WIN MUCH MORE WITH
MIROKU
6000

**High Rib and
Split Barrels**

MODEL 6000
TRAP
GRADE 1

\$995

... give you a
**winning
advantage**

High floating rib is the latest technological advance towards higher scoring. The 6000 TRAP gives you a superior sight picture because the raised rib keeps your head erect and your eyes naturally centred. The greater comfort means better concentration, which makes targets easier to pick up and break.

In the heat of a shoot off the 6000's raised rib expands independently of the barrels and your point of aim is not altered by expansion.

**Many top U.S.A. shooters have changed to
high or very high ribs for these well
proven advantages.**

MIROKU 6000 TRAP GRADE 111 **\$1350**

MIROKU 6000 TRAP GRADE V **\$1750**

FRONT COVER

Darwin Gun Club, all is in readiness for the popular four day
shoot at the end of July.

Contributions:

Club or shooter contributions are welcome, either
manuscript or photographs, or both.

EXECUTIVE DIRECTORS NOTES

The World Moving Target Championships have just concluded in Edmonton, Canada. Australia was represented by Ian Hale, Alex Crikis and Brian Thomson in Skeet, with Jim Ellis, Graeme Boyd and John Maxwell Trap.

Scores were lower than for some years, mainly due to the atrocious conditions which applied right through the Championships. Torrential rain, low temperatures and 80 km/h winds made good scoring difficult.

Hale and Thomson shot 186 with Crikis one target behind in the Skeet, the team finished in 8th place. Matt Dryke USA won the Gold Medal with 195.

In Olympic Trap, Jim Ellis was the high scoring Australian on 181 to finish in 9th place. John Maxwell shot 176 for 14th and Graeme Boyd 18th with 175. They did very well to win the bronze medal in the teams event. John Primrose of Canada took the Gold medal with 188. A full report will appear in next month's CTSN.

★ ★ ★

Thank you to the many people who heard my plea for material for CTSN. We have been flooded with stories and photographs from all States in recent weeks, which all adds up to a representative coverage of Clay Target shooting around Australia.

★ ★ ★

Planning for the 1984 Trap Nationals in Wagga is well advanced. The Organising Committee met in Wagga recently, and big improvements are underway at the club. The local council is backing the Nationals with a lot of assistance, and it is clear that the city of Wagga is keen to see a successful series in 1984. As Wagga is the centre of a large shooting population, let's all hope that the numbers attending are way up on Adelaide and Brisbane.

Enjoy your shooting,
IAN C. HILL.

PROFILE — DON MILLEN ONETIME DARWIN GUN CLUB MEMBER

J. D.

Five years ago, one of the Darwin Gun Club's most active Committee members was Don Millen.

Don was five feet two in high heels, eight stone with full gumboots, and with such frenetic activity that he was privately and publicly termed 'the Angry Ant'.

He shot an old Browning over the under, with reloads that attested to both the Browning's and his durability, and was rarely seen without a white can in his moments of activity or relaxation.

His favorite trick at Committee meetings was to wait throughout the meeting, scathingly commenting on other member's proposals until we were heartily tired of his interruptions. Then, the President would thankfully conclude: Well, if there's no further business, I'll dec . . . and the Angry Ants voice would drift through our preparations to leave with, 'Yeah, now that all you blokes have had a say, there's a few things I'd like to bring up', and the meeting would continue into the small hours, with all of us only half interested in Don's grand schemes.

Don's schemes were frequently howled down by other members, but there was no doubting his sincerity, or his vision.

It was he who singlehandedly dragged the Club from Sweepstake obscurity to having local business houses donate either first place trophy, or, in many cases all the trophies for the day's shoot.

A quiet few beers at the bar would result in some unsuspecting businessman being taken for a 'few shots at the Club' and at the conclusion of the shooting, somehow being smooth-talked into providing fifty or a hundred dollars for a 'few trophies to publicise your place.' In 1978 and 1979, we actually had spare trophies left over.

Years before we actually started to do anything concrete (pun not intended), Don had advocated that the Club expand its activities, and, as the land we were on was to be resumed by Council and Government, apply for a larger acreage, preferably in the Northern Suburbs. Well, we actually did put in another trap and skeet layout during Don's term, but, in retrospect, I think that our Marrara complex, now two years old, is a tribute to Don's vision.

He wanted expansion for another reason; he reckoned that Darwin could put on a shoot that would really attract Southern shooters. His ideas were to get away from the 'normal shoot that you have everywhere, and put on something unusual that visitors would remember' . . . and so we had 5 targets Indian file shoot-offs' Black targets at night on an unilluminated layout (top score, after bitter complaints, 29/30 from 10 targets points score); and hosts of other 'nonsense' events inspired by him.

He first proposed that all Clubs in the Territory submit an annual program so that we could all be aware of major shoots and avoid conflicting dates. He would have been delighted with the formation of the NTCTA, but would also have agitated for more action from it as soon as it was formed.

His favorite scheme was to get all shooting bodies in the Darwin area to better understand each other's sports, and at one apres-midnight meeting, actually conned us into letting him attempt to organise it. Thus was born the first "Three-

Way" shoot, 20 targets double barrel at the Gun Club, 600 yards big-bore and also small bore at the Rifle Club, and a 40 round match at the German Club shooting Air Rifle offhand at 10 metres at match-head targets. He was rebuffed at the Pistol Club the first two years, as he attempted to converge on their range with the ubiquitous 'white can in the stubby holder'. When advised officiously that 'Alcohol is not permitted until shooting ceases anywhere on the grounds', he deposited it in his panel van and came back to try again. No one was interested, even after letters following up his attempt, so he lost interest in their participation.

Gradually, the Pistol Club noticed that the Black Power Pistol Club had entered into the spirit of association, and they finally made the shoot a 'Five-Way' affair. The Archery Club were never particularly interested, either, but this year, the Top End Bowhunters participated, entering three teams, including the first all-ladies team.

The Top End Gun Club next year plans a 'Field and Game Day', so our humble Three-Way Shoot has climbed to a Seven-Way event, and, who knows, maybe the Practical Pistol Shooters might want to try to make it an eight way contest.

Sadly, Don has been gone from Darwin for a few years now, and probably does not know of the growth and popularity of most of his schemes, I'm sure that most of us who remember him would enjoy to be at one meeting or another one of these nights, bored to tears, with the President droning 'No further business, I'll dec . . .', and hear that familiar, almost legendary refrain, 'Yeah, now that all you blokes have had a say, there's a few things I'd like to bring up.'

You know, I don't think we'd mind if the meeting went all night!

The philosophy of Air New Zealand in respect to its Economy Class passengers has always been clear: offer them a standard of service and comfort that is unsurpassed by any other airline.

From the moment you receive a warm welcome aboard, it is evident that our cabin staff genuinely value you choosing to fly Air New Zealand.

You'll be shown to a reclining seat that has its own stereo entertainment centre with a variety of programmes ranging from humour to the classics. (You'll be pleased to hear we make no charge for our head-sets.)

After take-off we will whet your appetite with pre-dinner drinks that will be prepared to your taste at your table.

Your meal will be accompanied by the finest New Zealand wines, many of them winners of international awards.

And like all our drinks, whether they be cocktails, beers or champagnes, they're all on the house.

For our little guests we provide playpacks to keep them entertained.

While in our rest rooms you'll find we've provided after-shave, cologne, splash-on, moisturiser and hand cream.

There are also individual refresher towels, shoe-shiners and if you've forgotten your toothbrush and toothpaste, or for that matter even your razor, all you need do is ask.

And if you're flying with us over the Pacific you'll see movies so new, chances are they're probably not yet playing back home.

So as you can see, although we call our Economy Class, Economy Class, no one could possibly call it Second Class.

How to fly economy without going second class.

Prize winning wines are the norm on Air New Zealand.

A typical meal: Tender roast chicken with a Marsellaise sauce, accompanied by the freshest of vegetables.

The dessert of the day: delicious Mango souffle topped with fresh cream.

Our salads are always crisp and tossed in an authentic French dressing.

No plastic please! Your meal is served on deep brown earthenware along with shining stainless steel cutlery.

SHOOTING SHORTS

By Roger Darwon

WIT CAN BE A GOOD ANTIDOTE TO AN ANTICLIMAX!!

When one travels the world in the shooting business, you meet lots of interesting and amusing people. Shooters in general (although we do have the odd exception) are in the main quite jovial in their manner, and the way other countrymen go out of their way, to make you feel welcome. The style of American humour or the British when compared to say your own . . . all have their particular individuality which I guess, is what makes the world go round. Although I have found that while each nationality may have their own style, when you take a good look at it, shooter's are much the same the world over. While I'm in an ambiguous-mood this month, I thought why not start the column off with a good ANTIDOTE, and end it with an ANTICLIMAX. The following 10 pointers, from what may be termed Murphy's Law of Clay Busting, are by the English Clay target shooter John Payne . . . lets see if it compares with your experiences!!

1. "After driving half-way across the country, you will arrive at the ground five minutes after entries close — thanks to an overturned truck on the F4 or a herd of cattle standing on the roadway.
2. According to the organisers, local newspapers and the shooting press (with one notable exception) always publish the wrong date, time or venue. According to the press, it's the organisers fault.
3. When arriving early to shoot (after getting up at 5 am), only two people will be on hand for trapping and scoring. Consequently only one trap — or stand can operate, and 45 further competitors will arrive, thus ensuring that the shoot will be an all day affair for you.
4. On the day you forget your ear defenders, the only cartridges available on the ground will be extremely noisy and probably Russian.

5. If using an automatic-self-loader, the cartridges on sale will jam the gun at every conceivable opportunity. Even better, the dead-primer will become detached from the fired case, and lodge itself in the most inaccessible part of the mechanism.
6. Having missed 9 out of 10 targets on one stand or trap, you will be followed by an 11 year-old-kid, with a twenty gauge; who will annihilate all 10 with consummate ease and no chippy kills-or wins.
7. After shooting all targets on two or three stands and with thoughts of a "possible" in mind, (another fatal mistake) one or more of the following will occur on the next layout:
 - (1) The trapper will stop the shoot and ask for more targets.
 - (11) You will suffer 9 no-birds in a row, and run out of cartridges.
 - (111) You will strike into a batch of cartridges with primers that would take a drill to penetrate, and the . . . will it — won't it tension this now creates, will cause you to lose three-targets.
8. Having dropped only one clay or "bird" on a layout which has AA class shots moaning and groaning over ruined score-cards, you will then come to grief on the competitions simplest target.
9. Whilst an admirer is clucking-appreciately over your gun and trying a couple of practice swings (highly-irregular), you in the meantime will be called to shoot. As the fool has very thoughtfully engaged the safety catch for you, the first pair of birds will be "Lost".
10. The quality of the targets presented will be inversely in proportion, to the complete other 9 pointers mentioned above, which as a keen student of Murphy, I can assure you one should have stayed in bed anyway!!"

TOO MUCH: TRAVELLED SHIELDS, RESURFACE!

The Sydney Clay Target Club, on the Heathcote Road Menai NSW has according to its hardworking secretary Allan Moore found itself in the host situation, for two SHIELD shoots, come Saturday, 3rd September 1983. The two shields to be shot that day are their own "The City Of Sydney-Shield" and also on the same day "The Ampol Shield". Quite a number of gunners from back down the track a bit, would well remember both these exciting TEAM shoots which used to be conducted by FIVE man teams from clubs throughout New South Wales, as each tried with vim and vigour to out shoot the other for the everlasting honour of putting the five names on the silver shield dotted around the main structure, heralding for all to see, that the magnificent FIVE would be well recorded for POSTERITY.

However through the passage of time, both had somehow become "lost", or put away for safe keeping, or through a multitude of reasons, some we can't explain, just did not see the light of day again.

Now that these two HISTORIC shields have re-surfaced, it looks like the days of big competition may be on the way back, around the traps of New South Wales. Lets hope so, because this scribe has enjoyed the company of many a FIVE man

team, that were helpful in putting not only my name on many such Shooting shields, but those of some of the all time top shots around the state of NSW.

Lastly, if nothing else it gives the younger-brigade, who have joined the ranks of Clay Busting over the last few years, a chance to take part in what clay busting was, and should be all about TEAM WORK, (no pun intended). Get your act together boys, the action takes place on the THIRD-OF-SEPTEMBER 1983 at the Sydney Clay Target Club. Oh, and don't forget . . . bring your four best shooting mates with you if you wish to get a part of the ACTION. See you there friends.

ECHOES FROM THE PAST: IN MORE WAYS THAN ONE:

Transition detonators; (as one system tumbled one over another) with invention after invention: Flintlock guns were the standard firearm until 1806 when a Scottish Presbyterian minister, The Reverend Alexander Forsyth, applied one of the new developments in chemistry, DETONATING POWDERS, to firearms. The then new powders exploded when they were hit with a hammer. This thrust man closer to the day when he would soon be able to have ready made cartridges, by being another transitional advance on the spark-producing flint or pyrites . . . which were made obsolete by Forsyth new advanced ideas. For several years after the shooting Reverend's application, many mechanical devices were invented and built to hold the powers, for some twenty years to about 1826. All of them are collector's pieces today. On his first system, Forsyth used a metal bottle on a pivot, which spilled out a little of primer powder when it was so tipped.

Other transitional detonating systems included pills made of gun powder and pill holders, to hold the pills while they were being hit by the guns hammer. These pellets which were magazine-fed onto an anvil, and there were little copper tubes, like straws, which were fed into the touch hole and exploded by squeezing the tube.

The Forsyth transitional five barrel gun, was the first "detonator" to use percussion powders. This Forsyth-patent, used a scent-shaped bottle-made of metal, as the arms primer mechanism, by releasing a small quantity of percussion-powder when it was rotated. Circa 1826:

"THE PLOT THICKENS!!"

A very small minority of shotgunners, who have passed some expression, or opinion, both verbal or in some written-form, over the past few months regarding the contents, of SOME PARAGRAPHS (which by the way is derived from the Greek word — paragraphos . . . meaning, a marginal-stroke) of this column "Shooting Shorts", appear to this writer, and many others, to be somewhat shallow or irrational in their offered criticisms, of what "Shooting Shorts" in fact represents and means!!! Also, as I have said before (see April issue page 8). If you have a VALID-POINT which you feel justifies criticism; PLEASE-DO. But I did suggest: (ONE) Get your facts right: (TWO) Present them with conviction (THREE) Don't go off half cocked: Perhaps I should have said, use some form of acceptable etiquette: IF AND WHEN YOU DO.

Next; Some seem to think this column is some long-awaited "voice" for NSW shooters. But here again, sorry to say this is not so.

C.T.S. NEWS (and this column, which is but one small section of this magazine) covers a sport, which is conducted on a National basis. On my last count, we have 8 States & Territories where clay target shooting is conducted. Therefore as you would expect, the contents (of this column) and the magazine are conducted on a NATIONAL BASIS.

The title of this column "Shooting Shorts", is self explanatory, (meaning short snippets on any subject matter to do with the sport) ie; The contestants, equipment, the sad, the funny, the problems encountered or whatever it's "Author" deems or sees as "Newsworthy".

You will note, each paragraph has it's own heading, in CAPITAL LETTERS. By and large you will find each paragraph (in most cases) is not related to the next.

One lone "commentator" (who confused me with the Evolutionist-DARWIN who I'm told was also provocative, engaging and expressive) went on to echo his idea (the critic that is): "Perhaps the Editor of the NEWS could save the cost of printing (Shooting-Shorts) etc etc!! "Unquote. That my good friend, would suit Roger's-Darwonisms, just fine, because at the moment, with the COLUMN, TESTIMONIALS, PICTURE TRIBUTES DEVELOPED AND WRITTEN, not to mention other sundries and ongoing expenses, and state and interstate phone calls re information flow, I can assure you it's costing me HEAPS!!! This same "Reviewer" of my products, the visual and the written word, failed to notice two very important things: (ONE) It took him near on half a page of "valuable" type to tell us in the main, something I had already told him!!! (TWO) That perhaps he will be more productive in the future by telling our readers and myself, something we don't know??

Lastly, if I can be so bold, it is hoped, more will come forth with the many constructive and rational ideas and assistance to make not only CTS NEWS, but our sport progress towards the year 2000 with advanced vitality, instead of becoming, stagnated, uninteresting and OBSOLETE! Bilaterally speaking, at all times of course.

THE LOSS OF GREAT MATES:

The loss of a close mate, is bad enough, the loss of a great close mate is catastrophic. So far this year I, and WE have seen the passing of far too many such members from within our ranks. Some of these men who gave so much of themselves to all of us, will never be matched in their personal ability, effort and devotion to the clay target sports.

I could not even guess how long it will take to even go close in filling not only the gaps they have left behind, but the personal guiding hand they so willingly offered to all who needed their help. This scribe somehow managed to present a eulogy of their passing, but some, I'm still trying to gather in pictures of, plus some assistance from over the vast distance of our country, in order that their former presence among us can be recorded in the pages of this journal one more time, as a visual tribute. I do however hope that their memory will not only be recorded here in CTS NEWS, but that their respective clubs will also make space in their respective club houses for a lasting testimonial of their passing and our loss.

One bard once passed the comment, "If it was not what is written in books or chiselled in stone or for that photographic

SHOOTING SHORTS Cont'd from page 8

image recorded, a man could well pass our way in the passage of tomorrow and the days to come, and no one at a future date would ever know he had been here!"

I'm sure I don't have to ask for help in this regard, it will be forthcoming . . . will it not??

THE NATURE OF OUR CONTRIBUTION:

Monotony, I am told, is the inevitable sign of unimaginative repetition, whether it be your daily job, sporting pastime or the complacency generated by your own lack of imagination. The significant thing to remember, should you find yourself in such a RUT, is that by the act of giving, instead of being the "taker", you will earn not only your own-self esteem, but a happy awareness will become apparent that you too are part of the team that makes your club function, with such willing work assemblage offered and given.

The sport of clay target shooting, at club, State and National level, is based in the main on a lot of "giving" by the same people year in, year out. Most of these individuals who offer their unselfish donations, in one form or another, from PRIZES, IDEAS, LABOUR & TIME and their continued effort, do so with not one thought of being in that small queue of people that can be classified as the "TAKERS". Just how small or large that "queue" is I will let you decide yourself.

Ever notice the joy that exudes from our band of GIVERS, when they come first, second or third in everything from competition, to winning a club raffle, and how everyone slaps their back or shakes their hand. YES, it's a great feeling to be a WINNER, everyone loves a winner. Unfortunately, not all can stand the VICTORY DAIS.

But without a doubt the GIVERS of our sport reach that realm of unselfishness and limitless expression, that takes them time and time again beyond the winners adventure and reward. IN SIMPLE TERMS . . . without them there would be NO WINNERS!!

YOU HAVE TO WAKE UP EARLY TO CATCH GEORGE

My proficient mate, master of the smooth bore, George Biggs, was sitting on his front gate early one morning, when an American visiting VIP tourist pulled up in his swank fully imported Cadillac.

"This here your property, old buddy?" he asked our much travelled clay buster.

"That it is Sir", replied the ever polite Victorian Coaching master. "How big is it?" asked our traveller from Uncle Sam Land.

"Two and a half acres, Sir, give or take a foot," replied George hold his favourite shooting cap in one hand, while he scratched his head with the other.

"Why", boasted the American. "Back home I can get up and into my car in the morning, drive round my ranch, and I don't get back until sundown!!"

"Yes Sir", replied George, as he adjusted his peaked cap to satisfaction back on his head. "I used to have a car like that myself a few years ago, until I got rid of it."

LEFT-WING . . . FACT OR FANTASY!!!

It has been my observation, over the last few years to notice a new "political" opponent appear on the horizon, as if we don't have enough already. This menacing leviathan of

unknown origin, is referred to by all and sundry as "our-left-wing".

This left wing element, it would appear, knows no PARTY LINE; ie, it can belong to any political persuasion, it can reappear, disappear and then surface once again at all manner of times and places. This thinly defined methodically organised division of one party or another is used as the scapegoat for the elite, who use it with gay abandon, any time they're backed into a corner, from which there is no honest retreat.

When this happens the terminology goes something like this: "We agree with your ideals and conceptions and have no hesitation whatsoever about their ongoing value, BUT . . . we can't control our POWERFUL LEFT WING, in which case you will excuse us if we can't keep our electioneering-promises." Unquote.

For this writers 20 Cents worth, it's time we stood back and had a long hard-look at all and sundry who proffer us with political double talk or fancy phraseology, only to make an uncommitted unethical exit via the "LEFT-WING!!!"

THE CASE OF THE EXTINCT SPECIES!!!

Visiting various gun clubs of late, your author of "Shooting Shorts", gets a distinct feeling there is an apparent absence of that rather rare species, "the letters to the Editor CRITIC", (scientific name — "gallopo'-exister-vanquished"), which is in fact a rare sub-tropical, android of Homo-Sapien. Calling at one club the other week, all I could detect of these rare mortals, was a few puffs of dust evaporating in the thin air, beside the clubhouse wall.

Now to be honest, it's not fair when Roger D. has to try and unleash "both barrels" in an attempt to take them on the rise, as they dash across the river and into the trees. Mainly because, the way I was schooled in the finer points of sporting and shooting etiquette, **you-never-but-never** shoot at the other fellows "bird". (See page 59, June issue S. Lewis and J. C. Lilwall) who so fervently, without giving **your scribe** any chance to shoulder his Purdey-double; shot both my "birds" as they crossed from left to right, or right to left, or whatever; **right in front of my very eyes**. Not very British at all, what!

So, before both these gentlemen of the shotgunning-persuasion are ever allowed to un-cork their whisky flasks, unleash their springer spaniels . . . or ever shoulder the London-doubles at "pheasants-nest" again, please but please, be warned gentlemen, **NO SHOOTING SITTING DUCKS!** Leastwise that's what Donald J. Fleetwood always insists, especially if you own a Purdey-double, with two sets of **barrells!!!**

A MENTION IN DESPATCHES

It's good to see my old mate **Sahib Major-Mr Ted Patterson Esq** come driving out of the big country into the light of day again (see page 10 July-news) for the younger-brigade still humming along the asphalt highways, Big "Uncle" Ted has been up more dead-end lanes, deep river crossings and through more two-foot potholes than all the trap shooters of Australia put together. Would be one of the best "skeet" shooters who ever shot down the line, Peats Ridge, or any other mountain top. We need you Ted, oh how we need you Pal. Please trade the Valiant in, and get the old gun out and at em' again . . . real soon. As we are both "ROADS" scholars old son, don't worry about your orthography, it's OK. Oh by the way bring Adrian Hayes with you when you come.

A wise elderly, once told me when the going gets tough, just walk slow and smell the flowers . . . see you next month:

AROUND THE TRAPS

LAURIE CONNORS

Sunday June 5, 1983. The North West Zone conducted a General Meeting of clubs at the Kerang Gun Club. Purpose of the meeting was to compile 1984 shoot dates for the Victorian program booklet. The opportunity was also taken to discuss the progress of the sport in general throughout the Zone. Although it was reported, clubs were feeling the economic squeeze, with lower attendances than normal, at their club shoots, major clubs in the Zone, showed no indication of curtailing their 1984 activity. Club Secretaries were also requested to survey why shooters did not re-register with their clubs for 1983, and report their findings to the next Zone Annual General meeting to be held in August, 1983.

The ACTA loses approximately 2000 shooters each year. If all, or some of these registered shooters could be held, our total numbers would double over the next five years. At the shoot that followed the meeting, Curly Mills from Swan Hill won the Zone Double Rise Tower Championship, with Bob

• Winners at Kerang Gun Club, L. to R.: Curly Mills, Brett Dunstan and Bob Fowler.

Fowler from Cohuna taking the Club Single Barrel titles. Twelve-year-old Brett Dunstan from Kerang is well out of the novice class and winning his share of junior and grade trophies. At this shoot, Brett claimed the "C" grade sash.

Tuesday June 7, 1983. The organising committee of the first ever Skeet Nationals to be hosted by Victoria, met at the Melbourne Gun Club. The purpose of the meeting was to set up the program and formula, for the running of the venue. When completed, all will be forwarded to the full Executive for ratification. The Championships will be held at Melbourne Gun Club from Wednesday, November 16 to Saturday November 19, 1983. Four, 50 target and two 100 target events will be contested, making a total of 400 targets available for the Skeet enthusiasts. The National and Commonwealth titles, both consisting of 100 targets, will be the major events on the program. The organisers will be looking for full support by skeet shooters from all over Australia, to make the first ever Skeet Nationals a great success.

Saturday June 11 to Monday June 13, 1983. Katherine Gun Club, in the Northern Territory, hosted the first ever DTL Trap Carnival held in that State. Ladies, juniors and open State postal teams were selected during the shoot. Honors for State titles were contested by the top shots in the State. The host club provided excellent back-up facilities by way of meals and entertainment for all. The Territory's colorful character "Slug" was there sporting a Browning Auto. Slug claimed,

• Winners of State Titles at Northern Territory Carnival. L. to R.: Nev Seis, Double Barrel; Kevin Bowring, Single Barrel; Tony Hare, Point Score; and Col Joye, State Handicap.

using his 3 3/4 load, the gun had the "reach of a sick dog" and had been known to wound a buffalo at 200 yards. Slug asked me if I would like to proof test his gun, and shells. He guaranteed, if I was to shoot the gun, standing up, it would lie me down. Should I shoot it lying down, it would stand me up. I took his word for it! It is a casual life in the North. A story has it, Kay, one of Katherine's keen lady shooters, was nearing the stage of motherhood. Half-way through the round of skeet, Kay had to leave for hospital. The squad was delayed, and a short time later, Kay returned with a beautiful bouncing baby boy named "Newton", and finished the round. Kay registered her babe and entered him in the event. Club administrators would not let him compete, using the argument, his handicap card had not been processed by the ACTA! Shooting got under way, with competitors vying for the honor to be first to have their name listed on the perpetual trophies, made available for individual titles. The first shooter to achieve this honor was none other than Territory Executive member, State Secretary and hard worker for the North, Nev Seis. Nev was the only shooter to chalk up a possible 50-50 in the double barrel and won the event outright. Darwin shooter, Kevin Bowring shot 49-50 to take the single barrel honors. Tony Hare shot a 146-150 to win the Point Score Title. Another Katherine shooter, Col Joye, known as the "Pink Panther", captured the State Handicap event. A Calcutta was run on this event, and Col showed confidence in his ability, by buying himself at the auction of shooters the night before. Junior High Gun honors went to Andrew Noble, with Mary Stacey taking the Ladies High Gun. Col Smith from Darwin recorded 284-300 over the program to take out the overall High Gun. Should a shooter happen to put a charge into a trap house, at this club, it carries a penalty of a carton of stubbies. To the delight and cheers of shooters, both Bob Noble and Greg Chan found themselves shouting for all and sundry at

• Popular shooting family from Katherine, Mary, Glen & Len Stacey. All had success at the State Carnival.

• Judy Fetter from McArthur River, nurses baby Wendy while waiting for the Ladies Team Shoot. Judy's gun was a Mother's Day gift from husband Len and young son.

the bar, at the end of the tournament. All in attendance declared the Carnival a great success, with some \$1500 to \$2000 being raised for the Northern Territory State Association, from the venue. A meeting of club delegates held during this shoot, approved of, and recommended the State Carnival be held at Alice Springs Gun Club in 1984, over the same weekend.

Saturday June 18, 1983. South Australian Gun Club were shooting 100 Olympic Trap and 100 American Skeet target events. Bob Dwyer outlasted Ray Kimber in a shoot off to win the honors in the Skeet. Dino Oliviero had little trouble in winning the Trench honors.

Sunday June 19, 1983. International Gun Club had 50 shooters attend their monthly shoot. Dino Oliviero again showed his prowess at trench shooting, by taking out the trench championship with 24-25, he actually won a double by winning the DTL Championship also. I teamed with Ron Wimshurst, and we won the City of Adelaide Deauville Double Championship on the program. A barbecue tea followed, creating an excellent social atmosphere, to end a great day of shooting organised by this club.

Saturday June 25, 1983. I was invited to attend the Maryborough Grand Prix by club President, Jim Shepherd. It is regarded as a top annual event in this area and 95 shooters registered for the competition. The City of Maryborough

• Ron Wimshurst on left, teamed up with Laurie Connors to win the Deauville Doubles. They are pictured with Dino Oliviero, winner of the Double Barrel and Olympic Trap events on the program.

Point Score Championship went to Reg Walker. The Maryborough Grand Prix went to Bob Andrews, Bordertown SA. Bob won the Niko Golden Eagle 5001 Skeet gun, and even though not a Skeet shooter, he now intends taking it up. A well known top shooter and administrator from this club, who sports a John Newcombe moustache, had lady luck on his side a couple of weeks before this shoot. His numbers came up in "Tattsлото" and he shared in the cash. His moustache is still twitching, showing his excitement of the win.

Sunday June 26, 1983. The old Gold mining town of Wedderburn attracted forty shooters to its afternoon program. Brian Rodwell shot 34-40 to win the Double Rise Championship, while John Fitzpatrick shot 34-34 and collected the sash and trophy for the Double Barrel Championship. Top junior went to Brett Dunstan from Kerang.

See you where there is Shooting.

LAURIE CONNORS.

• Bob Andrews from Bordertown, S.A., shows his wife the gun he won as first prize in the Maryborough Grand Prix.

TRADE TOPICS — MITCHELL CHOKES ARE FIRST RATE

Ross Williams is the Technical and Reloading Editor of the Australian Shooters' Journal and the former Shooting Editor of the old Australian Outdoors magazine.

He also writes a regular column, called "Firearms and Shooting", for the Weekly Times. This newspaper is available in most states.

The following review is adapted from the articles which were published in the Weekly Times on May 11 and May 18, 1983.

THE DEGREE of choke has an important influence on a shotgun's effectiveness at varying ranges. Therefore, whilst the "all-round shotgun" must always be a myth, an individual gun's uses can be extended by choke swapping.

How do we go about this? The least convenient, most expensive way is to buy extra barrels — assuming, of course, that they're available for the gun in question. The simplest way is to buy an outfit fitted with a variable choke or, more commonly, a set of interchangeable choke tubes. Winchester, Breda, Mossberg, Beretta, Perazzi, Smith & Wesson, Miroku, Browning and others all offer at least one model in this category.

But what if none of them suit you or your pocket? What if you do not want to purchase another gun?

You may then find yourself thinking about the possibility of fitting a similar choke-changing device to the gun you already own. Which is fine in theory. In practice, however, the installing of any kind of choke tube is never simple or straightforward. The task requires forethought and a fair degree of gunsmithing skill.

Back in 1978, I wrote a piece on that subject (Weekly Times, March 1st). The reason was that I was seeing more botched jobs than good ones . . . fine pieces ruined, poor patterns, guns no longer shooting where they used to, and shooters whose confidence had been shattered because they could not believe that the newly fitted choke tube (or tubes) was responsible for a fall in their performance. Although the numbers involved were not large — probably less than a dozen — the trend was plain and I felt I ought to warn others to tread more carefully. The things I said over five years ago still apply. Here's a brief summary.

If the unit is not made specifically for the gun, the job is fraught with problems. For example, a 12G gun nominally has a bore diameter of .729 ins. However, the real measurement varies. I've found some as small as .712 ins, others as large as .740 ins, with one a whopping .760. Among different models from the same maker, the variation can be .010 - .015 ins.

Thus chances are the diameter of the choke tube's inner end will not match the bore diameter at the point of contact, leaving an abrupt step. The gunsmith may remove the step by tapering the choke tube or the bore, at which point he may confront the problem of removing chrome — if he hasn't already run into that difficulty. But, be there a step or be there a taper, the choke tube and bore will remain mismatched. In these circumstances the choke tube will not deliver its designated pattern average.

Whether the diameters match or not, other factors must be taken into consideration.

Firstly, if the choke tube happens to be significantly thicker than the barrel, the sighting plane will be disturbed and will lower the point of impact.

Secondly, the alignment of choke tube axis and barrel axis must be exact. If the tube points to one side, the pattern centre will shift in that direction, for the shot string tends to follow the last 5 cm or so of the bore. Just a small fraction of a degree can move the pattern a handspan at 50 paces.

The third point is closely related. Many barrels, both cheap and expensive, have walls of varying thickness. In other words, the bore can be offset in relation to the barrel's outer surface. To avoid ruining the job on the inside, where it really matters, the choke tube must be concentric with the bore. Given eccentric barrel walls, therefore, the job may look inferior from the outside — people will say, "That choke tube is on crooked", even though it isn't.

Conversely, it is possible for an impressive external mating to go with a poor fit on the inside.

The alternative to fitting a stock item is to have something made especially for your gun. I repeat: **your** gun. The one you own. This approach won't bypass the difficulties mentioned above, but it will increase the likelihood of a satisfactory result. You will still be reliant on the gunsmith's skill, of course, but not so reliant on fluking a happy match between tube and bore diameters.

Now, there are several broad styles to choose from:

(1) The **screw-on**, typified commercially by the Cutts Compensator, Vari-Choke and Breda Quick-chokes; (2) The **slip-in**, typified commercially by the Beretta Mobilchokes; and (3) The **screw-in**, usually known as the Winchoke type.

Among the screw-on types, I am quite partial to anything which copies the Breda Quick-chokes.

The tighter Breda tubes are relatively long, which means that heavy field loads are apt to yield patterns more even than those thrown by the more abrupt type of 3/4 or fulltube. Moreover, I can see some benefit in the way the Breda system subtly alters the balance of the gun, so that it becomes a little more spirited with each substitution of a more open choke — and vice versa.

However, neither the screw-on nor the slip-in style is compatible with double barrels. That is the province of the Winchoke type. Also, many shooters prefer it when interchangeable chokes make **no** significant alteration to the sighting plane, the muzzle profile or the balance of the gun. And that, too, calls for the Winchoke approach.

Here comes the crunch. If you are talking about custom-made, custom-fitted, screw-in choke tubes, you are talking about gunsmithing of a very high order indeed, not prohibitively expensive, but calling for finesse and specialised knowledge. Few gunsmiths have what it takes. One of them resides in Victoria. His name? Bob Mitchell.

Bob has spent some \$3000 on developing his system, which I rate as superior to the factory types. Going on past observations, I would also want to argue that Mitchell chokes are currently the best available in the custom field.

A small number of clients have already had guns fitted with Mitchell chokes, or are having them fitted. As it is still too early to follow up their experiences, my comments from this point on are based on my evaluation of one of Bob's prototypes, fitted to an old SKB auto whose thin barrel walls really put Bob's system and workmanship to the test, and on the discussions I've had with him. Certain technical details have been withheld because Bob has asked me to treat them as trade secrets — which is fair enough, I feel.

Mitchell chokes screw into a barrel counterbore. Therefore they have the advantages usually claimed for the Winchoke system and its derivatives — no disturbance to the sighting plane, the muzzle profile or handling qualities. (Although Bob will shorten the barrel, or barrels, if you wish. He may even recommend it on occasion). Nevertheless, there are significant differences.

Firstly, Mitchell chokes are threaded near the muzzle, which would certainly help to preserve the integrity of the union in the threads and at the inner end of the tube.

Secondly, the diameters of the bore and the choke entry are precisely matched.

TRADE TOPICS
Cont'd from page 14

Thirdly, at 51 mm overall, Mitchell chokes are longer than most if not all of the Winchester-style tubes on current offer. Obviously I won't have seen the lot, but of all the internal interchangeables that I have seen, the only ones close to the Mitchells in length are the slip-in Mobilchokes by Beretta.

Lastly, an English form is used — that is, a cylindrical section separates the tapered section from the muzzle.

The last three things would seem to explain the generally excellent quality of the patterns obtained from the test sample. Bob had dimensioned the tube to pattern on the open side of modified, which it did. For example, ten rounds of Winchester Super Ranger sizes averaged 46% with pattern-to-pattern percentage variations quite typical of a rather punchy field cartridge. With two exceptions, the distribution of the pellets was unexpectedly even, with no evidence of centre thickening. Frankly, I was impressed.

Since one of Bob's long-time specialties is choke work — the other is stock bending — I suppose his ability to guesstimate the dimensioning required to deliver a desired class of pattern is not as surprising as it sounds.

Mitchell chokes are individually made and fitted in sets of four, then bored to the customer's requirements. A locking wrench is supplied although judging by the sample, finger tightening is adequate. The wrench is more likely to come in handy when removing the tube, I suspect.

Key operations are carried out on a lathe with specially made tooling and the barrel located on an internal mandrel. Combined with Bob's insistence on fine tolerances, this approach ensures that the tubes fit precisely and that each is co-axial with the bore. It also means that double barrelled guns as well as single barrelled types can be equipped with the Mitchell system.

Some guns are unsuitable, of course. For one reason or another (for instance the use of filing to harmonise twin barrels), they do not have enough meat in their barrel walls. Bob has done quite a bit of work in this area, including some destruction testing, so he knows the limits. Since there is variation from gun to gun, each must be treated as an individual case.

Chromed bores are no problem. Bob removes the chrome by a simple, effective process the result of a bit of lateral thinking. As with other details of his work, it must remain his trade secret.

Each tube is made from a strong carbon steel, honed and blue. The inner lip is angled so that it tucks under a

differently angled ledge inside the barrel to effect a tight, gas-proof seal. The fine thread is diverting — an Acme type modified by Bob, it is positive yet conserves metal.

Mitchell chokes are fairly priced, though the best is never cheap. For quotes and further information, contact Mitchell's Firearm Service, 18 Keswick St., East Bentleigh, Vic 3165, phone (03) 570 1997 after 4.30 pm.

All it costs to find out is a stamp or the price of a phone call. You can ring after hours to take advantage of cheaper STD rates if you wish.

Ross Williams.

PERAZZI GUNS AT 1983 WORLD CHAMPIONSHIPS

Staff Writer

Perazzi Guns featured prominently among the medal winners at the World Moving Target Championships in Edmonton, Canada. The list is as follows:

1983 WORLD CHAMPIONSHIP OLYMPIC TRAP

MEN: GOLD: Perazzi Mx8/SC3
SILVER: Perazzi Mx8
TEAMS: GOLD: Perazzi Mx8
SILVER: Perazzi Mx8
WOMEN: BRONZE: Perazzi Mx8
TEAMS, (Women): SILVER: Perazzi Mx8

Part 1

Dear Ian,

As a responsible shooter and Club member I am naturally most concerned with the future firearms legislation which may effect my right to own or use firearms. I am sick and tired of supporting the rights of the 70 per cent majority who do not belong to a club and benefit (without effort or expense) from our compulsory \$5.00 levy for the Legislation Fighting Fund.

On giving the matter a great deal of thought, I have devised a scheme that, in my opinion, would benefit the shooting fraternity as a whole and I would appreciate the reader's thoughts on the matter.

PLAN OF ATTACK

1. It should be made compulsory that a firearms owner be required to be a member of a recognised Club before he can obtain a shooter's license. — The choice of the Club is up to him and may be one of any of the local shooting Clubs, ie. Clay Target, Small Bore, Big Bore, Muzzle-Loading, Pistol Club etc.
2. If such person does not desire to be an active member of the Club he may join as an Associate member at a small fee (say \$4.00) He will not, however, under these circumstances, participate in the running of the club or stand for office.
3. The Club Official will record the applicant's particulars and subject him to a practical and theory examination on the safe use and care of firearms. Upon passing this examination he will be issued with a form signed by the Club Official.
4. The applicant will then take the form to his local Police station and it will form part of his application for a shooter's license.
5. On being issued with a shooter's license by the Police he will then present such license to his Club within 14 days for particulars of same to be entered on the Club records.
6. If the member is the owner of any firearms he will present those firearms to his Club Official so that a description and serial number of each firearm can also be entered in the Club records. A fee of \$1.00 per weapon so recorded will be charged by the Club. The member must also notify his Club of any disposal or acquisition of firearms.
7. The Club will, via the computer system of their parent Associations, notify the state Police of the descriptions of such weapons at the end of each month.

The above system will accomplish a number of steps in the right direction for all shooters. First of all it offers a free service by responsible members. This will alleviate a cry of "We would like to do it, but can't fit it into the budget", by the Government.

The ranks of the affiliated members of the A.S.A. will swell into the millions and thereby forestall unfair firearms legislation by the sheer weight of votes involved.

Even with the rather small amounts involved to each shooter, the cash flow into the Clubs will be enormous. This amount, or a proportion of it, could be used to finance a national office and shooting complex to benefit all of the shooting sports.

I envisage, in order to organise such a scheme in a competent manner, the A.S.A. would have to appoint state branches. Such branches would then be responsible for the welfare of the shooters in that state and be involved in state legislation and liaison with the state Police.

I respectfully ask the readers to give their careful consideration to this scheme and let me know their thoughts on the matter.

Yours sincerely,
John Singleton.

ON THE ROOF OF THE GOLD COAST

\$400.00 WORTH OF TROPHIES

Full program commences 10.00 am. Phone 075 549154 for full details.

Call and see us when you are next on the Fabulous Gold Coast.

We are part of the Terranora Lakes Country Club Complex which includes Golf, Bowls, Tennis, Hockey, Cricket, Squash etc. Children's lounge. Full N.S.W. amenities. Visitors welcome.

NEWS FROM WAGGA GUN CLUB

by Maree Rooke, Publicity Officer

A "Get to Know Clay Target Shooting and Safety Day", was held during May at Wagga Gun Club.

The group of 5 boys and 3 girls attended the shoot who were all a part of E.P.U.Y. (Educational Program for Unemployed Youth). The Program is a 10 week course associated with the New South Wales T.A.F.E. colleges.

The day started off with a safety talk on the proper use and handling of firearms, after which the group had some shooting practice.

Barney Rooke, New South Wales State Coaching Director, gave instructions to the group, assisted by myself who is also part of the E.P.U.Y. program.

We thank the Wagga TAFE College who donated the cost of ammunition and clays for the Safety Day.

So, there's one for the unemployed!!!

EDITOR'S MAILBOX

Part 2

Dear Ian,

It appears that the Victorian Firearm Legislation is now a fact of life. But what surprises me is the lame dog attitude of the average firearm owner.

Roger Darwon comes under criticism from one Victorian and another person who does not even say what state he resides in. History the world over has proved that once you have a gun law others follow, ultimately leading to severe restrictions, and even complete confiscation. Firearm owners must oppose any registration in whatever form.

People that accept gun legislation of any kind border on apathy and are like the proverbial ostrich which in the end finds it doesn't work when someone kicks him in the butt.

Recent increases in pistol and revolver registrations in NSW are an example. Where does it stop. Gun legislations of any kind in this country is just another form of taxation that will increase till the shooter is pushed over the edge.

What then does he do with his valuable firearms. I leave that one to your imagination. I wish there were more people about like Roger Darwon who have the guts to stand up and say what they feel in order to protect their and our chosen field of recreation.

Mr Reg Clarke raves on about the emotional response of the public against guns. Hell, don't we gun owners have any emotions. If he thinks that it is reasonable that people should fear guns, he has a guilt complex of some kind.

The only point he hit on the head is that guns are machines, so are cars and I have never seen too much guilt complex about those, even though they are used in vandalism, crime and, as our shocking road toll indicates — killing.

We do not have a gun problem in this country, but we do have a crime problem that is caused by some people in our community.

We also have a media problem that makes heroes of criminals and victimises machines. In our own ranks we have apathy and, like the saying goes — united we stand, divided we fall.

While the A.C.T.A. is a conservative body, it should have a look about, as in this changing world we may one day wake up that our guns will be locked away and that once in a while we may have a shot out of one, just as they do in Singapore.

Politics is a way of life. No, let us have more of members like Darwon, and others like him. Apathy in this day and age is admitting defeat and mark my words, the Victorian issue is not yet over.

Yours faithfully,
DICK EUSSEN
Jabiru, N.T.

VALE

"Peter Sheridan" late of Robe, passed away at his home town of Yarrowonga, on Sunday, June 13, 1983. He will be sadly missed by all those who had the privilege to know him, for his electrical, mechanical and business acumen. As a shooter Peter had many wins in the Clay Target field over the past years plus his aim was to vitalise shooting both Target and Field. His co-operation in the establishment of the sport especially night shooting in earlier times was of great benefit. He was instrumental in the Robe systems which was enjoyed by those who used them. In later times his efforts combined with other members made Robe Club successful for Clay Target Shooting and socially.

Not only at Robe will his generosity and friendly advice be missed but the many clubs he visited.

It is felt that we as a club owe him a debt to keep going to honor his generous time and expertise, which without, Robe would have never got off the ground.

We trust his wife "Lucy" will find comfort in the fact that we respect "Peter" and his expertise over the many years he spent at Robe.

Robe Gun Club.

Part 3

Dear Ian,

May I compliment Mr R. Darwon for his sociable and salutary "Shooting Shorts;" and to comment on the scurrilous letters published in the June issue — written by Messrs J. King and C. J. Parmenter, respectively.

Mr King — Sir, the referee who does not accept suffering as an occupational risk, deserves all the accumulation of pain and bad smells he gets. The bad rules, in question, must have disappointed many a good referee because they encourage opportunists to erode, if not usurp the referee's traditional authority.

Referring to (Etiquette, April C.T.S.N.) "A Giant Step Backwards." you Sir, stated that "this rule has indeed been a step forward" but yet, in the same breath, added that: "...at the recent Nationals in Adelaide the rules were changed..."! So, why the windy blast Mr King?

Mr Parmenter — Sir, as for Mr Darwon's photographs, showing the safe, proper, and easy way to carry a "broken" gun on ones shoulder; surely, this is common sense in action — to which you object. Furthermore, it avoids accidentally harming somebody's face, or damaging the gun's empty barrels. And this, you sarcastically labled the "cavalier image." Well. So be it!

In conclusion, I would like to say that: I find these letters of complaint prolix, irrational, void of imagination, fruitless, spiteful and inane. Besides, neither of them offered an alternative.

Yours faithfully,
J. Cooper

EDITOR'S MAILBOX

Part 4

Dear Ian,

During research for the Cunnamulla Historical Society at the John Oxley Library, an item in "The Queenslander" dated March 1883 caught the alert eye of Cunnamulla Shooter, Dave Webster.

The item stated:— "Nothing could be more graceful or womanly than the rumoured action of certain ladies who have formed a ring and intend boycotting Hurlingham until the Gun Club shall give up slaughtering pigeons and use the newly invented terra cotta pigeons. The latter is said to answer every purpose of the noble sport except the inflicting of pain upon pigeons."

The Cunnamulla Gun Club decided to check this information and if possible hold an event to celebrate 100 years of Clay Targets.

After correspondence with C. D. Craddock of the Clay Pigeon Association in England, he determined that 1883 was the date for England but he wasn't sure re U.S.A. and as time was running out, I couldn't check further.

We have decided that it is the centenary of Clay Pigeon introduction in the British Commonwealth and have decided to go ahead with our Centenary Event. This event will be a 'Centenary Deauville Doubles Event' of \$500, and we hope shooters will take up the challenge and come to the Opal Festival Shoot on September 3 and 4, 1983 and bring a partner and try to win this historical event.

I enclose a Xerox from England of "Holts Shooting Calendar 1883 with the advertisement for Clay Pigeon." Mr Craddock said it is the first he can find, also a photo of Captain Bogardus of U.S.A. who toured the States with Doc Carter in 1883 doing exhibitions with Clay Targets.

We fervently hope you will print this letter in August Shooting News so interest is aroused and our efforts and research on this project are successful.

And may our 'Booming' Sport boom more successfully over the next 100 years.

Yours faithfully,

Jenny Webster

Return:

TUESDAY AUGUST 30

TUESDAY SEPT. 6

THURSDAY SEPT. 1

THURSDAY SEPT. 8

ON THE NEW EAST-WEST AIRLINES F28-4000 JET AIRCRAFT
THE JOURNEY NOW TAKES ONLY 2½ HOURS
TAX FREE SHOPPING IS ALSO AVAILABLE ON THE ISLAND.
A VALID PASSPORT FOR RE-ENTRY INTO AUSTRALIA IS NECESSARY.

SHOOTING PROGRAM

Friday September 2

PRACTICE

Saturday September 3

50T SKEET. 25T S/B. 25T P/S.

Sunday September 4

50T BALL/TRAP. 50T D/B C'SHIP

TOTAL COST FOR ACCOMMODATION AND AIR FARE WILL BE:

PER ADULT (Twin Share)\$549.00
PER CHILD (Family Share)\$310.00

There are no meals in this program.

CARTRIDGES WILL BE AVAILABLE AT THE SHOOT

So come on all you shooters out there. Round up the family and contact Lily Scarcella at 219 5387 for bookings and arrangements.

REPORT ON SEMINARS HELD BY Q.C.T.A.

BEV GRICE

The Q.C.T.A. ORGANISED TO CONDUCT "EIGHT" seminars throughout 1983, so far four of these have been held, one in each of the zones. These seminars included: —

- (a) **STRUCTURE OF THE A.C.T.A.** this subject was discussed thoroughly between Richard Dean and the shooters who attended.
- (b) **CLUBS ROLE IN THE NATIONAL, STATE ZONE STRUCTURE**, this also was conducted by Richard Dean, with good response from the shooters.
- (c) **ADMINISTRATION & COMMUNICATION** this was presented by Bev Grice and mostly was a good lead up to discussion.
- (d) **PROGRAMMING**, again presented by Richard Dean, where club administrators were advised to programme their shoots to suit their members as well as the current rules, without causing any hassles.
- (e) **RULES CLARIFICATION**; This was presented by Ed Ransom State Delegate to the National Referees Association. This subject sparked a lot of discussion at each of the seminars.
- (f) **COACHING**: Conducted by Bill Stevens State Coaching Director and assisted by zone and club coaches.

The first seminar was held in Brisbane (S.E. Zone) where a total of 44 interested shooters and administrators attended, representing seven clubs in that zone. This seminar being the first one held since the rules changes in January, produced a very interesting Rules Discussion, where shooters voiced their opinions on certain rules. However as this seminar was not held to change the rules, but to clarify the changes already made, Ed was able to make many notes on shooter in this particular areas feelings.

The second seminar was conducted at Roma Gun Club (Western Zone) where 21 attended representing 4 clubs. Again the keenest interest centred around the Rules, followed by an interesting couple of hours with COACHING.

The third at Gladstone Gun Club (Central Zone) again we had over 40 shooters attend. At this seminar the interest was high in all the subjects, and a very good day was held with some very interesting ideas being discussed. Following the Seminar the State Council held their meeting at the home of Bill & Jenny Nioa. This was a very long meeting and some very pertinent problems were thoroughly thrashed out. The Q.C.T.A. is grateful for the use of the Nioa home for this meeting, which proves the support that is given to this Association in Queensland.

Members of the State Council were also able to look over the New Gladstone Gun Club grounds, which proves that by members working together a lot can be achieved in a short time. The grounds when completed will be a picture, and our congratulations go to that club and its members for their achievement.

The fourth seminar was held in Cairns (Northern Zone) and Ian Hill also attended this seminar as the Associations guest. Ian spoke on the Structure of the A.C.T.A. and the benefits of State Association, and the Clubs importance in this structure.

Arthur Kenna who is a Rules Supervisor for the Northern section of this State assisted Eddy Ransom in the Rules Clarification section of the seminar, from which a keen discussion was had between the speakers and the shooters. Richard Dean (newly elected President of the Q.C.T.A.) chaired this seminar and after lunch Bill Stevens then got the coaching underway.

At all of these seminars shooters were issued with a questionnaire form, and from these some interesting ideas have been put forward to the ASSN. Those attending were also issued with a folder with papers on all the subjects discussed throughout the seminar. The Association also received some assistance from the Westpac Banking Corporation by way of some note books, which allowed shooters to make notes on items of interest.

The Association wishes to Thank all shooters who have attended the seminars, and particularly the clubs for hosting these. The catering supplied by the clubs was also excellent and a credit to the ladies who support their husbands sport.

From these seminars we gained another twelve club coaches, which is further strengthening the coaching scheme in Q'land. We also gained some valuable ideas as well as meeting the members of various clubs. We trust that the shooters who attended found it informative, and look forward to continuing the next four seminars starting with Townsville in August; Barcaldine in September; Warwick and Murgon in October.

QUESTION HALL OF FAME

By Wayne Calaby

In the April C.T.S.N. I made reference to the need for a Hall of Fame. In the June C.T.S.N., Roger Darwon said he was the unofficial President, and Bill Attwood's letter in July C.T.S.N. gives Roger the credit for the idea for a Hall of Fame. In all honesty my idea appeared first, and I have been trying my guts out to get photos and items of nostalgia to try and get some form of history for myself and anybody who may visit me at home.

At the moment I am photographing many of the old and new top shots on slide film for future reference and historical purposes, as many will agree you don't live forever. Some people who have helped me with old magazines are well known Melbourne skeet shot Merv Whitelaw, Ballarats' well known Field and Game shooter Graeme Ludbrook and of late Alf James.

I think it is fair comment now to say, that seeing that the A.C.T.A. may purchase the Headquarters, some room can be found for our Hall or maybe the Hall could be included in the National Shooting Ground, but whatever it must be started now.

There must be and there are photos, cuttings, badges, medals, company advertising posters, framed prints and oil paintings sitting in sheds and cupboards all over Australia. In my travels as a relieving train driver, I viewed at the old grocers store at Mysia Victoria, prints of the old ELEY cartridges and game scenes. And in fact, I also saw some full packets of cardboard ICIL's and ELEY CLAY shells, they seemed to be deteriorating badly and that was in 1979. So there is one genuine loss, probably 1940 onwards trade advertising gone south as they say.

In Ballarat the response to early mining nostalgia has been unbelievable. One family gave a whole gold coin collection worth hundreds of thousands of dollars as the giver said, let it be shown to all present and future. In fact Ballarat has its own gold museum and of course Sovereign Hill, famous the world over. Countless hundreds of items have been given by individuals like us, for the benefit of all to see and enjoy forever.

I recently purchased in an old wares shop in Meblourne, a 1 pound tin of Diamond Sporting Powder and an Eley-Kynoch 16 gauge special trapshooting cigarette lighter which cost me a total of \$8.00, not much to me but a hell of a lot of interest to the real clay shooter if combined with glass cases of other items of the past and present shooting game. The cigarette lighter by the way, is a replica of a 16 gauge ELEY SPECIAL TRAPSHOOTING SHELL with the black clay on it, and made in Australia No. 6 of brass construction and six star crimp.

Well, I have made my point, sorry to my old mate Bill for picking him up and hope that I am right with my remarks to Roger, anyway he will let me know I suppose.

I hope the shooters with items will now think what will my family do with those things when I am gone. What will happen to them, maybe I would be better to pass them onto the collection at the A.C.T.A. Think about it shooters of Australia.

TOP END TURNS ON GREAT TRAP CARNIVAL

Staff Writer

• N.T. State Secretary and National Executive member, Nev Seis from Tennant Creek, State Double Barrel Champion 1983.

• The 1983 Northern Territory Trap Team.

The first State Carnival conducted by the Northern Territory Clay Target Association took place at Katherine over the Queen's Birthday weekend in June.

About 60 shooters attended the carnival who came from as far away as the Western District of Victoria.

Sixty shooters may not sound many to our southern cousins but taken as a percentage of registered shooters in the Territory, the turnout was marvellous.

The Katherine Club is situated just a couple of kilometres north of the town and is noted for the difficult shooting background. High scores are scarce at this club, evidenced by the fact that only one possible was shot over the weekend, and that was in the Double Barrel Championship.

The Carnival was conducted in a relaxed atmosphere so typical of the top end in perfect weather conditions. The temperature throughout was around the 30° mark, which was lapped up by the visitors from the south.

All the titles were keenly contested despite the lack of high scores. N.T.C.T.A. Secretary and National Executive member Nev Seis from Tennant Creek captured the Double Barrel Championship with the only possible 50-50. This was a fitting reward for Nev's determination and hard work to get the first ever State Carnival off the ground.

Kevin Bowring from Darwin shot a very disciplined 49-50 to win the Single Barrel title and the much improved Tony Hare took the Points Championship with 146-150. It's only a couple of years since Tony was competing as a C grader.

• Visitors from the south, Allison and Gerry Smith, together with National President, Laurie Connors.

Colourful Col Joye, "The Pink Panther", showed his true form in the State Handicap, and collected a nice slice of the Calcutta conducted on this event.

High Gun honours over the Carnival went to Junior Andrew Noble from Alice Springs, Ladies Mary Stacey Katherine, and Open consistent Col Smith, Darwin.

One of the highlights of the weekend was the drop by local sky-divers onto the club grounds on the Sunday evening. The three made a fine sight under colourful canopies as they landed with pinpoint accuracy on the 25 metre mark of lane 3 on trap 1 in front of the clubhouse.

The hard working ladies were a hit with wonderful catering throughout the weekend. All meals were provided from breakfast through to dinner at night, Saturday nights corned beef and vegetables cooked in 5 gallon drums on the open fire was excellent fare.

In short the Northern Territory hospitality was all that we'd heard about and more. The organisers can feel proud of a job well done at the first Northern Territory Trap Carnival.

• Colourful Col Joye, the "Pink Panther," winner of the State Handicap at Katherine.

A HISTORY GRIFFITH CLAY TARGET CLUB

Jack Luhrs

• Three generations of the Evans family.

"A Leeton blacksmith, Mr Aub Davis, manufactured a pair of wrought iron gates for the Griffith Gun Club. It featured a pair of crossed guns and displayed the date 30-9-29, this is believed to be the birthdate of the club.

The Griffith Gun Club (Griffith Clay Target Club as it is known today) is now located near the Kalinda School, behind the Griffith Airport.

In 1929, the Griffith Showground occupied the area which later became the Griffith Golf Club and today is known as the Ex-Servicemen's Oval.

The Gun Club rented ground from the showground people but lost it when the Walla Avenue site was chosen for the new showgrounds.

The great depression between 1929-1932 rocked the young club and caused it to fold.

A new site in Lake Wayangan Avenue where Kevin Sheridan's Nursery now stands was found for the reformation of the club.

It faced Scenic Hill in a period when the town borders reached not much further than Carrathool Street and remained in Lake Wayangan Avenue until 1947 when it moved to its present location.

A fibro-timber club house building was purchased from the Department of the Air Force after its use at the Narrandera Royal Australian Air Force base during World War II.

The building served the club until it was destroyed by fire in 1976.

It was replaced by the present brick clubhouse with labour for its construction supplied by volunteer members of the club.

Many well known Griffith people have been associated with the past history of the club and include Don Muir, Roy Thomson, Reg McNamara (the longest serving president), Eric Evans, Ian Evans (joined when 15 years of age), Phil Scott, Bill Gibbs, Chris Paspalas, John James, Jack Little, Digger Gibbs, Les Dow, Dave Taylor, Ted Fromholtz, Jim Theodore, Alf Patten, Joe Sartori, Arthur Pauling, Glen McWilliam, Watts McNamara, Stan Briggs, Hal Anstee, Claude Carnell, Graham Barber.

The Duchatel family, including the women, were prominent members and good shooters.

Undoubtedly the biggest event ever to occur in the history of the club was the selection of Griffith as the venue for two Australian Clay Target National Championships.

The first time was in 1972 — the first time ever in clay target shooting where the venue went to a country posting. However the sport did not always shoot clay targets.

Long standing member Arthur Pauling who joined the club when it was located where the Ex-Servicemen's Oval is now situated, recalls the days when live birds were used as targets. "We started with pigeons and later moved onto galahs because they were not protected".

"We shot starlings, later sparrows, before the introduction of the clay target."

The Griffith Club grew in strength and was ready to stage its first all-day shoot.

It selected January 1, 1948 with the major trophy known as the "Rice-Growers".

In this period the club had as its president, Mr Bill Gibbs while its secretary was Ted Fromholtz, the then licensee of the Area Hotel.

While the club had its successes, it also faced its difficult periods.

One of these was in the year 1958 when the club disbanded.

It reformed again in 1963 with Mr Reg McNamara as its president.

Today the controls are held by Yenda identity, Mr Keith Sim.

However the pinnacle of the hard work and endeavour of all those associated with the reinstallation of the club offering some of the best shooting facilities in Australia, came with the selection once again for the Australian National Clay Target Championships in 1979.

The championships took on an international flavour when a party of more than 60 Americans competed, including their National President of the Clay Target Association of America.

The overseas group took in the Australian Championship as part of an "Australian Down Under Safari."

Griffith won selection for the National Titles because their grounds and layouts were equal to the biggest in Australia with eight Down the Line and five Skeet layouts.

Record attendances were established in every event, with a field of 607 competitors taking part in the Double Barrel Championship."

Today the Griffith Clay Target Club is progressing steadily with the highlight of each year being the annual New Year shoot.

This has progressed from the one day program of the 1948 to the present two days and one night held annually on the 1st and 2nd, January.

With prize-money in the vicinity of \$3000 this program regularly attracts shooters from all of the Eastern States, all ready to join in the fun and competition of what is the biggest event in the local shooting calendar at one of the district's oldest Gun Clubs.

EDITOR'S MAILBOX

Part 5

Dear Ian,

On asking around the traps for ol C.T.S.N.'s pre 1973, I was amazed to find that nobody seemed to keep them. It seems a pity that no one I have asked keeps their back copies, because they do contain a lot of interesting material that may be of interest to some people.

Seeing that I cannot get some of these copies locally, may be I could ask the shooters of Australia to help me out. Would any of the older shooters who have some magazines dated before 1973 contact me at the below address so that I can arrange their delivery to me.

My reason for the use of them is not for gain, but to have a record of what went on in those early days of clay target shooting. It looks like nobody else wants to do this research, so I thought somebody ought to document them.

Please remember the issues I need are pre 1973 right back to 1947 when it was first published.

Wayne Calaby,
23 Landale Avenue,
Ballarat, Vic 3350

EASTERN GOLDFIELDS TWO DAY CARNIVAL

SANDGROPER

The weekend of June 4 and 5, 1983 saw 100 plus shooters travel from all parts of W.A. to take part in the annual Kalgoorlie Two Day Shoot arranged and hosted by the Eastern Goldfields Gun Club.

The drawcard for most shooters was the Kalgoorlie Businessmens Classic — 100 targets to win \$1000 in each grade. The State Champion of Champions Shoot was an equal drawcard. The whole weekend was designed to let the fortunate winners cover themselves in money and glory.

Saturday morning arrived with a typical Kalgoorlie day — bright clear blue skies and as cold as charity, but charity begins at home and there was nothing cold about the welcome given to all visitors by the local shooters and their helpers.

To their credit, shooting was underway right on advertised starting time. The pace was set immediately when Len Nangle of the Home Club showed one of the reasons he became a top flight shooter when he returned a 25 clean first round. He was followed by another twenty first round possibles.

The end of round two however revealed two shooters still clean, Murray Alexander and Max Cubic had decided to make a claim on the classic and would be hard men to topple.

• W.A.C.T.A. president Murray Alexander, Kalgoorlie Classic winner.

After 75 targets had been shot, Murray was still in there clean but had four other shooters on his heels with 74. Len Nangle was still in there with Max Cubic, Laurie Naylor and Eastern Goldfields President Bob Mason making the four. All had the 'Bone' out on Murray as the final round began.

Murray Alexander was running hot and his last round ended him clean for the shoot. The others held it right to him and all finished 99/100 but it was all over the first place A Grade and overall winner.

Shootoffs saw Max Cubic defeat Bob Mason and Len Nangle in that order.

Laurie Naylor of Esperance shot extremely well to take off the B Grade money with 99/100 followed by Mark Normington of Kalgoorlie 97/100 and W. Livingstone from 'Suffering Cross' 96/100.

C Grade money went to the man who not only shot well but entertained his squad and ref with his wind up. He has the most deliberate 'Two Step Shuffle' yet seen and it certainly

• High Gun and State Champion of Champions, Robin Bailey.

helps him to put his whole act together because his 96/100 was a credit to the whole performance. Les Fraser of Kambalda showed that Clay Target Shooting can be mixed with other pastimes. It's a pity that Ken Holman the State Handicapper was not impressed by it, all he did was put Les into A Grade. I think we will see a lot more of him in future. R. Barnes and Jeff Neve came in second, and third, following the shoot off.

Sunday morning bright and early we were all there again for the State Champion of Champions and it was to be a repeat of the first day when 12 possibles were shot in the first event, the Winchester Cartridge Handicap. Ron Baker of Geraldton won with 47/47 showing Neil Johnson of Leonora 46/47 and Gino Berdetti 42/43 a clean pair of heels.

Best unplaced meterage were: 1-14 m P. Livingstone; 15-17 m P. Wood; 18 and over 'Sparks' Nowland.

The Champion of Champions was then under way and as fate would have it, the reigning champion, Murray Alexander, was squaded with the "To Be" Champion, Robin Bailey and so the scene was set.

The event was shot over 20 D/B, 20 S/B, 20 D/B points giving a total of 100 points.

Robin Bailey of Perth showed the way to go when he started out by shooting 20 first barrels in the D/B section. Others also shot as well which only tended to make Bailey go harder. He followed up by also shooting his S/B and points score with first barrels. The conclusion of this event revealed no surprises, Robin Bailey was the winner of the 1983 State Champion of Champions and the new holder of the Darrell Wiese Perpetual Cup. He also won the A Grade 100/100 from Neville Hyder of Bunbury 98/100.

B Grade went to John Griffiths of Bunbury 96/00 from Phil Hodgson of Azzurri 94/100.

C grade honors were taken out by Bob Cousens, Publican of the Railway Tavern in 'Suffering Cross'. A first big win for Bob with 94/100 from Mike Welke of Esperance 91/100.

The shooting was not yet over however as the High Gun was yet to be decided.

Robin Bailey and Chas Reigert of Cunderdin had passed the overnight leader Murray Alexander by one point and the shoot off was to come. A twenty minute shoot off in failing light resulted in a win for Robin Bailey, a fitting result for the man who shot so well all day.

Following the presentation of monies, sashes and trophies, all present were treated to barbeque and refreshments. This led to most events being re-shot — with the same result.

CLUB NEWS

WARREN GUN CLUB

We wish to advise that there has been a change of Secretary to Warren Gun Club. All further correspondence should be forwarded to Mrs Maria Kinsey, P.O. Box 2 NEVERTIRE 2831.

WYONG GUN CLUB

At our recent Annual General Meeting, the new committee for 1983-84 is as follows:

PRESIDENT: Mr R. Beaton, 36 Lovell Road UMINA 2257.
Phone (043) 41 9209

SECRETARY: Mr R. McLean, P.O. Box 339, Wyong 2259
(043) 92 4639.

UNGARRA GUN CLUB

At our A.G.M. held June 5, 1983 the following people were elected to hold office for the coming year:

President Dean Lawrie, Vice President Trevor Stratford, Treasurer Jesse Averis for the 12th year, Secretary Rodney Gregurke, Club delegate and handicapper Trevor Stratford.

Although only a small club we have successful shoots at our picturesque — pionic atmosphere grounds where the ducks often fly from the creek after the first shot.

KOJONUP GUN CLUB

We wish to inform members the new secretaries address and name of the Kojonup Gun Club. Mr G. Holly, P.O. Box 214 KOJONUP 6395.

WEDDERBURN GUN CLUB

We wish to advise the change of office bearers after the A.G.M. held May 12, 1983:

President, Graeme Young, Vice President Geoff Arbutnot, Secretary/Treasurer Charlie Rose.

Thanks to retired President Bill Larmour for a great job done over the past 12 months.

MENINDEE GUN CLUB

Menindee Gun Club is suffering from a sharp decline in membership as most of our members have recently moved interstate. However, at a recent meeting office bearers were elected as follows: Acting President J. Caskey, Secretary/Treasurer/Handicapper Mrs L. McDonald. Next shoot September 24, any inquiries contact Leah McDonald Box 36, Menindee or Menindee 4.

NEWCASTLE GUN CLUB

We wish to advise that club secretary Ian Clarke, has had to resign the position owing to ill health. Ian is at present recovering from an operation at the Royal Newcastle Hospital and will be incapacitated for some time. The new Secretary is Paul Pritchard, 35 Marie St, Charlestown 2290.

TASMANIAN AMATEUR SHOTGUN ASSOCIATION

At the annual meeting of our state association on Saturday, June 11, 1983 the decision was made to change the name of our association to the TASMANIAN CLAY TARGET ASSOCIATION. We don't envisage a long transition period but there will be an overlap of both names for some time but we will endeavour to complete the change over as quickly as possible.

Office Bearers for the forthcoming year are as follows: President, K. Coppleman; Vice Presidents, J. Murphy and K. J. Woods; Secretary/Treasurer, K. F. Woods; Management Committee: K. Coppleman, K. F. Woods, S. Browning and I. Aylett.

ROMA GUN CLUB

We wish to advise the changes in committee of the Roma Gun Club which took place at our Annual General Meeting: President Brian Cameron, Secretary Lloyd Keegan P.O. Box 16, Roma 4455, Treasurer Cliff Reid 76 Gregory St, Roma 4455.

MANNUM GUN CLUB

We can now confirm the name change of our club is now legally MONARTO CLAY TARGET CLUB.

GRAFTON GUN CLUB

At our Annual Meeting at Grafton RSL Club on June 6, 1983, the following members were elected: President, Barry Cameron; Vice President, Max Harrison; Secretary, Alice Harrison; Treasurer: Larry Bailey; Shoot Secretary: Peter McGuire; Shoot Marshall: Larry Bailey; Club Coach: Max Harrison.

Life membership to Grafton Gun Club was bestowed upon Glen Lawrence, one of the foundation members of Grafton Gun Club, for his continued help and service to the club. He has also held the position of Treasurer since 1977 but declined the office this year.

Our shoot secretary Peter McGuire has been out of action owing to a motor bike accident recently. We hope to see Pete back at the club in the near future.

Many thanks to Whelan and Johncock families for trophy donation on this shoot and the support they show our club throughout the year.

EDITOR'S MAILBOX Part 6

Dear Sir,

May I seek to reply to the letter from C.J. Parmenter, page 22 in shooting news in June.

I'm a student from Malaysia and come from Kuala Lumpur. I had the pleasure to meet Mr Darwon on one of his visits to my home land. Also in the entrance of the gun club of Jakarta is a very fine shooting rest inscribed with a map of your country, he presented to that club a great gesture to shooters of Asia.

He is held in very high esteem by all shooters in both parts of Asia, not only as an ambassador of your fine country, but a very competent and enlightened authority on all types of shooting. Is only too pleased to give assistance to any who ask. Other fellow country men who have made visits to Sydney, and the gun clubs here, myself included, have told me and I have experienced the same, few locals have had much to say to them, but Mr Darwon if there always makes us feel welcome in our strange surroundings.

Further, he taught me most of what I know about shooting clays, as if it was a pleasure for him, instead of me who was gaining the real benefit.

Your Mr Parmenter, my main reason for writing, seems to be in real trouble comprehending the accepted safety as laid down by the A.C.T.A. and as illustrated by Mr Darwon so very well. While I find it very hard to even understand how he could call your writer such silly names in relation to his basic outline in your magazine of April, page 23, yet he Parmenter can't even deduct right from wrong, which shows up in his letter. The same holds true for the other critic J. King on page 19 same month, which in effect very unbecoming to both.

Your fine sport is being downgraded by such silly comments and it's a shame, when with the ideals and ability given by your monthly writer it is being given a real boost and enlightenment to all who wish to learn.

May I thank you very much for the time and experience given while in Australia.

Yours, S.h. Ong,

EDITOR'S MAILBOX

Part 7

Dear Ian,

Ref: Mr Lilwalls' letter in the June 1983 issue of the "News".

The coarse shell of sarcasm and pseudo intellectualism was penetrated to get to the substance — sadly to find only confusion.

I shoot skeet fairly regularly in Victoria and have held, for about five years, the required Victorian shooters licence. Recent legislation in Victoria tightened but did not initiate shooters licencing in that State. Shooter licencing in Victoria predated that in New South Wales.

I represented a shooting organisation in discussion with N.S.W. Government Minister Mr Willis (who later became Premier) and Mr Griffith at the time shooters licences were introduced in N.S.W. and was and still am clearly aware to whom I was speaking.

Yours faithfully,

Reg Clare,
18 Caley Crescent,
Lapstone, 2773

Editors Note:

D. Thrift 11/20. C. A. McClintock 7/20. High Gun won by Col Burt.

EDITOR'S MAILBOX

Part 8

Dear Ian,

Some information from our Zone regarding the bush fire appeal. This would be of interest to readers of our Clay Target Shooters News.

The Clubs of the South Eastern Zone of V.C.T.A. raised for the bush fire appeal a total of nearly \$4400. The two shoots were held at Melbourne Gun Club and Korumburra Gun Club. We as a small part of Clay Target Shooting are very proud of our donation to such a worthy cause.

Yours faithfully,

Graham J. Matthews,
South Eastern Zone
V.C.T.A.

NEWMAN GUN CLUB

The weekend of June 25 and 26, started with a good number of visitors arriving at Newman to contest two State titles as well as a full weekend of shooting.

It was started off with a 10 target compulsory division, with the following shooters obtaining 10-10. N. Johnson, D. Kevill, K. Grate, and T. Genge. This was followed by the first State title which was Single Barrel Tower Championship. This event was shot in two visits to the layout of 15 targets each visit. After round one there were a few shooters with maximum scores and others right behind them to push them in the second round. After the second visit, the overall and A grade winner was B. Mason (Eastern Goldfields) with second place going to J. Kevill (Cunderdin). B grade was taken by S. Horo (Newman) second was D. Rasmussen. C grade C. McCoy (junior, Newman), second M. Stone (Newman).

Event three on the program was 25 District Skeet championship and this was won by a very on form D. Kevill. B grade was taken by T. Stingel (Newman), and C grade D. Hilsz (Newman).

This ended the shooting for the first day. A barbecue was enjoyed by all that evening and followed by numerous stubbies after! Dart games and other entertainments were underway, with the main cry of the evening being from Max (I don't believe it) Cubic.

Practice the next day commenced at 8.30 am, and surprisingly enough all were there, although some people were looking at targets through bloodshot eyes.

This was followed by a 50 DBP graded event, which was taken by M. Alexander who shot all targets except two single

barrel which gave his first score as 73-75. In this round he was pushed by M. Cubic 73-75 and R. McDonald 73-75. So the pressure was on for Murray in the second round, but he withstood it and came in with a perfect score 75-75. B grade was taken by S. Horo with a good score of 65 and then 70 for a total of 135-175, C grade was taken by K. Craig with 134-175.

Next was the second State Title of the weekend which was the ATA Single Barrel 50 target in this event there were only two people on maximum and they were M. Alexander and N. Boyle. They were closely chased by R. McDonald and T. Stingel both on 24-25. So it was into the second round with a hard fought battle all the way.

M. Alexander kept his cool and took the trophy from N. Boyle by two targets. B. grade was taken by D. Hilsz 43-50, second place went to S. Horo 42-50. C. grade taken by J. Medhurst 43-50 second J. Vaughan 41-50.

J. Medhurst was now starting to show his true form as he took off the 25 Handicap which was the last event of the weekend. John was shooting off 14 metres and came away with 24-25, second place went to P. Heath after a shoot off. Third place fell to A. Watson after beating B. Higgs. The meterage places were as follows: 11-15 B. Higgs, 16-20 S. Horo, 21-25 M. Cubic.

The prize-giving was held in the clubrooms and presented by President B. Pickard who thanked all our visitors for their support, our prize donors and trapper boys. I would like to thank all our ladies for doing such a marvellous job of the catering and cleaning of the clubhouse all through the weekend.

After the presentations the beer and barbeque was supplied by Newman Gun Club. A special thanks to R. Daniels the President of the East Pilbara Shire for his contribution to the evening. A very successful weekend was enjoyed by all. Hope to see you all again.

HIGH GUN TROPHIES: Overall, M. Alexander; Newman, N. Boyle; Ladies, P. Stingel, Newman; Junior, C. McCoy; Low Gun, T. Bishop.

EDITOR'S MAILBOX

Dear Sir:

While browsing through an old publication of Clay Target shooting News the other day, I happened on an article from Cec Herbert in the January 1983 issue about shooting rules being changed without anyone knowing about them but the chosen few, how the hell do you think we feel about it away up here, or are we so far away that it doesn't matter.

I feel the last straw is the SKEET TIME LIMIT in the May 11th news letter. I presume this is to save time, but I can only see it causing a lot of trouble. I am a slow shooter, and I feel that no-one has the right to tell me to hurry up. We are not all as confident as the hot shots that make these rules, and as Cec said, are we making rules, just for the sake of making rules.

To speed up a Skeet round or rounds, is to have your Squads assembled ready to move to Station 1 as soon as the previous squad is finished. If we allow one minute for each shooter at each station, 8 stations=8 minutes x 5 shooters=40 minutes per round. A round of 20 minutes is 30 seconds for each shooter between and at each station. I ask the rule makers,

where does the 12 seconds come in, the loss of time is not the shooter on the station.

This type of shooting is the same as the old time live bird shooting, where every one shot one bird from one track, or as in today's walk up its a single track or station type of shooting which is comparatively slow compared with D.T.L., where in an average squad shooting the same number of targets, a shot is fired approximately every six seconds, allowing 11½ minutes of shooting and 3½ minutes getting on to and off the track.

Now for a couple of funnies. I went to a bush Charity shoot a couple of weeks ago away in the back blocks of Queensland, and because I dusted hell out of a target, the Referee with the Broad brimmed hat gave me one for it, he said if that target hadn't been made of concrete, I would have broken it. A worried Lady conservationist told me, that if we kept shooting so many Skeet birds, they would soon become an endangered species.

To the "Punjab" keep up the good work at least you are getting some people to write to the mag who otherwise wouldn't.

Regards to all — Ted Patterson.

VICTORIAN COACHING SEMINAR AT MELBOURNE GUN CLUB

• Peter Quire uses video equipment, Coaching Seminar, Melbourne Gun Club.

The Victorian State Coach George Biggs was the co-ordinator of a Coaching Seminar held at the Melbourne Gun Club on Sunday 1st May. While there was a good attendance of 73 it was disappointing that there were only 11 club coaches in attendance.

It also saw the new Assistant State Coach, Harry Brooksby from Warrnambool in attendance. He gave a very good account of some of his methods of coaching in regards to his capacity as the South West Zone Coach. Peter Quire the National Coaching Director outlined the Level 2 Coaching Accreditation and a number of coaches indicated that they were interested in doing the course.

Hit A Moving Target was the topic that top skeet shooter Ian Hale spoke on. He outlined the different methods referred to in this area and the problems associated with shooting with only one eye open. Ian showed that he can not only break a large number of targets in competition but also knows how to pass this on.

George Biggs requested that clubs and club coaches record all of their coaching work done and showed the forms that will be required. This information is vital as it is used in submissions to obtain funds for future coaching and enables better forward planning by the State Coaching Sub Committee.

While some aspects of the day may have disappointed the organizers it is hoped that lessons can be learnt from experience and that better things are to follow.

• North East Zone President, John King, discussing level two coaching with Peter Quire.

EDITORS MAILBOX

Dear Ian,

I wish to express my concern at the obviously declining interest in our chosen sport.

Having read the Presidents and executive committee reports together with accompanying financial statements as contained in April's edition of C.T.S.N., I feel questions must be asked.

With the knowledge of drastically declining "Nationals" profits, fewer registrations and the failure of many shooters to continue their membership after one or two years, surely the executive committee needs to return to grass roots level and establish a workable solution to arrest the drift away from our sport.

I consider the executive committee have lost touch with the realities of shooting as they are at present. The realities are, quite simply, cost of participation and the lack of return for capital outlay.

Registration is high and the return to club level is totally inadequate. Field and Game Association competition is attracting prospective A.C.T.A. members through offering registration fees at half A.C.T.A. rates, cheaper event nomination fees and allowing reloads at Nationals. Disallowing reloads at Nationals is, in itself a backwards step as the under-lying inference is you need money in the pocket to participate.

I, with the assistance of a couple of others have been for a long time, attempting to encourage new members to a small country club, but, as is invariably the case the majority register with the Field and Game Association. As to attendances at our normal monthly shoots, approximately 25 participate whereas two F&G clubs in our immediate area can boast 90 or more.

We are also facing a massive increase in the cost of clay targets and I feel the A.C.T.A. would be much better off going into the target manufacturing business rather than buying offices and computers.

Our association revolves entirely around its members and immediate assistance at club level needs to be given in attracting and retaining new members.

Another hefty rise in shooters registrations to prop up a top heavy organisation and there won't be many names to program into the newly acquired computer.

Yours faithfully,
Maurice Sullivan,
President,
Macarthur Gun Club.

S680 trap & skeet

These exciting new
"Competition" Grade guns
offer many new and
unique features
to the clay target
shooter.

TRAP

Barrels: 29½" (75 cm).
Chokes: Modified and full.
Grip: Features palm swell.
Rib: New 10 mm raised ventilated.
Stock: Regular trap with vent recoil pad.
Receiver: New design with replaceable hinge pins and barrel lugs.
Trigger: New inertia system offering extra short lock time and fine crisp pulls.

SKEET

Barrels: 28" (71 cm).
Chokes: "Special skeet" cone bore wide spread.
Grip: Features palm swell.
Rib: New 10 mm raised ventilated.
Stock: Skeet with solid pad.
Receiver: New design with replaceable hinge pins and barrel lugs.
Trigger: New inertia system offering extra short lock time and fine crisp pulls.

Both models come
complete with this
fine custom gun case.

Make your mark with Winchoke!

Now one gun
can give every
choke combination
you need.

Fixed choke trap guns
are designed for a certain range.

Shoot inside, or outside
that range and your chances
of a hit decrease.

To remain competitive,
every time a shooter improved
and moved back a mark, he
really needed a new gun with different chokes.

But Winchester offers a different suggestion —

interchangeable chokes.

Six different Winchoke tubes:
skeet, improved cylinder, modified,
improved modified, full and extra
full; giving every grade of shooter all
the flexibility needed.

No matter whether you're a
front marker, or back, you can
now get the choke combination
you need — from the one gun!

See the full range of
Winchester Winchoke Over
and Under Shotguns, for trap
and field, at your nearest gun
dealer now. There's one just
right for you.

WINCHESTER
More than a gun. A legend.
