## A.C.T.A. DOPING POLICY

The Executive Committee of the Association have unanimously endorsed the acceptance of the policy of the Australian Olympic Federation in relation to any action to be taken as a result of tests undertaken by the A.O.F. on any athlete registered with the A.C.T.A. Similarly the A.C.T.A. do adopt the policy of the Australian Commonwealth Games Federation in relation to any action to be taken as a result of tests undertaken by the A.C.G.A. on any athlete registered with the A.C.T.A.

It is trusted that clay target shooting is never placed in the situation whereby any person is affected as a result of drug testing by either the A.O.F. or the A.C.G.A. and that the performances of our athletes remain controlled by ability, and not by the use of non-acceptable substances.

## TASSIE NEWS

### 1990 TRAP NATIONALS

Dates: Pre-Nationals — 21-23 March; Program — Details published at a later date; Nationals — 24-30 March.

Shooters please note that the Nationals program will be conducted over seven days and not six as is the usual practice. Monday 26th has been set aside as a lay day to be used to finalise the Double Barrel Championship if necessary. Those shooters not involved may wish to take advantage of the tour organised to visit our local vineyards and sample their wares.

Seven Traps will be used for competition with two practice traps being available throughout the Nationals including the Monday lay day. Black targets will be used.

Venue: Tasmanian Gun Club, Evandale.

Evandale is a small historic town in a rural setting 23 kilometres from the Launceston city centre — travelling time approximately 20 minutes.

The Gun Club grounds are 2 kilometres south of Evandale on the Nile Road and are currently being upgraded to National standard. Substantial off road parking will be available for all competitors.

The T.C.T.A., in conjunction with Dine & Associates and Tourism Tasmania, have put together several holiday packages based around the Nationals, tours — if there is sufficient interest on every day — pre-booking is essential, travel packages by both sea and air, transport to the grounds etc. Full details and booking forms are available from T.C.T.A. — Ms K. Woods, PO Box 82, KINGS MEADOWS, 7249. Phone (003) 44 7916; Dine & Associates, 351 Liverpool St, Hobart, 7000. Phone (002) 34 1424; or from Tourism Tasmania outlets in all states.

Shooters who may wish to take advantage of the daily bus service from Launceston to the Gun Club could be faced with the problem of where to leave their guns and ammunition during the day. The T.C.T.A. is happy to organise on behalf of groups or states the hire and erection of either a tent or caravan for this purpose. If you wish to take advantage of this we do ask that you contact us early. No guarantees can be given for late bookings.

Accommodation in the Launceston area could be limited, to a certain extent, due to the National Polocross Championships being held at the same time so an early booking is recommended. Accommodation bookings are available through Dine & Associates and the Tourism Tasmania outlets.

The T.C.T.A. Nationals Committee has already started preparation of the grounds and is currently upgrading the facilities. The Committee is very enthusiastic and is determined to make the 1990 Nationals a successful event as well as enjoyable for the shooters and their families.

Tasmanian shooters who would like to offer their services to assist the committee during the Nationals or with the working bees are asked to contact the State Secretary, Kaye Woods.

We look forward to having your company in 1990, so

## OLYMPIC DISCIPLINE NATIONALS

## A.C.T.A. PRESIDENTIAL MEDAL 1989

Nominations for this prestigious award are now open and should be forwarded to reach the Executive Director no later than October 31, 1989.

The following guidelines are to be taken into account by the clubs or State Associations intending to lodge a nomination for consideration.

**Presidential Medal:** Awarded to a person for their contribution to the development of the sport.

**Judging Panel:** Management Committee.

Closing Date: October 31, 1989. P.O. Box 800, Glen Waverley, Vic. 3150.

**Note:** The receipt of any nomination does not necessarily relate to the awarding of a Presidential Medal.

Nominations received will be placed before the Management Committee for their consideration and decision.

No correspondence will be entered into regarding any nomination received.

### Previous Recipients:

1980	G. Porter .....	Qld
1981	R.C. Mules .....	S.A.
1981	G.R. Richards .....	W.A.
1981	J.N. Thomas .....	Vic.
1982	R.F. Buchan .....	Vic.
1983	No award	
1984	L.F. Bird .....	N.S.W.
1985	No award	
1986	T. Comerford .....	Qld.
1987	G. Biggs .....	Vic.
1988	R.M. Holtfreter .....	W.A.

## \$500.00 REWARD

My Beretta S04 Trap Gun was stolen from the boot of my car, probably on Saturday 22nd April 1989, during or after the presentations at Geelong Clay Target Club.

As the stock and fore-end were recently replaced to my left hand specifications by Beretta and the whole gun reconditioned, I am most anxious to get it back. The Serial No. is 37176. Having the palm swell on the left hand side of the pistol grip and the left hand cast, makes it reasonably distinctive.

I will pay \$500.00 for information leading to its recovery. IAN R. KNOX  
Telephone (052) 22 1222 (business) or (052) 43 5120 (home)

# PUBLIC LIABILITY POLICY IN THE INTERESTS OF ALL REGISTERED SHOOTERS

The Public Liability Policy that has been arranged for the A.C.T.A. by C.E. Health Casualty & General Insurance Limited is designed to provide specific protection for the Association and its registered members.

The A.C.T.A. Public Liability Insurance Policy protects the Association and its members from being sued for alleged negligence/blame attaching to an incident causing property damage or bodily injury.

If any person is injured in any way where no blame can be attached to the A.C.T.A. and its members, any claims that may be made would not be recognized under the policy conditions as it would be classified as a claim against a policy that the person may have in force on a personal basis or in the case of a registered shooter, a policy arranged for them by the A.C.T.A.

Protection is afforded to the following who, subject to certain conditions, are considered to be members of the A.C.T.A.

1. State Associations
2. Registered Clubs
3. Registered Shooters
4. Voluntary Workers
5. Club Visitors participants and observers
6. Life Members/sponsors

**1. STATE ASSOCIATIONS** — Organising and controlling shooting events in accordance with the rules and regulations of the A.C.T.A.

**2. REGISTERED CLUBS** — (A) Subject to payment of the prescribed affiliation fee as may be decided by the A.C.T.A. from time to time.

(B) Organising and controlling shooting events in accordance with the rules and regulations of the State Association (respective) who are operating under the rules and regulations of the A.C.T.A.

**3. REGISTERED SHOOTERS** — (A) Subject to the payment of the prescribed registration fee as may be decided by the A.C.T.A. from time to time.

(B) Acting in accordance with the rules and regulations of the club (respective) which is operating under the rules and regulations of the State Association and A.C.T.A.

**4. VOLUNTARY WORKERS** — (A) Acting in accordance with the rules and regulations of the club, State or National Association whilst undertaking their voluntary duties.

(B) Provided always that such voluntary workers are registered as members of the Australian Clay Target Association on the master register maintained by the Australian Clay Target Associations with a description of their duties.

Additions to or deletions from this master list are to be notified to the A.C.T.A. office as they are known.

**NOTE:** Voluntary workers to be registered with the A.C.T.A. are to be restricted to those persons likely to assist on a voluntary basis only.

Paid personnel such as trappers, trap mechanics or any other paid staff are subject to the provisions of the workers compensation act and protection must be obtained for them from the appropriate authority.

**5. CLUB VISITORS** — (Participants and Observers)

(A) Must be registered as such (club visitor) on the register to be maintained by each club for that specific purpose.

(B) Must at all times be under the control and supervision of registered A.C.T.A. shooters.

(C) Must be participating in accordance with the rules and regulations of the respective club, State Association and A.C.T.A.

(D) Visitors, other than children who must be under the care of a responsible person, must at all times sign the visitors' book which must be provided by all clubs for that purpose.

(E) In the event of a visitor or visitors to the club negligently causing injury or damage to any person or property, any actions that may be taken would need to be directed towards the person or persons concerned.

**NOTE:** Any organised event for participating visitors, such as school children etc, who are not registered shooters with the A.C.T.A. must first of all have been officially ratified by your club at a constituted meeting and minuted accordingly.

Should this requirement not be complied with then difficulties could and may possibly arise in the event of a claim under the Public Liability Policy.

**6. (A)** Clubs who have life members or similar, where no affiliation fee is paid to either the Club or the A.C.T.A. by reason of their inactivity in the sport at Club and/or A.C.T.A. level are fully protected under the same conditions as would apply to "registered shooters".

(B) Clubs who may have sponsors or the like attending their premises as "Honorary Members" on a more frequent basis than would be seen to be a visitor are fully protected under the same conditions as would apply to registered shooters.

**7.** Clubs conducting events that are outside the rules pertaining to regular competition, which are broadly known as "Novelty Events" are fully protected under the terms and conditions of the A.C.T.A. Public Liability Policy providing that all other conditions relating to the safety etc. have been complied with.

This protection extends to shoots conducted between different shooting disciplines such as a combination of Clay Target and field game.

**8.** Clubs electing to become Incorporated bodies should be able to use the master A.C.T.A. Policy to fulfil the requirements of Incorporation, therefore eliminating the need for any club to maintain a Public Liability Policy in addition to the A.C.T.A. master policy unless cover in excess of \$2,000,000 is required.

Paid employees must at all times be protected under the workers' compensation act.

**9.** Situations arising that may not be covered in this policy summary will be clarified upon request.

The existing policy therefore extends to all persons likely to be on the grounds for a Club, State or National event.

The need for individual Club or State Associations to undertake a policy of their own is eliminated other than they may require cover for an amount in excess of the existing \$2,000,000.

**10.** Cover is extended to include (A) — Visitors attending National State Zone, International Championships are exempt from the requirement to sign a visitors register.

(B) Member to member whilst participating in any event.

(C) Erection, demolition, alterations, additions to buildings including club house and trap houses for the portion of the work undertaken by voluntary workers does not extend to any works carried out or undertaken by contractors or sub-contractors.

(D) Registered shooters involved in coaching or instruction are indemnified.

**11.** All shooting events must be sanctioned under the rules of the National body.

**12. NOTE:** Club shooters, not registered with the A.C.T.A. are not covered under any circumstances other than operating as a voluntary worker at an organised event. This category of shooter-member is solely a club responsibility and insurance cover should be considered at all times as a club expense.

**13. FOR INFORMATION.** Further extensions included within the policy are Member to member, Food and Drink Care, custody and control, Medical and welfare facilities, Tenants' liability, Hoists, cranes and unregistered vehicles, Car Parking, Cross liabilities.

Alan J. Maher, Executive Director.

**14. NOTE:** The summary details as described have been confirmed by the Association's Insurers, C.E. Health Casualty & General Insurance Limited as being an accurate advice to members of the cover contained in the policy document.

## EDITOR'S MAILBOX

Dear Sir,

I would like, through your pages, to congratulate the Wimmera Police Team Members, on the marvellous way they conducted their shoot at the Horsham Clay Target Club on April 30. With approximately 130 shooters in attendance, a more organised shoot I have never before witnessed.

Cliff Mayberry and Rex Denby from Goroke Gun Club are just two of the organisers that really kept things on the move. As one squad was moving off the tracks, the next were moving on. Of course before such a big event a terrific amount of preparations are needed, and I believe Senior Constable Tex Drummond of Goroke and Inspector Neil Phipps of Horsham were mostly responsible for this.

With total trophy value at \$9500, trophies were allotted to 15th place in each grade.

In my twenty years of shooting, I have never before seen such a magnificent array of value trophies. Over the years I have travelled to many clubs to shoot National, Commonwealth and State Titles, but none have come up to this standard.

Hearty congratulations to the boys in blue.

Yours faithfully,

Alf James

**MULTISCALE CHARGE BARS** **POWDER BAFFLE**

**\$65 Post. Incl.**

**ALL METAL UNIVERSAL CHARGE BARS**

**MODEL 'C' — for the MEC 600 Jr, 700 Versamec, Sizemaster 77, MEC 600, 400, 250 and 250 Super Reloaders, and the Texan LT, GT and FW models.**

**MODEL 'D' — for the MEC 650 and Grabber models.**

The Model "C" and Model "D" are fully adjustable charge bars for powder and shot; shot-capacity from ½ oz. to 2¼ oz. and powder-capacity from 12 grs. to 55 grs. They come complete with a powder and shot-chart with 487 powder and shot-settings. Both models are for field and target-loads, and for all gauges.

- ALL METAL construction (made of high precision diecast zinc).
- Definite BOTTOM GUIDES for powder and shot-valves (no floating valves).
- Highly SIMPLIFIED method to read scales and to adjust knobs. In fact, the NEW ADJUSTING METHOD is part and parcel of our U.S. and Can. Pat. It's a cinch.

**\$20 Post. Incl.**

For MEC Shotshell Loaders made of diecast zinc. Install between Powder-Bottle and Charge Bar.

The POWDER BAFFLE provides an even powder density during operation and therefore uniform charges. It is made of diecast zinc and nickel-plated. It is mounted on a reloading machine between the charge bar (standard or universal) and the powder bottle.

# PERAZZI

**The Guns with the latest and up to date technology built into them:**

Perazzi is the innovative gun that has done so much for so many in such a short time (in comparison with other manufacturers) since their introduction that it is obviously the quality gun of the present and very possible the gun of the foreseeable future. It is the gun that amazes shooters (beginners and experienced) with its most effortless speed and ease of handling to give you the scores. That score that makes you a winner — in fact if you take notice it is the gun that is making headlines up front more often most times for the percentage of guns used.

Now analyse this and you must surely convince yourself that value for money your first or next gun must surely be a PERAZZI. Their balance is superb. We have so many of the more popular models in stock that there must surely be a model to suit you. If not, it would only be a telex call away and remember they are easy to shoot and extremely soft on your shoulder.

Also you must surely appreciate the simplicity of its dismantling and reassembling quality system as the innovation of the century and second to none in gun design. If you haven't seen one, ask anyone who has one. He would be as proud to show it to you as he is to own it.

So now think positive — "PERAZZI FROM YOZZI".

**Tony Yozzi Sports,**  
**460 William Street, Perth. 6000.**  
**West Australia.**

SOLE DIRECT factory representative and distributor for Western Australia for PERAZZI FIREARMS — AMMUNITION — Special Shooting Glasses supplied in Miniature Case resembling Perazzi Gun Case with Optic Cleaner included — Saga ammunition — Kromson clay target traps 240V — 12V and standard hand traps. All in stock now.

Also W. Australian importer of fine BENELLI auto and F'GI GAMBA D.B. shotguns.

Latest illustrated coloured catalogues available.

Genuine trade enquiries welcome. All enquiries and orders immediately attended to irrespective of state.

# THE BERETTA A303 TRAP GUN

Ron Forsyth

*The 303 is a well known action which has achieved a lot of market acceptance. The gun's lines are attractive, and it handles well.*

Well seasoned trap shooters will not have too much of a hard time making up their minds about what kind of gun they want to shoot. The obvious favourite is the under and over, with its semi-auto opposition trailing so far behind that there is really no contest.

However, there are lots of ways that the auto has an advantage when viewed against the alternatives. In all cases, it seems to me that the prime measure of a shotgun's usefulness is its handling qualities. If they make the gun alive and responsive in your hands, then the gun is a useful piece for you. If they make it inert and difficult to move, then regardless of decoration and even quality as such, then the gun is not for you.

The Beretta 303 is by now a legendary action on which I don't need to use up space describing laboriously. Suffice it to say it is time tried, and has been used in just about every theatre of operations, and has been found to get the job done reliably for shooters all over the world.

In a trap gun, I personally don't like to see too much muzzle heaviness. I agree that there must be a different distribution of balance in the target gun from what is usually found in a field gun, but it is not so much the case that it has to destroy all the liveliness that a gun should have. And this is a very real possibility in a piece designed for mounting before the target is called for. Some shooters do like a very pronounced forward heaviness, but in many ways it can be an excuse for a manufacturer not to put any effort into striking off the barrel steel in order to get a bit of life into the muzzle end. It is far cheaper not to have to bother.

I was pleasantly surprised with the handling of this gun. It has an ease of pointing that is often absent in cheaper trap guns. Partly this is so because there is only one barrel to contend with. Much of the weight that can slow down a double barrelled trap gun is not a problem here because the second barrel is replaced by the operating mechanism, which is housed in the fore-end. This is significant because it means the weight is closer to being between the hands, and is consequently less hard to shift in the swinging of the gun.

The rib is most suitable for a target gun, being eye catching and suitably matt finished. It is 10 mm in width, and made without any taper. It seems to me to be well defined to the eye, glare free and sharp, offering a good sighting picture.

I found the operation of the gun to be very appropriate for target shooting. In the old days, using a magazine repeater of any kind implied that there'd be a good deal of clunking and banging during the cycling of the action. In this case, the reloading process is carried out with no announcement of its taking place. After the trigger is pulled, there is no indication to the ear at all that the action is operating.

In a word, the gun is sweet to shoot. Recoil is very mild, and muzzle jump is low. This aids second barrel recovery, which is most important in all forms of trap shooting.

In appearance, the gun is pleasing. The receiver is jet black, and is set off by the breech bolt, which will be evident in the accompanying photographs.

The bronze coloured safety catch is easily accessible, and it operates positively. There is a swell to the trigger guard which appears to be designed for use with gloves in cold weather. The action frame, of course, does duty on the well known field gun which comes with the Mobilchokes.

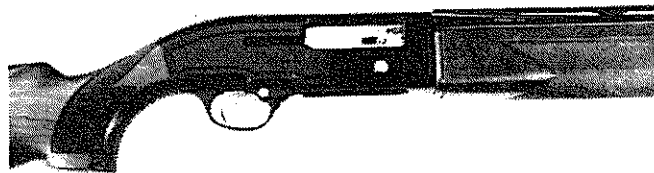

There are differences between the trap and field model 303s, naturally. There is a magazine cut-off facility in the latter, which allows the cartridge in the chamber to be taken out for getting through a fence or replacing with another of different shot size for a special purpose, without disturbing the contents of the magazine. In the trap model, this is not necessary, and so it is not offered. This is a way of saving money, avoiding building in a facility which would have no use.

This leaves the manufacturer free to spend money in providing the things that the trap gun does need — such as the monte carlo stock, which requires more wood than the lower field stock.

The wood in the test gun is well coloured and with visible grain. One of the gun's features is the insertion of a recoil spring inside the stock. This is a major factor in reducing felt recoil during firing. The spring damps vibration of all sorts, not just recoil, but the kind that comes from the moving parts that fly around at quite some speed in any repeating firearm.

Considering the relatively light weight of what is after all a trap gun, the combination of recoil spring and gas operated action certainly managed to make the lightness to be no disadvantage at all. There is a slim ventilated recoil pad fitted, with a black spacer, and this aids in making the gun less likely to slip from the shoulder.

Still on the matter of wood, the chequering is competent and most functional, on both the pistol grip and the fore-end. In the case of the latter, it wraps itself right around so that in whatever way the shooter chooses to grasp it, there is good contact with a non-slip surface.

*Wood was well figured, and the finish was attractive. The pistol grip was fully curved.*

I found the pistol grip to be fairly pronounced in its curve, which is in keeping with the tradition Beretta has set from many decades back with its trap guns. The idea is that the gun comes set up so that there are as many checks as the maker can engineer against the shooter adopting a different position in his mounting of the gun. In the case of the trap gun, it is particularly important that rhythm be adopted and that the shooter always does exactly the same thing — that is what the long breaks are all about. The sharper angle to the pistol grip helps to lock in the hand, and make it fall to the same position on the trigger each time the gun is fired. This in turn makes for better trigger control.

Stock length is fourteen and a quarter inches, which is not enormous, especially considering it includes a recoil pad already fitted as standard. Drop at comb is one and three eighth inches, and at heel about the same, which is a pretty normal measurement for a down the line gun.

Mean point of impact accordingly was about 20 centimetres above the point of aim, a figure that seems to me to be most appropriate for a trap gun. Any adjustment to that can be easily made by the owner who feels like fine tuning it. There is plenty of wood on the stock to play with, and the comb could easily be relieved to get the pattern either up or down, in accordance with personal preference. In addition to the usual methods of removing a little wood in the appropriate places, the 303 offers a system where the stock drop may be adjusted by means of spacers which are inserted internally, along the stock bolt. This is an excellent idea, and allows the shooter to make his first adjustments without permanent alteration to the wood of the stock.

There are good, easily followed photographs in the manual that accompanies the gun which show all the routine operating procedures, including the fitting of such spacers.

The fore-end is not as bulky as those of many gas operated guns. Personally, I found this to be a good thing. I believe that the higher the fore-end sits in the hand, the harder it is to point instinctively. For a gas operated semi-auto, this is a small and relatively slim one.

The metal on the gun had the Beretta touch all over. The bore was spotless, with no traces of machining, and all the finishing was up to a good standard. The barrel blacking was lustrous and well done.

Doing a little measuring around about, I find thirty thou. of choke. The barrel is nominally an improved modified. The choke was pretty standard in construction, covering about six centimetres in length and with about the last two of that being made up of parallel.

Minimum barrel wall thickness was .054", which is pretty hefty. This is not a barrel that will bend easily.

The barrel length is a little under 73 centimetres, or twenty-eight and three quarter inches, which of course adds to the receiver length to make a long sighting plane and to keep the gun swinging steadily.

Tested with Winchester 325 sevens, the gun returned very nearly patterns to nominal specifications — 69% in fact (where 65% is nominal improved modified and 70% is nominal full, though most full chokes these days run a lot tighter than that).

There is no complaining about this percentage. It's as close to its nominal perimeters as you could hope for. The distribution of the patterns was exactly normal, on the five point scale of poor, normal, good, and average. Any handloader prepared to put in a bit of work would soon make loads that a choke of this dimension could get up into the good bracket. If I were using this gun myself, my first move would be to try eights, to see if the pattern would come down a bit in density.

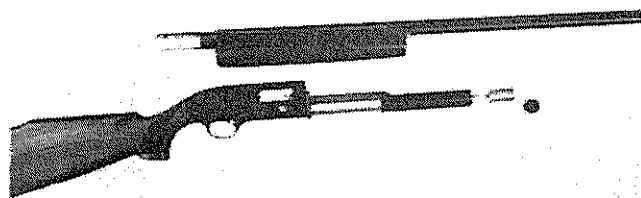

The serious trap shooter with a single barrelled gun is at far less of a disadvantage than some people suppose. All he has to do to gain the same results as a shooter of a double gun with its two chokes is to make sure that he finds and uses two different loads, the first of which opens the patterns, and the second of which tightens them, in accordance with the range at which he normally shoots his targets.

He then has the great advantage — the lowered recoil. Far more shooters suffer from flinches than ever realize it, I'm afraid. The gun that doesn't ever inflict pain is about the best way to avoid developing one, too.

All of which gets me to something of a conclusion. There may be a number of sensible uses for this gun, but one of them would surely be as a club gun for the beginning trapshooter who is just being introduced to the sport.

Many wives and teenagers as we all know fire their first shots at clays down the line. It was so in my case, and it might have been in yours, too. The beginner doesn't need to have the tripe kicked out of him — shooting is supposed to be fun.

By the same token, lifting a gun that is too heavy is not a lot of joy, either, and the gas operated semi-auto offers the best of two worlds here, being light enough to be handled

*Take down of the gun was simple, effected by removing the knurled bolt at the front of the fore-end.*

more easily than many of the more experienced trap shooters' guns, and undoubtedly being pleasant to shoot at the same time.

The stock being as it is on the shorter side gives me the impression that just conceivably Beretta have not been unaware of the possibility that this is the way the gun might go.

As yet another pointer in this direction, it is by no means expensive. It could easily do duty as a first trap gun, or a casual shooter's gun, if not as the club's, designed for loan. You could certainly shoot it all day and be none the sorer for it, and that in itself is a big plus.

By and large, I think this is good value for money. Very tidily machined, and with the high quality steel that Beretta is famous for, there is no doubt that the gun would have a very long life expectancy. It balances well, it operates smoothly, and its smooth swing and generally pleasant feel belie its modest price tag.

This article is copyright Ron Forsyth and first appeared in Australian Shooters Journal of April, 1989. Used with permission.

## VALE

**Richard Toshack**

It is with great sadness that we notify of the untimely passing of Cowra shooter Dick Toshack on June 2, 1989, aged 56.

Dick was one of the foundation members of the Cowra Gun Club and was still a very active shooter. Dick was well respected as a coach and was the central zone coach for the past six years. He never failed to offer assistance to shooters new or old. He and his wife Gwen travelled extensively, making many friends through shooting.

The committee and members of both the Cowra Gun Club and the Central Zone extend their deepest sympathy to Gwen at this time.

# THE WAY IT WAS AND SHOOTING TIPS FROM THE OLD MASTER

By George Biggs  
A.C.T.A. Historian

Recently, while searching through some of our history material I came across an old catalogue that had been printed by Donald Mackintosh. This had been written during the early days of his business as one of Australia's first specialised gun shops. At this stage of his career Donald Mackintosh had returned from his world travels where he competed in competitions throughout Europe and the U.K.

He first visited England in 1896 where he spent one year returning again in 1900 to spend the next nine years. "Donald" worthily represented Australia in European and British shooting circles, gaining much prominence as a successful competitor in the most important shooting events in the old world.

In the year 1900 Australia sent three male competitors to the Paris Games, one of them was Donald Mackintosh, who at that time was classed as one of the best shots in the world. In Paris he won gold medals for game and live bird shooting.

On the home front "Donald" was always ready to help his fellow shooters. I vaguely remember having the pleasure of first meeting him when I was a young fellow in my mid teens. At this time "Donald" had established his gun shop business in Bourke St, Melbourne and helping him as his Manager was an up and coming shooter named Horrace James. "Horrie" as he was known, went on to become a leading authority on firearms and how they should be handled. He was also responsible, together with Donald Mackintosh and the backing of I.C.I. Ammunition Co., in establishing the Nobel Clay Target Club; the mother club of all clay target shooting clubs — first operating in a large quarry at West Footscray. Later I.C.I. took a greater interest in the club and relocated it on ground level.

At a later date the Victorian Clay Target Association came into being under the secretary-ship of a retired army man, Colonel C.W. Thompson. This Association, although not very strong, was nevertheless the origin of a properly organised and correctly administered Clay Pigeon Shooting Association in Australia. Chairman of the day was Mr H.G. James. At a meeting of the Victorian Clay Target Association in the mid 1930s Colonel Thompson relinquished his position and Mr Bill McCullough was appointed as Secretary/Treasurer/Editor, a position Bill was to hold for the following 30 years. "Bill" was proud of the fact that during his time in office he was never opposed either officially or unofficially within the knowledge of those who really know. Shooter registration at that time was two shillings and six pence, i.e. 25 cents. Bill acted in an honorary capacity until well into the late 1940s.

## SHOOTING TIPS FROM DONALD MACKINTOSH

Cartridges are made to fit the gun, not the gun to fit the cartridge. A 2½ inch case won't fit a gun chambered for 2½ inch cases. If used, it injures the gun's action. But a 2½ inch case can be used with safety in long chambers.

The best shooting results are obtained from good cartridges, which mean good caps, good powder, good combination of wads, good shot, uniformity of pressure, and correct turnover.

Patience and practice are necessary to success. The novice may begin at sitting game. As he progresses he must endeavour to kill while game is running or flying. The eye and hand soon get to work in unison, though the observations of results of every shot helps towards the correction of errors.

Coolness is of importance. The gun should be carried while approaching game to enable its quick adjustment to

the shoulder, but never walk with finger on the trigger. Keep both eyes wide when aiming. This, in some cases, needs patience, but the results will amply reward you.

Shoot at game going from you a little above it. If crossing to right or left, a little ahead of it, but more ahead the farther the game may be from you. If rising, shoot a little above the object, according to distance and speed of flight. The wind will often aid the flight of birds; hence the distance ahead must be in accordance with the speed. If game is coming towards you, flying low, shoot slightly under it.

Self-consciousness is often the bane of the competitor on nearing the scene of competition. This attacks nearly everyone — the seasoned shooter as well as the novice. It is a species of stage fright. Now, to correct this, remember the words of the song — "You are not the only pebble on the beach". Hence you need not think the eyes of the world are on you. Go out to the mark determined to kill, and you'll do it — ten to one. The other competitors are thinking ever so much more of themselves and their chances of winning than they are of you. Don't forget this.

Hold the gun with the left hand grasping the barrels well forward, with elbow slightly bent, equally firm or loose, with both hands, but I recommend a firm grip of the weapon.

A "miss" is no disgrace, but try not to make one too often.

In sweep shooting, it is sometimes well to let discretion be the better part of valour. Thus: An invitation to "divide" is always worth consideration. Obstinacy in that direction sometimes means loss of a share in a good prize, and mayhap a good friend. In my many engagements throughout the world my refusals to "divide" can be counted on the fingers of one hand, but those were by the ill-timed advice of friends.

You must acquire method in shooting at the traps. There are occasions when slow, deliberate shooting is best — say, on a calm day, when birds are slow. But on windy days, and when birds are strong in flight, a quicker method is needed, even "snapping" at the fall of the trap, giving no "run" to the bird. Again, a middle course is sometimes required.

The range of a 12-bore gun is limited. A kill can be made by a fluke at 80 to 100 yards. To expect this as a general rule is too much. The good killing range will be found not to exceed 50 yards. This verdict is the result of my long experience in shooting, and answers an oft-asked question.

Always carry your gun "safe". Keep muzzle pointing towards the ground, or in the air. Do not get through or over a fence with a loaded gun in your hands; and do not stand a loaded gun down, to be picked up again later on. Whenever you place a gun down, whether for a brief or long period, be sure to extract any cartridge that may be in it before doing so.

Important factors towards success in matches at the traps are the "bend" and "balance" of your gun. A gun that points, easily and naturally, in the direction you look, is the gun you must have to shoot straight, even at stationary objects. At birds on the wing, now and then going like "greased lightning", it is absolutely essential. If your gun does not possess these qualities, your chance is hopeless.

There are a variety of aims. Each is necessary on the particular kind of bird aimed at. The principal are: (1) the snap; (2) the snap, with lead; (3) the "hold on"; (4) the "hold

on", with lead.

To use each and all in their proper place, one must be in perfect "form". Such form is necessary in order to use a second barrel well and effectively; a perfect shooting gun and perfect cartridge are also needed. This combination, with a good nerve, will see you safely through, no matter what company you are in.

The use of the expert clay pigeon trap, if you get the right kind, are excellent for practice. I practised with them twenty years ago, and could get in form by careful and regular practice. I stock them, also the birds.

The distance at which a man in form kills a good average bird rising from the trap is, say, three to four yards, and a slow bird, say 2 yards. Snap shots would reduce these figures by a yard, but snap shooting is not so reliable, as the snapshots gun is moving at too great a pace in comparison to the bird; whereas the hold on keeps with the flight of the bird. Most birds lowering in flight, especially down wind, are increasing in pace, which is simpler to notice than to allow for correctly. To allow for it you must increase your swing and lead.

I am often asked by men who love the gun, and who follow the sport of shooting — What is my chance of success were I to go to England and the Continent to shoot in competitions, as you did? Are our boys here, as far as your experience allows you to judge, equal, on the average, to the shooters of the old world?

In most of the leading Gun Clubs shooting is held an important sport. In Paris the young King of Spain, Alfonso, frequently competes at the shoots, and he is no mean shot.

To make the rounds of the important clubs, a shooter will visit the following cities: Paris, London, Monte Carlo, Florence, Milan, Genoa, Rome, Venice, Turin, Naples, Brussels, Ostend, Aix-les-Bains, Spa, Namur, Lyons, Vichy, Bordeaux, Madrid, Vienna, Budapest, Moscow and St. Petersburg.

I always used cartridges of my own loading. I procured supplies of powder, etc. in bulk from England, and with the knowledge, experience and study of years, produced most satisfactory results.

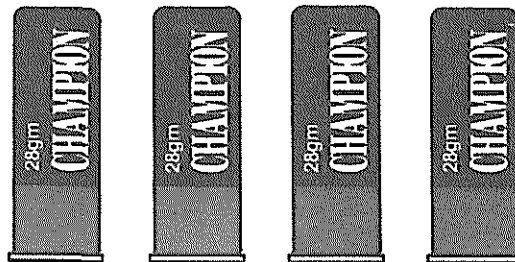

I had fully determined that when I should have completed my shooting tour abroad I would return to Australia and devote myself to importing and dealing in Guns, etc. and for that reason made a point of personally visiting the factories of the world's leading gunmakers, as those of Jas. Purdy and Sons, W.W. Greener, William Cashmore, Chas. Boswell, etc. I inspected the works of Eley Bros., Kynoch and Co., Curtis and Harvey, and many others. I was enabled to make terms which gave me distinct advantages to offer to Australians. I must point out that being a son of the soil of Australia, I kept well in mind the needs of Australia's sporting agricultural population. To that end I made careful selection of arms

which I knew would be suitable for farmers and the general country sportsman, as well as for the squatter and trap-shooter. I shall always be pleased to give my expert assistance to all, no matter what the extent of the transaction may be.

My eyes are on the fine shooting of some promising Australians, whom I shall be glad to assist with hints and advice if ever they decide to take advantage of their skill, as they should do, and make the tour of Europe, to compete at the leading clubs.

I want to say "right here", as the Yankees put it, that I do not think it possible to travel the world over and meet with a better average of good shots than is to be found in Australia, both in the field and in the traps. Before going abroad I had had a long experience, shooting all over Victoria and New South Wales for more than ten years, both at game and in prize shooting. Up to then, the general excellence of men I met was not so remarkable to me as it became after I had met shooters from all over the world, and got to comparing them with my fellow countrymen. It was then I was able to pronounce in favour of Australians.

Of course, there are fine opportunities for "our boys" to get practice in Australia, and, again, they lead a simpler life, much out of doors, keenly interested in athletics. Access to game is easy, there being no restrictions on free shooting, as abroad. Hence there are opportunities and conditions which conduce towards aiding Australians to reach a high plane of excellence as shots. It was with great pride that I contrasted our shooters with those from other parts of the world.

As to the chances our shots have in open competition with those in England and Europe, I know men — many of them — who could go to those countries and hold their own, and "a bit more", with the best the world can produce.

#### **PIGEON SHOOTING AT MONTE CARLO AND ELSEWHERE**

A few notes about the famous Gun Clubs of Europe will interest sportsmen. Monte Carlo deserves pride of place for completeness of its appointments. It has a palatial grand stand, on which the club, two years ago, spent £3000 in improvements alone. The comfort of members is assured by a staff of from thirty to forty attendants, who are always on duty, and whose sole aim seems to be the pleasure of members and visitors.

On Grand Prix day the elite of Europe may be found on the stand. The ladies are there in throngs, attired in exquisite costumes, taking great interest in the event.

Wagering on the final result is, at times, very heavy, which tends towards testing the nerve of the most seasoned shooter. I remember one gentleman, an Australian, who stood to win £2000 in one wager, and he lost it by but one bird. He had backed himself at good odds to win straight out. The betting was often very exciting. On one occasion a young Englishman chose to plunge against my gun. He took fourteen consecutive wagers at £700 to £100 that there would be no kill. Fourteen birds were shot, and he lost £1400.

## **MARYBOROUGH TIT BITS, QLD.**

Sunday morning, 2nd April. Phones were running hot but the rain was falling, so the discussion at Hervey Bay not to go to Bundy, was made. Glad to hear that three Maryborough shooters did go up and was a good day after all. No other news.

Ken Greensill and Allen Harris have to battle it out in B Grade now, best of luck fellows.

Our local national shooters have returned from Echuca without any scalps, but sounds like they had a good time. Once again our biggest shoot went by and if you were not a shooter, you wouldn't know it happened; no TV, no radio, just a few lines in the paper. Well, that's how it was in South East Queensland. Hope you had better coverage.

Gympie, 9th April. Congratulations to Harry Walker for shooting 9/10 in the D/R shoot off to win the event and two others for the day. The C Grade H/G to D. Gardner, B Grade H/G to G. Foster and the A Grade H/G to Bill Stolberg. Barry Stolberg won a meat tray on one event and won the raffle of fruit and vegies. What do you reckon Wal? Guess who drew the \$150 jackpot and blew it? Yep, you guessed it! Thanks for a good day and to the lady with the eats.

Maryborough, 23rd April. There are some shooters that shoot in all conditions, and thanks to fifteen shooters who made our shoot possible in heavy rain. Shooters from Bundy and Gympie — thanks for coming to the Jim Kinghorn Memorial Day. The shooter to take out the Jim Kinghorn trophy was Dick Osbourne 25/25 using his waterproof, self pointing, automatic firing U & O. Good shooting Dick, who also took B Grade events 1 & 2. Other honours to R. Rehbein H/G and events 1.2.3.4., H. Walker F/M H/G and events 1 & 2, P. Shaw events 1 & 3, G. Sergiacomi and T. Millman event 4. Hope it is fine for the next shoot.

Till next time, see you at the shoots.

# WARATAH STATE NOTES

## DOES YOUR CLUB HAVE A NEW SECRETARY?

About this time of the year, most of our Clubs have their Annual General Meetings — and most have a change of Secretary. Would all clubs please ensure that they advise (a) A.C.T.A. (b) N.S.W.C.T.A. and (c) their respective Zone Secretary, in writing, of any changes in office bearers.

## FROM THE CENTRAL ZONE:

The Cowra Gun Club are having a "NEW TRAP FUND RAISING SHOOT". This will be on SATURDAY, 15th JULY, commencing at 1.00pm. Everyone is welcome and all proceeds will go towards the purchase of a new Trap. Give them your support.

Also from that area is a report from Noel Rodgers that the Kenworth Club held another of their very popular Charity Shoots recently. Some 52 shooters attended from Orange, Dubbo, Cowra, Canowindra, West Wyalong and Forbes just to name a few. All trophies were donated by Austin Burke and Peter Keough of Dubbo and \$1,200 was raised for Cancer Research. The Overall High Gun winner on the day was Robert Dale. The Kenworth Club only shoots three times a year and all shoots are for charity — a truly great effort. Keep up the good work Noel.

## FROM THE NORTHERN ZONE:

For those of you looking for something a little different — Tamworth are holding another Sporting Clays Shoot on Sunday 16th July, starting at 9.00am. For those wanting to get the feel of the Moore Creek simulated field range, practice will be available from 1.00pm on the Saturday. More information from Club President, Col Barton (067) 67 0270. Skeet shooters please note — for the month of July only — the Tamworth monthly skeet shoot will be held on SATURDAY 15th from 12.30pm — refer to your Blue Books.

The Coffs Harbour Club postponed the staging of the Zone Mixed Targets Championship from 10th June. This event will now be conducted on 12th August — make a notation in your Blue Books.

## FROM THE RIVERINA ZONE:

All you keen Skeet shooters heading off to the State Carnival in Wagga (see advert. this issue) and are planning on camping on the grounds, the fee will be \$10.00 per site — payable to the Club.

I understand that the Riverina Zone have a new Zone President and Secretary, but I have not been notified at the time of preparing this report — next issue.

An early reminder of the next Zone Coaching weekend — 21st/22nd October at the Corowa Club. Please support these coaching weekends, a lot of time and effort goes into arranging them and conducting them.

As reported in last month's News, the Narrandera Club hosted the Zone Trap Carnival with some 70 shooters attending. Some of the major results were: Zone Double Barrel and Point Score Championships and the Overall "Winchester" High Gun was won by R. Ehlers from the Albury club, Barney Rooke won the Zone Single Barrel. The Zone Club Teams 5 man competition, shot in conjunction with the Double Barrel event was won for the second year running by the Leeton Team of T. Salafia, A. Pionne, S. Guest, S. Papasidero and C. Salaria. All in all, a great shoot.

## FROM THE SOUTHERN ZONE:

The Zone Trap Carnival set down for the Sydney/Marconi Complex on the 24th September WILL NOW BE SUNDAY, 17th SEPTEMBER — please note this important date change.

As reported by the Canberra Club, the Zone Skeet

Carnival was a great success, despite — quote — "typically English weather" — grey skies with drizzle and rain patches. The Woden Championship was won by Reg Clarke with 49/50, Steve Balogh took out the Zone Night Skeet Championship with 45/50.

The second day of the Carnival had the 100 target Zone Skeet Championship and Team elimination. The overall winner of the event was Paul Kouroupis with 97/100. He also won the overall high gun trophy.

## FROM THE WESTERN ZONE:

Betty Ireland from the Pooncarie Club advises of a change to the annual trap shoot. In the Blue Book it is set down for the 5th August — however to avoid clashing with neighbouring clubs in Victoria, they will be conducting the shoot on 19th AUGUST. The Club is planning plenty of celebrations for their Anniversary.

Publicity Officer for the Narrabri Club, Robyn Faber, advises all is coming together for the staging of the Western Zone Trap Carnival on 22nd and 23rd July. The program will comprise eight events totalling 205 targets and they have \$3,000 in trophies being offered. Local business houses have been most generous with their donations, allowing the Club to increase their trophy values.

Narrabri shooters also figured prominently at the recent Tally Ho Cup shoot at Gunnedah, Ross McPherson taking AA Grade in one event and also the overall high gun. Mark McInnes staged a strong battle with Col Burt in the second event, before Col's second barrel really worked and he finished on 232/232 to Mark's 231/232 — a great shoot off.

Shooters intending to attend the Carnival at Narrabri can phone Linda McPherson on 96 8266 for accommodation bookings.

## THE TALLY HO CUP:

Each year the Boggabri/Gunnedah Gun Club hold this event at their May Trap Shoot. Each team comprises five shooters, and the event is 30 targets point score from 18 metres. This year, those "Mountain Men" from Guyra — Ray Hammond, Roger Vidal, Doug Ellis and someone called Mick Blenman — and one outsider — John Farrell, made a sweeping raid and claimed their first victory in this prestigious event. The only problem now is getting them to bring the Cup back for the re-match next year! Sorry Mick, but Tamworth might just catch you next year.

## QUOTE OF THE MONTH:

While having the rules explained regarding 1 oz loads for all U.I.T. events, one was heard to say: "Do they pay you for them?" — when told a scrutineer can take a sample shell to carry out a weight test. No, I'm sorry to say — not usually!

## LATE NEWS:

It gives me great pleasure to advise that the Premier of N.S.W., Hon. Nick Greiner, MP, has accepted our invitation to become Patron of the N.S.W.C.T.A. Mr Greiner has replied with a very nice letter in which he encourages our continued safety record and responsibility as gun owners and users.

Good shooting, and more importantly — have fun and enjoy yourselves.

Jenny Burt  
N.S.W.C.T.A.

## CORRECTION

Apologies are made to those concerned in regard to an error made in the A Grade third placing of the National Double Barrel Championship. The placegetter is in fact Shane Yates with a score of 143/144.

# LETTER TO THE EDITOR

Dear Alan,

Further to our telephone discussion yesterday I am delighted to be able to confirm that the Australian Olympic and Commonwealth Games shooting fraternity has yet another world record holder.

On June 2, 1989 prone smallbore rifle shooter Barry Sturgess from Bundaberg, Queensland won the World Cup match conducted in Munich, West Germany. Barry beat a top international field of some 95 shooters. His winning score of 702.2 established a new world record for the English match (men's smallbore prone rifle). Barry also established a new world record score for the ten shot final of 103.2.

Barry has been selected by the Australian Smallbore and Air Rifle Association to compete in the XIV Commonwealth Games to be held in Auckland next year and in Europe as part of his pre-training program.

Barry is the third Australian Smallbore Rifle Shooter to have won a prestigious world cup event. Those who have achieved this distinction previously are Alan Smith in Zurich in 1985 and Don Brook in Munich in 1988.

Regards,

David MacFarlane  
Deputy Chairman

*\*On behalf of all shooters we extend our congratulations to Barry Sturgess for his outstanding achievement which benefited the sport as a whole in the eyes of the shooting world.*

• Finalists in the Jack Edgell Trophy. Back Row: T. Higgins, B. Jackson, J. Currans, G. Neill, T. Kitto, G. Kilmartin, G. Currans. Middle Row: A. Howison, B. Fitzalan, K. Jeffery, D. Osbourn. Front Row: Winner Bayden Powell, J. Edgell — Trophy Donor.

• Jack Edgell presenting Bayden Powell, winner of the prestigious Jack Edgell Trophy.

# BROKEN HILL GUN CLUB

The recent two day open shoot conducted by the Broken Hill Gun Club was held on Saturday 13 and Sunday 14 May, 1989.

Some 120 shooters took part in the two day shoot with competitors travelling from as far afield as Melbourne, West Wyalong, Sydney and Adelaide. One notable contribution was the attendance of one of Australia's 1988 Seoul Games representatives in Russell Mark who gave a splendid display in winning the third event of the shoot and breaking 296 clays to clinch the West Darling Double Barrel Championship. Past and present National Champions also attended to help add excellent competition to all shooters. Full result details are as follows:

## 1. WEST DARLING HANDICAP:

The West Darling Handicap was conducted over 20 targets and three metreage groups. Local shooters gained placings with Len Gray taking out the 11-15 metre group from Merv Peetz. Reg Pederganana took out the Veterans section.

RESULTS: 21 to 25 metre group — 1st: R. Cugley 20/20; 2nd: R. Godfrey 19/20; 16 to 20 metre group — 1st: G.J. Madgziarz 33/33; 2nd: R. Allen 32/33; 11 to 15 metre group — 1st: L. Gray 30/30; 2nd: M. Peetz 29/30; Lady Winner: L. Cottell 20/20; Veteran Winner: R. Pederganana 28/30; Junior Winner: M. Howden 19/20.

## 2. WEST DARLING GIFT:

The West Darling Gift was conducted over 25 targets double barrel with a portable colour T.V. being first in each grade. Again, local shooters figured in the placings. Club stalwart Bruce Cook added another T.V. to his collection by winning the B Grade section. Other local shooters to gain placings were Ross Walsh in AA Grade, Wayne Johnston in A Grade and Len Gray in C Grade.

RESULTS: AA Grade — 1st: G. Hipwell 243/243; 2nd: S. Atkins 242/243; 3rd: R. Walsh 226/227; A Grade — 1st: L. Knight 86/86; 2nd: W. Johnston 85/86; 3rd: P. Tassone 64/65; B Grade — 1st: B. Cook 79/79; 2nd: M. Howden 78/79; 3rd: R. Dale 38/39; C Grade — 1st: J. Wickham 25/25; 2nd: V. Caristo 36/37; 3rd: L. Gray 35/37; Lady Winner — L. Cottell 30/31; Veteran Winner — C. Keith 25/25; Junior Winner — M. Howden 25/25.

## 3. WEST DARLING DOUBLE BARREL CHAMPIONSHIP:

Local junior shooter David Lemmich took out the junior trophy in this event after a shoot off, with Jamie Peetz gaining a placing in the C Grade section.

Russell Mark from Melbourne showed his vast experience with a score of 296/296 to take the AA trophy after a shoot off with L. Curtis. Russell represented Australia at the 1988 Seoul Olympic Games and is a tremendous ambassador for the sport.

RESULTS: AA Grade — 1st: R. Mark 296/296; 2nd: L. Curtis 295/296; A Grade — 1st: L. Knight 148/148; 2nd: B. Doyle 147/148; B Grade — 1st: B. Jenkins 51/51; 2nd: R. Dale 40/41; C Grade — 1st: J. Wickham 24/25; 2nd: J. Peetz; Lady — F. Burton 24/25; Veteran — B.H. Jenkins 25/25; Junior — D. Lemmich 33/35.

## 4. SOUTH AUST. STATE NIGHT SINGLE BARREL CHAMP.

Len Gray again took part in the trophy gathering with a 2nd in C Grade and a score that was extremely good considering that quite a few well known shooters 'had a fall' when the light went out. Overall, newcomer to the club, Greg Hipwell 'outshone' all others with a fine 49/50 to take the red sash.

RESULTS: AA Grade — 1st: G. Hipwell 49/50; 2nd: R. Mark 48/50; A Grade — 1st: P. Tassone 47/51; 2nd: W. Powell 46/51; B Grade — 1st: M. Howden 47/50; 2nd: B. Knight 46/50; C Grade — 1st: M. Sherger 46/50; 2nd: L. Gray 45/50; Lady — F. Burton 37/50; Veteran — C. Keith 41/50; Junior — M. Howden 47/50.

## 5. GEORGE & NELL HOSKINS MEMORIAL POINT

## SCORE CHAMPIONSHIP:

Greg Hipwell again the honours in the event that probably has more recognition than most as the past executive of the club, George and Nell Hoskins had been remarkably well known and respected participants and competitors in the sport of clay target shooting. This annual event attracts the interest that is deserving of such a keenly sought after trophy.

RESULTS: AA Grade and Overall — Greg Hipwell 93/93; 2nd: R. Cugley 92/93; A Grade — 1st: L. Knight; 2nd: P. Scott; B Grade — 1st: R. Dale 75/75; 2nd: G. Circosta 74/75; C Grade — 1st: M. Peetz 73/75; 2nd: J. Wickham 68/75; Ladies — L. Cottell 71/75; Veteran — J. Blythman 74/75; Junior — D. Lemmich 71/75.

As a passing thought, Merv Peetz still claims that he had to 'work' harder than he ever has, to earn his first sash. Congrats Merv.

## 6. THE BROKEN HILL GIFT

With a microwave oven up for grabs in each grade, again the competition was hard and the battle fought between Russell Mark and Greg Hipwell over the two days saw-sawed again, with Russell coming out on top in this event. Local lady shooter, Tracey Gray is now the owner of a microwave oven for her fine 25/25 in C Grade. Junior competitor David Lemmich also collected another junior trophy.

RESULTS: AA Grade — 1st: R. Mark 107/107; 2nd: G. Hipwell 106/107; 3rd: I. Holschier 92/93; A Grade — 1st: I. Headon 81/81; 2nd: R. Howden 80/81; 3rd: R. Scott 73/74; B Grade — 1st: B.H. Jenkins 39/30; 2nd: L. Cottell 38/39; 3rd: G. Circosta 37/38; C Grade — 1st: T. Gray 25/25; 2nd: G. Pritchard 29/30; 3rd: M. Atalia 28/30; Lady — T. Cottell; Veteran — B.H. Jenkins 25/25; Junior — D. Lemmich 25/25.

## 7. WEST DARLING SINGLE BARREL CHAMPIONSHIP:

The last event of the two days put the icing on the cake for Greg Hipwell with another fine display of shooting. Greg's 26/26 was proof of his determination to charge to the overall trophy lists and the eventual High Gun.

RESULTS: AA Grade/Overall — 1st: G. Hipwell 26/26; 2nd: R. Cugley 24/25; A Grade — 1st: G. Thompson 25/26; 2nd: W. Johnston 24/25; B Grade — 1st: L. Cottell 24/25; 2nd: G. Magdziarz 26/28; C Grade — 1st: T. Hudson 28/33; 2nd: L. Gray 27/33; Lady — L. Cottell; Veteran — C. Keith 22/25; Junior — M. Howden.

There were two teams events conducted over the weekend with the Willyama Shield on the handicap and the McKean Shield on the Double Barrel event on Sunday. Broken Hill showed their spirit with a fine win on the handicap and team members Merv Peetz, Tracy Gray, Len Gray, David Lemmich and Wayne Johnston shared the spoils. Echuca team members S. Atkins, Ian Holschier, Richard Allen, Keith Bruns and Clive Keith took out another hotly contested perpetual trophy.

The overall High Gun for the two days went to a shooter who proved his determination with a tremendous score of 193/195, Greg Hipwell. Comments from fellow shooters heaped praise on an effort that would do any competitor proud and Greg was a very worthy recipient. Lyn Cottell was victorious as the Ladies High Gun winner, with a score of 187/195. In the veterans section, Clive Keith took the honours with a final tally of 185/195. Local junior, David Lemmich held off the competition with 175/195 to claim the Junior High Gun.

Without the many and varied sponsors the 120 shooters who attended over the two days, would perhaps seem to merely compete for their chosen sport. However, thanks to the generous support of local business houses and the tireless effort put in by club members, the two day shoot was again a success. On behalf of the committee the Broken Hill Gun Club would like to take this opportunity to thank sincerely the following generous supporters:

Big 'W' Broken Hill — Readymix — Silver City Guns and Ammo — Fuller Firearms — The Hoskins Family — Geoffrey and Rhonda Johnston — The Barrier Social Democratic Club — Mr Jack Edgell — Mrs Gray — Nicholls Printers — Steve Holmes Steel Fabrication — Silver City Earth Movers — Kolinaos Paint Supplies — Mr W. Freeman — Mr J. Manning.

To those club supporters and members, there are too many to thank, without your tireless effort, those sportsmen and women would leave Broken Hill as another shoot, but from the comments and praise heaped upon your club, as Secretary, I thank you all.

D.W. Morton  
Secretary

## BERETTA SUPPORT CANCER RESEARCH

Gardone Valtrompia (Brescia), Italy. The chief executives of the world's oldest industrial dynasty, Fabbrica d'Armi P. Beretta, S.p.A., and the world's largest company, General Motors, met here today (May 25, 1989) to sign an agreement settling a trademark lawsuit and make a contribution to cancer research.

Pier Giuseppe Beretta, chairman of Beretta, the five-centuries-old firearms manufacturer, accepted a \$500,000 donation from Roger B. Smith, chairman of General Motors, the leading international automobile maker. The General Motors contribution goes to the Beretta Foundation for Cancer Research and Treatment.

Concurrently, the Beretta company granted General Motors rights to use its name and trademark for the popular Chevrolet automobile now sold worldwide.

Symbolising the agreement, which settles a suit initiated by the Italian company after GM's Chevrolet division launched its Beretta coupe in the United States, the two chief executives exchanged customized models of their namesake products. Mr Smith presented a Chevrolet Beretta GTU coupe to Dr Beretta, who presented a hunting rifle and shotgun to General Motors.

"We are pleased that the benefits of this settlement will combat a disease which claims victims in all countries," Dr Beretta commented. The Beretta Foundation, an independent charity established by the Beretta family, is dedicated to research in the field of breast cancer, with primary emphasis on improving patient treatment. In recent years, the Foundation has established three fully-equipped laboratories at the Spedali Civili in Brescia, Italy, and sponsored a medical fellowship in the United States. It also participates in treatment with the prestigious Ludwig Institute for Cancer Research in Bern Switzerland.

"General Motors is delighted that this agreement benefits cancer research, because this has been a special cause for us for many years," Mr Smith declared. The General Motors Cancer Research Foundation, originated by Mr Smith, annually honours preeminent cancer research scientists. It has awarded \$3.1 million since 1978. Last month, the Foundation announced an international science journalism awards program to recognize excellence in reporting about bio-medical research with application to cancer.

The Beretta company, which traces its origins to the year 1526, enjoy international renown for excellence in the firearms industry. With facilities in Europe and the United States, Beretta manufactures and markets a diversified line of sporting arms and accessories, as well as law enforcement and military firearms.

Beretta received global attention on May 22nd when it was selected for a second contract by the U.S. Armed Forces, making it the sole supplier of the U.S. Military sidearm. Beretta has supplied the standard U.S. Military sidearm since 1958 and also provides the sidearm of choice for the French Gendarmerie and the Italian Military.

# THE CROWEATERS FROM S.A.

First of all I would like to say a big thankyou to Dave Renny who was appointed the official photographer at the Central Zone Carnival held at South Australian G.C. on May 28. If any shooter snapped by Dave would like a copy of the photos, please contact Pam Smith, as I have the negatives of such.

Remember shooters in the 35-39 year age bracket, that now you have been included into the Masters Games to be held in South Australia in October. If you need an entry form please contact Pam Smith, PO Box 13, Lower Light 5501 and I will forward one by return mail. Entries for the Games close August 30, so to be eligible get those forms into the Games Office.

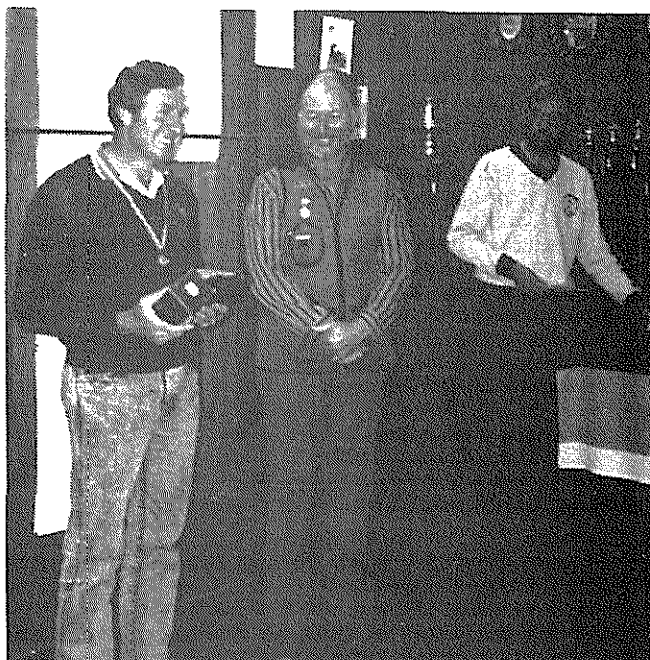

The Central Zone Trench Elimination was held at International G.C. on a bright and clear day of the holiday weekend, Monday May 15. This is the only trench elimination for the central zone so if you did not star you still have the opportunity of coming good at either the Western Zone ISU Olympic Trap Elimination to be held at Port Augusta G.C. on June 17, or the Eastern Zone elimination to be held at Mt Gambier G.C. on September 17. The finals of the ISU Olympic Trap will be held at the S.A.C.T.A. Carnival, October 7 & 8. The top six shooters at the C.Z. Trench Eliminations were — Ron Smith 87/100; P. Maher 86/100; J. Johanson 86/100; T. Kenyon 82/100; R. Dean 81/100; and P. Marcoionni 80/100.

Ron Smith, top scorer in the Central Zone Trench Eliminations 87/100 held at International G.C. May 15.

Remember please shooters that there is to be a S.A.C.T.A. General Meeting on August 12 at 7.30pm to be held in the brick clubrooms at the International Shooting Park Complex. All are most welcome to attend — the main topics to be discussed are the proposed S.A.C.T.A. Budget and the S.A.C.T.A. Constitution.

Central Zone Carnival held at S.A.G.C. May 28: This Carnival was attended by 59 shooters on a slightly overcast day — they always say the weather was not perfect — have to blame the shooting results (poor ones) on something. High Gun winners: Open — J. Johanson

High Gun Winner C.Z. J. Johanson 146/150 pictured with L. Martin.

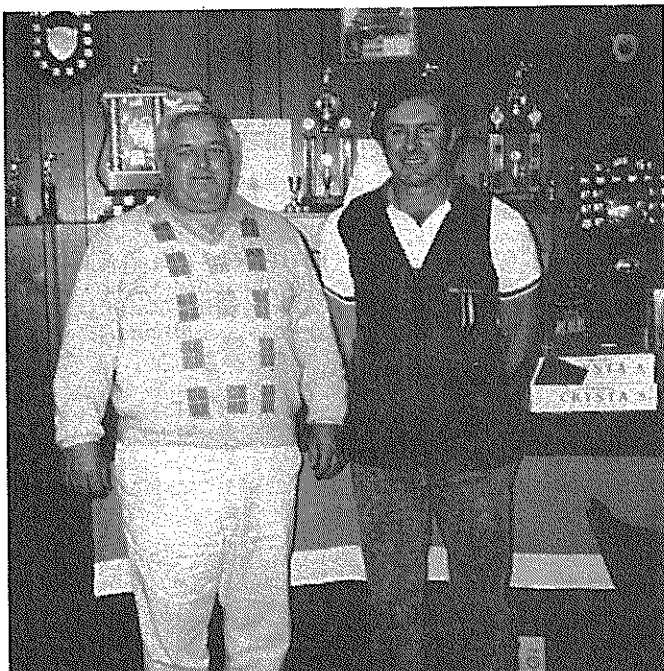

Sid Churches Memorial Team Shoot held at the C.Z. Carnival won by International G.C. Members: L-R: R. Dean, P. Marcoionni, D. Olivero, M. Martini & L. Martin.

Central Zone Team for 1989: R. Dean, J. Johanson, P. O'Connell, G. Michele, D. Olivero and L. Martin.

The Scorpio Trench Team winners at presentation Peter Marcoionni, Richard Dean, M. Martini pictured with S.A.G.C. President, Hugh Wallace.

25T P/S C'ship O/A & AA Grade G. Michele (left) 75/75 pictured with runner up J. Johanson 74/75.

Terry Kenyon, President S.A.C.T.A. happy at his other hobby — when shooting gets too frustrating, you can always go fishing.

146/150; Ladies: L. Cottell 113/125; Veterans: P. Caddy 107/125 and Junior: B. Marsden 96/125.

Mrs Churches attended this shoot to present the SID CHURCHES MEMORIAL TEAM SHOOT SHIELD which was shot in conjunction with the 25T D/B C'ship which was won by the International G.C. 121/125. Congratulations go to the team members P. Marcoionni, M. Martini, R. Dean, L. Martin, D. Olivero. Mallala G.C. came in second with 119/125. Our special thanks must be given to Mrs Churches for her support over the past years.

Also keenly contested at the Carnival was the inaugural Scorpio Trench Team Shoot Shield which was won by the International G.C. Team members being M. Martini, P. Marcoionni and R. Dean. A big thank you to Olimpyc Targets/Scorpio Cartridges, Mr Sergio Zuffo, along with his South Australian agent — S.A. Gun Club's Mr Terry Kenyon for their very much appreciated support of this event.

After this day of brilliant shooting the Central Zone Team for 1989 was selected — J. Johanson, R. Dean, G. Michele, P. O'Connell, L. Martin and D. Olivero.

A big thank you from the Central Zone's hierarchy is extended to Mrs Linda Kenyon and her workers in the canteen for keeping all our shooters well fed and watered. Also thank you to our trappers both boys and girls for their efforts during the day.

Pam Smith  
S.A.C.T.A. State Secretary

## VALE

Well known shooter, Richard Toner, passed away on May 6, 1989.

Better known as Dick, he won many Commonwealth, State, Club and District Titles, approximately 200 in all.

He won over fourteen guns around Victoria and shot well over a 300 break many times.

Dick shot 153 pair of deauville doubles at Portarlington with R. Jorgensen Jnr. He had done a lot of secretarial work for the Portarlington Gun Club before having eye trouble.

He will be very greatly missed.

A very good, close friend  
Portarlington Gun Club Members

## VALE: JOCK STEER

Members of the Wangaratta Clay Target Club were saddened by the recent death of Jock Steer.

Jock was a gentleman in every way, highly respected and liked in the community. He had a long association with the club, having served on the committee and took a very keen interest in skeet shooting and the promotion of junior shooting.

Jock will be sadly missed by his many friends at our club. Our deepest sympathy to Mrs Steer, John and Cindy.

Bev Penney,  
Secretary

## TRADE PRACTICES ACT

The attention of advertisers is drawn to the Trade Practices Act 1974 and the provisions in the Act which apply to advertising. It is not possible for the A.C.T.A. to ensure that advertisements which are published in this magazine comply in all respects with the Act and the responsibility must therefore be on the person, company or advertising agency submitting the advertisement for publication. The A.C.T.A. reserves the right to refuse any advertisement without stating the reason.

## VALE: HARRY F. COX

The death occurred on Wednesday 12th April, 1989 of Harry Franklin Cox of Hay, N.S.W., at the age of 73 years.

Harry or "Pitchfork" as he was known to the older generation of National Shooters, was recognized in the fifties and sixties as the Master of National Championship Shoot Marshals. During this period he was Marshal from 1954 till 1967.

His fantastic memory of names and faces was such that often at a big shoot, he would see shooters, say at the bar and he would remind them "Bill — you're in 67 squad — get your gun ready".

His organizing ability was such that he was appointed an official at the shooting section of the 1956 Olympic Games in Melbourne.

Harry was a shooter of some note and won numerous Championships in the Riverina area of N.S.W.

Harry was born at Hay and worked in the pastoral industry before joining the Armed Services in World War II. Upon his discharge he resumed in the pastoral area before joining the Hay P.P. Board as rabbit inspector.

As a young man he was an outstanding athlete and swimmer extending into Australian Rules Football, Shooting and Bowls.

He was a foundation member of the reformed Hay Gun Club, also serving at various times as President and Secretary. At the time of his passing he was a Life Member.

He also found time to serve on other committees in the town area and was rewarded by being elected Life Member of Hay Jockey Club and Hay Bowling Club.

Harry is survived by his wife Cossie and their six children. His largely attended funeral reflected the esteem "H.F." was held in the Hay District.

Photo courtesy "Riverine Grazier".

## ESPERANCE BAY GUN CLUB INC.

During the Easter weekend the Esperance Bay Gun Club hosted their 27th Annual Easter Carnival. Sixty two shooters contested nine events over the two and a half days for trophies and prize money totalling in excess of \$7000.

The first event on Friday at 3.00pm was 40 mixed Targets and this was sponsored by Syntex Animal Health. The finishing results were:

A Grade: 1st — David Kevill, Cunderdin 57/60; B Grade: 1st — Dave Perkin, Esperance 50/60; C Grade: 1st — Hughie Burchard, Esperance 55/60.

The next event was held at 7.30pm under lights, shooting at targets that had been painted white. This was the Night District Double Barrel Championship of 25 targets from 15 metres. Sponsor for this was the Esperance Appliance Centre. Placings were:

A Grade: 1st & O/A — Harry Miller, Esperance 25/25; B Grade: 1st — Dave Perkin, Esperance 24/25; C Grade: 1st — Hughie Burchard, Esperance 24/25.

Saturday's programme was the start of events that counted in the High Gun Aggregate for the weekend. Local businessman Danny Gavin from Esperance Grader Hire sponsored event 3 with cash prizes to the first three place getters in each grade. This event was over 50 targets with all contestants on 15 metres. David Kevill from Cunderdin took the Grand Prix sash for the best overall score and the grade placings were:

A Grade: 1st — David Kevill, Cunderdin 50/50; B Grade: 1st — Alan Brown, W.A.G.C. 48/50; C Grade: 1st — Damien Neale, Esperance 46/50.

Event 4, 10 Targets Single Barrel Mini was sponsored by the Esperance Seed Works. Overall winner with a score of 10/10 was Ray Hawke from Kalgoorlie. For this good shooting at small targets in overcast conditions, he won a

WACTA President, John Fissoli.

colour T.V. Second place with 9/10 went to Mike Welke from Esperance and third to Mark Normington from Kalgoorlie 8/10.

Millers Auctions sponsored Event 5, 50 targets Double Barrel Mini Championship. Again these mini targets were difficult to see in the overcast conditions but some good scores were recorded. The Overall winner was again David Kevill and the grade placings were:

Second time Gun Handicap winner, John Locke.

Overall High Gun winner, David Kevill.

A Grade: 1st — David Kevill, Cunderdin 47/50; B Grade: 1st — Peter Tyler, Koolan Island 45/50; C Grade: 1st — Rod Locke, Esperance 44/50.

On Sunday at 9.00am the sixth event, the District Double Barrel Championship of 25 targets from 15 metres got under way. The sponsor for this event was Gorrett Timber and Cabinet Supplies. The championship sash for the best overall score went to Mark Normington after a 46 target shootoff. Grade placings were:

A Grade: 1st — Mark Normington, Kalgoorlie 71/71; B Grade: 1st — Dave Perkin, Esperance 25/25; C Grade: 1st — Rod Locke, Esperance 23/25.

Condungup Machinery Wreckers sponsored the District

Single Barrel Championship. The winner of the sash was Des Neale a B Grade shooter. Results were:

A Grade: 1st — Mike Callaghan, W.A.G.C. 27/29; B Grade: 1st & O/A — Des Neale, Esperance 27/28; C Grade: 1st — John Locke, Esperance 22/25.

The last of the 15 metre events was sponsored by M.S.D. Agvet. This was the M.S.D. Double Barrel Graded and the winner of the sash was Harry Miller. Grade placings were:

A Grade: 1st & O/A — Harry Miller, Esperance 59/59; B Grade: 1st — Hughie Burchard, Esperance 24/26; C Grade: 1st — Rod Locke, Esperance 25/25.

The final event for the carnival was the Gun Handicap sponsored by the businessmen of Esperance. The trophy for first place was an over and under Luigi Franchi Skeet gun, second a Luigi Franchi auto shotgun and a gun case for third. For the second year running John Locke (37/38) won the gun, but this year had to survive a shootoff with three other shooters. Garry Kerr (36/38) from Southern Cross won the auto shotgun and Peter Tyler (26/28) from Koolan Island won the gun case. The best unplaced metreage prizes went to: 11-15 metres — Mario Pedrin, 16-19 Harry Miller and 20-25 David Kevill.

Towards the end of the trophy presentation the High Gun awards were made. The Ladies High Gun Trophy, donated by Westpac Bank, was won by June Roach from Bunbury.

The Junior High Gun Trophy, donated by John Harding, was won by John Fost from Bunbury.

The Veterans High Gun was donated by Nevilles Jewellers and won by Alan Brown from W.A. Gun Club.

John Harding donated the Intermediate High Gun and this was won by Rod Locke.

The Overall High Gun winner for events 3-9 was sponsored by Winchester Australia and the Esperance Sports Centre and was won by David Kevill from Cunderdin. Over all these events he dropped only 12 targets.

The Club is very grateful for all the generous support from all the sponsors, large and small. A big thanks must also go to the ladies committee for the marvellous job they did catering for the shooters and their families.

## DAY AND EXTENDED TOURS

A wide selection of tours is available to choose from. Half and full day tours will operate from March 21-31 and extended tours of Tasmania can be booked for before or after the event.

Further details are available from Dine & Associates

Telephone (002) 34 1424, (008) 030 050 or Fax (002) 34 1366.

All accommodation costs to be paid direct to the hotel on departure. To obtain your group rate all accommodation must be booked on your Registration Form through Dine & Associates. All accommodation is reserved till 6pm on day of arrival. Should you wish to arrive later than indicated on your Form, please advise the Hotel direct. Failure to arrive at all could incur one night's cost.

## GROUND TRANSPORTATION (PACKAGE DEAL) - \$99.00

Includes Airport or Abel Tasman transfers. Daily return transfers from your Hotel to Evandale each day.

This offer represents a huge saving on your ground transportation in comparison with a Rent-a-Car or taxis and has the added convenience of driver safety.

I wish to take advantage of your ground transportation offer.

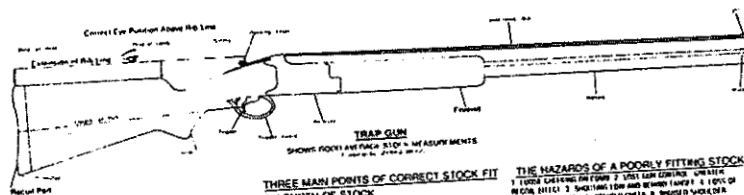

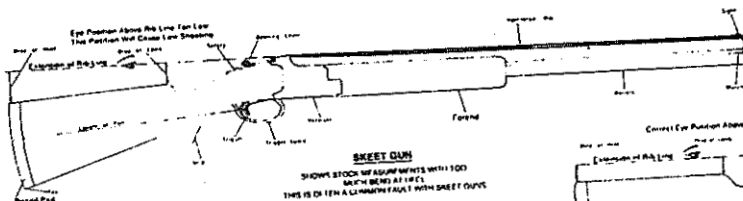

Yes ☐ No ☐

## APOLOGY

Sincere apologies to the family and friends of the late F.K. Muller who was named incorrectly as F.K. Holler in the last month's publication.

Dave McLeod  
Pt. Cook G.C.

## SOUTH EAST ZONE PREMIER TEAMS EVENT

Round 2 held at Cerberus Gun Club on April 22 in sunny, still conditions saw eighty five shooters aim at almost perfect (nothing's perfect) targets.

The double barrel with sixteen possibles went to G. Ash 104/104 who was taken that far by W. Iles 103/104. B Grade went to A. Tesoriero 57/58 and C Grade to Greg McMillan 40/41.

With the weather unaltered, seven possibles shot in the handicap ending with F. Poon 37/37, L. Connell 36/37 and D. Kendall 31/32. During this event in a masterful exhibition of backmarker shooting, Bill Iles shot the 25 targets from the 25 metre mark and took out the backmarker's trophy.

The High Gun was won by L. Connell 54/54 and the Ladies trophy went to L. Gray.

Thirteen teams contested round 2 and the top eight teams were separated by seven targets with the Metropolitan team scoring the win with 234/250.

# **AUSTRALIAN MADE TARGET SHOTSHELLS** FROM ***WINCHESTER*** **DOMINATE THE NATIONALS** ***AGAIN!***

**Over 75% chose to shoot Winchester products.**

This year again, Winchester's Australian product has won more titles than all other brands combined.

**Thanks Shooters of Australia...  
You keep Winchester No.1.**

**WINCHESTER**

# WINCHESTER

## TARGET LOADS

*Setting the pattern  
others can only follow.*

Winchester – our leadership in ammunition products is legendary.

In the toughest trap and skeet competitions, shooters have learned to rely on Winchester winning consistency.

From primer to crimp, Winchester best quality components are loaded for performance. Fast, with light recoil and patterns with perfect distribution of shot.

In shoot-off after shoot-off, Winchester's legendary performance, consistency and reliability has won through, time and time again. Over the past 10 years, Winchester Target Loads have won more Australian Shooting Titles than all other brands combined. Maybe it's the consistent, dense even patterns. Maybe it's Winchester's exclusive soft recoil design.

Whatever the reason, Winchester sets the pattern – the winning pattern – others can only follow.

WINCHESTER
