working parts—you get bits and pieces everywhere. But, not so with the Franchi 520. Because of Franchi engineering and design improvements they have produced a gun that breaks down quickly and easily into four simple components.

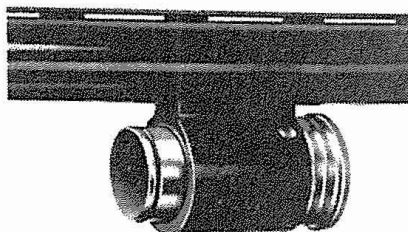

*The Franchi 520 is made up of four main units. Stock and action. Barrel Breech bolt and cocking rod. Fore end. No tools are required.*

Now, imagine if you were out in a swamp and had to do a quick field strip. Well with the Franchi it's so easy and you don't have the worry of losing small parts.

**Reliability.** Well, I couldn't fault it. You see with the basic four piece construction, some very clever designing and excellent engineering there's no complicated mechanisms. So, good solid reliability is built in right from the start.

You know Franchi have got their engineering down to such a fine art

that their mechanism can stand the test of going through a complete firing and reloading cycle in less than 1/120 thousandth of a second! Phew. Proof enough of excellence in design?

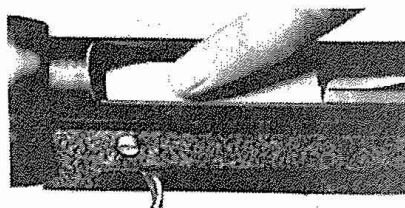

*Such is the precision of Franchi machinery that perfect seals are achieved without gaskets!*

And, because it goes through the cycle so quickly you don't get that annoying noise and vibration of the mechanical processes associated with the firing of many of the long recoil autos when fired.

**Tamed recoil and interchangeable cartridges.** All gas operated autos offer this pleasant advantage of reduced recoil. And, they eliminate the tiresome adjustments that you have to make with LR autos when changing from one power shell to another. You'll bless this handy feature.

**Easy and convenient reload system.** If you're out in the field and have fired a couple of shots and then see some more ducks coming it's nice to know you can load more shells very quickly and very easily by simply pushing them into the magazine. There's none of that tiresome business of juggling with the shell lifter release buttons. In fact you could literally reload without looking.

*The floating lifter that makes loading so much easier. Note the simple "one finger" operation.*

**Low profile rib.** To help disperse the heat there's a vent rib. As well as giving a good sighting plane its low profile helps eliminate that annoying snagging, that can occur in the field, if the rib stands too high.

**Price.** To my mind one of the most attractive things about Franchi is the perfectly ordinary price. The recommended retail price is around the \$370 mark and taking into account the rather clever design features and first class finish I think it can only be described as really great value.

Why don't you have a look over a Franchi 520. I think you'll be pleasantly surprised—just like me.

**Back up service.** Franchi shotguns are distributed throughout Australia by IMI Australia Ltd., one of the biggest firearms and ammunition people in the country. And, IMI and their associates have been in the business for about 100 years now—someone good and solid to turn to on service and spares.

ALL MODELS HAVE  
COIL HAMMER AND  
TOP LEVER SPRINGS

A Miroku shotgun will become one of your most prized possessions. It will serve you, your children and their children very well. What better investment can you make?

### Why use a broad rib model?

Longer and level sighting plane stops head lifting and the heavier barrels keep you swinging—cures "gun stopping". Heavier weight reduces recoil and flinching. Broad rib stops miraging. Forward weight balance stops you jumping gun under pressure, gives you a steadier second barrel. Since 1893, Miroku has been producing quality shotguns for countless sportsmen throughout the world. Although modern technology has greatly improved methods of production, it has not replaced the skilled craftsmen so vital in the manufacturing of quality shotguns.

Happiest/sorriest man on the grounds was Brian Bell of Cairns, the only person to shoot 50 in the \$1,000 H'cap; who did not have himself in the Calcutta which was worth \$1,315; much to the pleasure of L. Falco and L. Papulin from Burdekin who bought him for \$10. Congratulations to J. Casalegno and G. Blackman — first 100 breaks on Cairns ground. The 26" color TV sponsored by MLC was not won. Attendance of shooters from Alice Springs, Burdekin, Brisbane, Charters Towers, Cairns, Lae, Mackay, Port Denison, Port Moresby, Mount Isa, Rabaul, Ravenshoe, Richmond, Sydney, Silkwood, Townsville, Tolga, Geelong and Winton made a great day for all. Special thanks to Tolga and Silkwood for the use of

their traps and also to Townsville who brought a spare in case of breakdown. Official opening was performed by Mr Brian Lowry of Winchester Aust.

commencing 12.30

OPEN HANDICAP SHOOT

Valued at over \$100

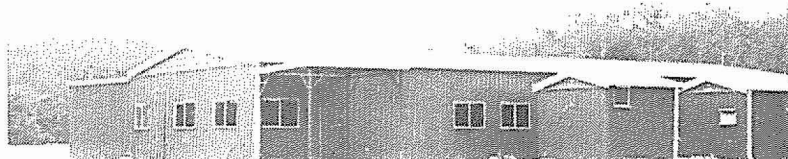

Front view of new clubhouse 100 feet by 60 feet built at a cost of \$25,000.

## New Gold Coast Gun Club (Queensland)

Location: 13 miles from Southport on the Gold Coast Highway at Gimpania. (Halfway between Tweed Heads and Brisbane).

10,000 gallon dam. Our own water in addition to rain-water from the roof into a concrete tank.

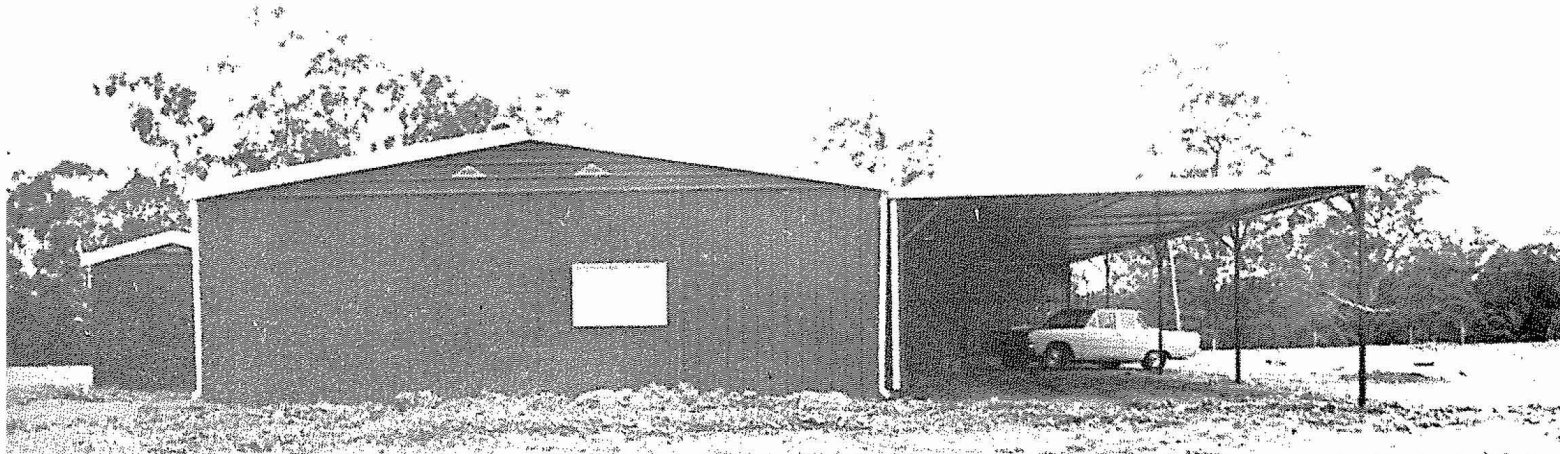

Rear view showing the two toilets.

As the club faces south-west, this is looking north-east showing the filling where all the traps and traphouses will be erected. Centre foreground is where power house is being built with all power cables underground and enough parking space to accommodate 500 cars. The land is Commonwealth property and the club should be operating end February, 1976.

End-on view showing the big verandah.

# BIG NEWS for the reloader

... Now you can buy  
**Winchester-Western Ball Powder®**  
for nearly all handloading requirements

The Ball Powder we use in our own factory-loaded ammunition is now available from your components dealer ... in a variety of types that will make it possible to reproduce factory load ballistics and achieve other performance criteria.

As the leading ammunition manufacturer selling its own powder to reloaders, we have long felt an obligation to provide nearly everything the reloader might want in Ball Powder as well as other components. The dream became a reality when our new Ball Powder plant, the most advanced in the world, went on stream at St. Marks, Florida. Now you can buy many of the excellent powders used by Winchester.

**Color Coding:** To help the reloader spot the Ball Powder type he wants for a particular load, each of our new types will have a separate and distinct color on the label.

**Ball Powder** is a superior smokeless propellant that meters evenly, packs properly and burns cleanly for controlled ignition, progressive burning and fast barrel times with highly uniform ballistics. It's smooth, rounded grains, carefully graphited, flow smoothly and easily through powder measures, resulting in precise charges that settle uniformly in the case.

### 4 new types\*

**452AA** for 12 gauge, trap, skeet and field loads. The powder used in our 12 gauge AA target loads. (Replaces type 1450LS.) Available in 1 lb canisters, 3 lb quarter kegs, 6 lb drums and 10 lb kegs.

**473AA** for 12 and 20 gauge skeet and field, the same powder we use in our 20 gauge AA. Ideal for heavier 12 gauge loads. (Replaces 1500 HS). Available in 1 lb canisters, 3 lb quarter kegs, 6 lb drums and 10 lb kegs.

**571** for 12 gauge magnum shotshells. Will also give superior performance in 20 gauge shells. 1 lb canisters, 3 lb quarter kegs.

**296** for 410 bore, magnum pistol and 30 caliber carbine. The powder used for these applications in our factory loads. In magnum pistol cartridges, it requires heavy bullets and heavy crimps. 1 lb canisters, 3 lb quarter kegs.

### 6 improved types\*

**540** for heavy shot charges in 12 and 20 gauge. A really excellent performer. Higher density permits easier crimping of heavy loads, 3 lb quarter kegs, 8 lb drums, 12 lb kegs.

**231** for target and standard velocity handgun loads. A very fast, high energy performer used in many factory loads. Available in 1 lb canisters, 3 lb quarter kegs.

**630** for high velocities with standard weight bullets. A moderately slow but very high energy pistol powder. Ideal for a variety of handgun calibers, and some rifle loads such as 45/70 and 30M1 carbine. Available only in 1 lb canisters.

**680** for small rifle cases. A very fast powder for small capacity rifle cases such as the 22 Hornet and 256 Winchester. 1 lb canisters.

**748** for centrefire rifle. Excellent for a variety of cartridges including 222 Remington and 458 Winchester Magnum. Popular with bench rest shooters. 1 lb canisters.

**760** for medium to large cartridges. Broad range of proven applications in medium to large calibers and cases. 1 lb canisters.
